substantive and measurement issues are rarely, if at all, considered. Similarly, textbooks and courses in measurement virtually ignore design and analytic questions, and research design textbooks and courses pay little attention to analytic and measurement issues. This fragmentary approach fosters a lack of appreciation of the interrelations and interdependencies among the various aspects of the research endeavor. Pedhazur and Schmelkin's goal is to help readers become proficient in these aspects of research and their interrelationships, and to use that information in a more integrated

At the age of twelve, Sophie Caco is sent from her impoverished village of Croix-des-Rosets to New York, to be reunited with a mother she barely remembers. There she discovers secrets that no child should ever know, and a legacy of shame that can be healed only when she returns to Haiti--to the women who first reared her. What ensues is a passionate journey through a landscape charged with the supernatural and scarred by political violence, in a novel that bears witness to the traditions, suffering, and wisdom of an entire people.
