Knitting and crochet have long been

File Type PDF Crochet Unravalled

considered forms of folk art, but in the 21st century, these time-honoured crafts are breaking away from the outdated stereotype of cosy domesticity. Whether miniature or oversized, multi-coloured or monochrome, abstract or naturalistic, intimate or exhibitionist, knitted works are now invading galleries, museums and other

File Type PDF Crochet Unravelled

public spaces. Yarn has become a medium for artistic expression as valid and multifaceted as painting, sculpture or photography. Showcasing forty international artists who incorporate knitting, crochet and more into their practice, this book provides a survey of yarn work in contemporary art, illustrating the

File Type PDF Crochet Unravelling

huge range of ways in which these techniques have been embraced as a form of creative expression. Some artists evoke a kind of nostalgia, rediscovering skills that have fallen from fashion or promoting the value of ancient handicrafts in an industrialized world of mass-production. Others push the boundaries of knitting by

File Type PDF Crochet Unravelling

using non-traditional materials such as rope or wire, or by using its sculptural potential to tackle themes that are political, personal or transgressive. Although often associated with feelings of warmth, enclosure and familial love, yarn can also represent the ties that bind us together or a membrane that protects us from the world. Packed with

File Type PDF Crochet Unravelled

striking images, this book demonstrates how knitting needles and crochet hooks can created works of art that are challenging and unique, forcing us to take a fresh look at our own lives and beliefs and at the objects that surround us every day.

Art Online and new material written by G. Campbell. Cf. Preface.

When tasked with providing activities for older people in care homes, it can be difficult to know where to begin. What constitutes an activity? How can you make sure activities are as positive and person-

File Type PDF Crochet Unravelled

centred as possible? What can you actually do? Written by an experienced activity coordinator, this handbook is an indispensable companion for others in this role. The author provides useful background information on dementia, the importance of activities and how to get to know residents through life story work. She

File Type PDF Crochet Unravelled

addresses important practical considerations such as how to assess a resident for suitable activities, activity planning, timetabling, budgeting and money-stretching, as well as more subtle issues such as how to enthuse residents and staff to join in and how to deal with resistance from colleagues. An A-Z of inventive ideas and step-by-step instructions

File Type PDF Crochet Unravelled

for activities as wide-ranging as arts and crafts, cooking, exercise, gardening, meditation, music, reminiscence, themed days and trips out is also included. Offering peer-to-peer advice and encouragement as well as a wealth of practical ideas and suggestions, this is essential reading for all those involved in activity planning for older

people, including those with dementia, in care homes.

Japanese stitch patterns are eye-catching and much sought after by devotees, but before now, they often seemed out of reach, whether locked behind Japanese-only instructions or tangled up in difficult-to-

decipher illustrations. Japanese Stitches Unraveled offers 150 rare patterns inspired by these elusive and intricate Japanese stitch designs, along with fully illustrated charts, familiar symbols, and clear instructions for every single stitch. Each stitch pattern receives Bernard 's unique four-direction makeover—topdown, bottom-up, back-

and-forth, and in-the-round. To showcase the knitting in action, Bernard also includes instructions for six garments as well as her famous formulas for knitting without a pattern.

Care staff and voluntary workers in day centres and residential homes for elderly

File Type PDF Crochet Unravalled

people have often expressed a need for a comprehensive, readable book to guide them through their first days and help them cope with any problems that may arise. This practical and imaginative handbook draws on the long experience of an occupational therapist working with elderly people in day centres. It provides a fund of advice on

File Type PDF Crochet Unravell

caring for people who may be frail, have communication difficulties or mobility problems. It describes how to design and organise a centre, how to use mobility aids and handle wheelchairs, how to move old people and adjust their hearing aids. The author even explains how to repair a wheelchair in an emergency. The second

File Type PDF Crochet Unravelling

part of the book describes a huge range of stimulating activities, from craftwork and games to cookery, music and gardening, outings and exchanging reminiscences. Old people left with nothing to do rapidly lose their mental agility and interest in life. With a little encouragement, despite any disabilities, they can continue to acquire new

File Type PDF Crochet Unravelled

interests and play a useful role in the community, and the materials and resources needed will often be donated or acquired very cheaply. The fully updated second edition is copiously illustrated with practical line drawings, and there is an extensive appendix providing useful addresses, helpful books and a listing of some of the conditions

that may affect elderly people.

This book brings together twenty essays on diverse topics in the history and science of knots. It is divided into five parts, which deal respectively with knots in prehistory and antiquity, non-European traditions, working knots, the developing science of

File Type PDF Crochet Unravelled

knots, and decorative and other aspects of knots. Its authors include archaeologists who write on knots found in digs of ancient sites (one describes the knots used by the recently discovered Ice Man); practical knotters who have studied the history and uses of knots at sea, for fishing and for various life support activities; a historian of

File Type PDF Crochet Unravelling

lace; a computer scientist writing on computer classification of doilies; and mathematicians who describe the history of knot theories from the eighteenth century to the present day. In view of the explosion of mathematical theories of knots in the past decade, with consequential new and important scientific applications, this book

is timely in setting down a brief, fragmentary history of mankind's oldest and most useful technical and decorative device — the knot.

textiles. Together, she and Douglas Luhanko run the shop Second Sunrise in Stockholm.

D_Tex is proposed as a hub around which it is possible to look at textiles in their different forms, in order to better understand, study, adapt and project them for the future. It is intended to build a flow of ideas and

File Type PDF Crochet Unravelled

concepts so that participants can arrive at new ideas and concepts and work them in their own way, adapting them to their objectives and research. D_Tex is intended as a space for sharing and building knowledge around textile material in order to propose new understandings and explorations. Present in all areas of

File Type PDF Crochet Unravelling

knowledge, the textile material bets on renewed social readings and its evolutions to constantly reinvent itself and enable innovative cultural and aesthetic dimensions and unexpected applications to solve questions and promote new knowledge. D_Tex proposes to promote discussion and knowledge in the different areas where

File Type PDF Crochet Unravelling

textiles, with all their characteristics, can ensure an important contribution, combining material and immaterial knowledge, innovative and traditional techniques, technological and innovative materials and methods, but also new organization and service models, different concepts and views on teaching. With the

renewed idea of the intrinsic
interdisciplinarity of design and sharing with
different areas that support each other, the
research and practice of textiles was
proposed by the D_TEX Textile Design
Conference 2019, held June 19-21, 2019 at
the Lisbon School of Architecture of the
University of Lisbon, Portugal under the

theme "In Touch" where, as broadly understood as possible, different areas of textiles were regarded as needing to keep in touch with each other and end users in order to promote and share the best they can offer for the welfare of their users and consumers.
