New 2017 edition fully updated for new 2017 Study Manual and including analysis of all FAR papers set since the introduction of the paper in September 2013. Provides over 1,000 short form questions to help you learn all aspects of the complex and detailed FAR syllabus. Designed to complement past paper practice by splitting topics and concepts into smaller and more manageable chunks which you can revise many times before the exam, helping the knowledge to sink in. Helps to build your confidence and avoid becoming overwhelmed by the large number of learning points in full exam standard questions. Instead, our Q&A tests one thing at once and therefore allows you to learn an issue properly before moving on. All questions are designed to split topics into smaller parts, allowing you to study one thing at once and gradually build up knowledge. Contains all relevant Financial Accounting and Financial Reporting questions from our previous FA and FR Q&A books for the old syllabus, updated where necessary. We have also added many new questions for FAR. This means that our Q&A will continue to cover the traditional, staple areas and will provide much more practice than the Study Manual in key areas such as cashflow statements, earnings per share, related parties and other areas. We also include a detailed introduction explaining some key revision and answering techniques for the 2 different types of FAR question (narrative or "financial reporting" style and numerical or "financial accounting" style). See www.acasimplified.com for more information on our technique and to download free PDF samples.
