Traditional beliefs about meeting goals are fundamentally flawed. Goal setting tactics assume goals are measurable, achieved, and final-all attributes that describe objectives, not goals. Unlike objectives, which are by their very nature self-contained, goals are immeasurable. A goal is realized, not achieved, and must be maintained to remain successful. What good is the goal of losing weight if you don't keep the weight off? Losing twenty pounds is an objective. Keeping that twenty pounds from returning is a goal, which must be maintained to remain a success. In *Three Your Life*, entrepreneur and accidental expatriate David R. Sanders applies this important distinction between goals and objectives. Beginning with attitude, outlook, and perception, Sanders builds a solid foundation on which to effect major life changes. Learn to differentiate between needs, wants, and desires-and discover how focusing on desires causes everything else to fall into place. To realize desires, Sanders reevaluates conventional thinking on prioritizing tasks, using a three-part daily structure that ensures you're working toward a productive and fulfilling life. A fresh new approach to goal setting, *Three Your Life* offers the opportunity to realize your goals, achieve your objectives, and understand the difference between the two.

A powerful idea has descended on 30-year old Lane Craig, a corporate gunslinger who dreams of greatness. Simple beyond belief, powerful beyond measure, the idea won't go away. Lane knows that if managed properly, a new electronic organism will emerge and transform the Internet and his life forever. He also knows he can't do it alone. Fortunately, suitable partners are nearby. Best pal Johnny is a glib slacker coasting in life's fast lane. Thomas is freakishly brilliant but has grown surly and awkward. What's he hiding? It's only the addition of hard-charging newcomer Gino that galvanizes momentum. Will the idea triumph? Will it derail in a tumult of testosterone and alcohol? A brave face cannot mask Lane's self-doubt and paranoia. Nor can new love interest, Cat. But as the saying goes, even paranoid people have enemies. Especially when it comes to Internet riches. A smart, funny take on the Charles Dickens classic BLEAK HOUSE—for anyone who's ever held on to a dream just a little too long. New York writer Ricki Carstone knows the odds of Hollywood actually turning her debut novel, *Jarndyce and Jarndyce*, into a movie are slim. But Moxie Bernard, the most famous teen on the planet, has signed on to star in the option. Plus, the producer is throwing her a super fabulous party in Hollywood (with Moxie!) to celebrate the relaunch of her book with a younger, sexier cover. Maybe it will happen after all. Quitting her dead-end paralegal job to move out to Los Angeles and keep an eye on the project, Ricki meets a handsome out-of-work actor who encourages her to try her hand at screenwriting, and an experienced screenwriter who is willing to help her for a fee, which only starts out small. And then there's her cute neighbor Simon, who thinks her new friends are just taking advantage of her. Will Ricki ever see her name in lights and make it big in Hollywood?

"The future is dualist" is the message of this book. It argues that the future progress of humanity depends on the dualist viewpoint being adopted that takes account of both sides of an argument and corrects imbalances created by the application of extreme points of view. Dualist theory concerns dualist or one-to-one interactions and how these can explain many phenomena in nature and in our society that are inadequately accounted for by the sciences. The theory is applicable to every aspect of our existence and is all-embracing in the sense of giving us an additional way of looking at everything around us. It is a new and different way of viewing the phenomena already explicated by the sciences in their various ways. Dualist theory concerns the way that dualist interactions can be used to explain change, complexity and innovation in the universe, including how these interactions give us an insight into ourselves and our society. A dualist interaction is a one-to-one relationship between existents which is harmonious over a period of time and which leads to differences being created. These differences are caused by the respective interactions. Perhaps the most obvious example is a male-female relationship in which offspring are produced. Dualist theory also addresses many of the flaws in human thinking that are currently causing problems throughout the world. It promises a better future if these flaws are overcome in the manner suggested in this book. The point is to show how reason can solve our problems. Our reasoning powers are not to be disparaged just because past ways of thinking are now failing us. We have the brains to solve our most pressing problems in the long term. It is a matter of improving our ways of thinking and this has always been the aim of philosophy, though it has lately been remiss in that regard. We must not allow past and present failures to make us despair of our future and resort to religion as the only way forward. The later Roman Empire took that path and it crippled civilisation by terminating intellectual progress. It took centuries to repair the damage caused, and even yet we are ignorant of much of the history, literature and achievements of the Roman Empire because so much was lost through religious bigotry. As things stand, an extreme religious mentality could easily prevail and make it a crime to be doubtful and uncertain of orthodox beliefs.

In your life you come to a point when thinking about doing something just doesn't do it for you anymore. Each of us walks on this world for a purpose with particular talents and predispositions. These forces shape us and they drive our every action. My actions told me I was an adventurer at heart. However, soon I realized life was not just about being on the road. I began to broaden my thinking. I considered the bigger picture. What were the benefits of doing all this? More importantly, how is this helping anyone else besides me? Is the road even benefiting me or am I lost in my self-delusion? After six years of pursuing my adventures, I began to think what would be the best way to give back. I sat down and asked myself, what do I know? How can I present what I know? And how can it best benefit people? This book is the result of seeking an answer to these questions. By combining poetry, personal stories, and descriptive narratives, this book delivers a one of a kind piece aiming to merge skills, passion and vision and makes a compelling argument to get out and hit the Road of Life. Entertaining, insightful, and inspirational, this book presents the value of the road and how to utilize it to succeed in many aspects of life. Like the road, this book has a direction of education, but leaves room for the reader to explore and find value in areas specific to them. #1 International Best Selling Book #1 Travel Writing (USA) #1 Travel (USA) #1 Two hours or more (65-100 pages) > Travel (USA) #2 Two hours or more (65-100 pages) > Self-Help (USA) #2 Motivational (USA) #2 Essays & Travelogues (UK) #1 Essays & Travelogues (Germany) #3 Motivation (Germany) #1 Essays & Travelogues (Canada) #3 Motivational (Canada) #7 Essays & Travelogues (AUS) #8 Tourism (Brazil) #5 Travel Writing (India) #1 Tourism (Mexico)
