NEW YORK TIMES BESTSELLER * From storytelling phenomenon and hit podcast *The Moth*--and featuring contributions from Meg Wolitzer, Adam Gopnik, Krista Tippett, Andrew Solomon, Rosanne Cash, Ophira Eisenberg, Wang Ping, and more--a new collection of unforgettable true stories about finding the strength to face the impossible, drawn from the very best ever told on its stages. Carefully selected by the creative minds at storytelling phenomenon *The Moth*, and adapted to the page to preserve the raw energy of stories told live, onstage and without notes, *Occasional Magic* features voices familiar and new. Inside, storytellers from around the world share times when, in the face of seemingly impossible situations, they found moments of beauty, wonder, and clarity that shed light on their lives and helped them find a path forward. From a fifteen-year-old saving a life in Chicago to a mother of triplets trekking to the North Pole to a ninety-year-old Russian man recalling his standoff with the KGB, these storytellers attest to the variety and richness of the human

experience, and the shared threads that connect us all. With honesty and humor, they stare down their fear, embrace uncertainty, and encourage us all to be more authentic, vulnerable, and alive.

Praise for the First Edition: 'It is a guide of vital importance to researchers, trainers and extension workers, especially those collaborating with communities in developing countries' - European Journal of Development Research 'There is much of value here that even experienced development workers might learn from.... Mikkelsen offers many insights that would be valuable to any economist undertaking field work in development' - The Australian Journal of Agricultural Economics 'An enthusiastic, vibrant supplement to methodology texts.... The formulation is concise, comprehensive, yet substantial' - Business Line 'Development researchers will be grateful to Mikkelsen for her laudable job in competently assessing their needs.... She provides an overview of the traditional and the new techniques and tools for field study' - Deccan Herald This completely revised version of the successful 1995 text covers a wide range of issues relating to research concepts and methods. It incorporates new lessons that have been learned regarding the merits and pitfalls of development work. Reflecting on how and why research in international development work has become a special case within the social sciences, this book provides innovative examples of participatory methods in action; methodological guidance on linking research purpose, questions and methods in qualitative and quantitative research; highlights new methods for development work and research like the Rights-based Approach, Appreciative Inquiry, the Social Capital Analysis

Tool and Geomatics; emphasizes the gender perspective in development work; and discusses ethics, regulations and codes of conduct, as well as the question of encounters with `other` cultures.

A synthesis of theoretical and practical research on combinatorial auctions from the perspectives of economics, operations research, and computer science.

As the recent financial crisis has revealed, the state is central to the stability of the money system, while the chaotic privately-owned banks reap the benefits without shouldering the risks. This book argues that money is a public resource that has been hijacked by capitalism. Mary Mellor explores the history of money and modern banking, showing how finance capital has captured bank-created money to enhance speculative leveraged profits as well as destroying collective approaches to economic life. Meanwhile, most individuals, and the public economy, have been mired in debt. To correct this obvious injustice, Mellor proposes a public and democratic future for money. Ways are put forward for structuring the money and banking system to provision societies on an equitable, ecologically sustainable sufficiency basis. This fascinating study of money should be read by all economics students looking for an original analysis of the economy during the current crisis.
