These two works on life's fleeting pleasures are by Buddhist monks from medieval Japan, but each shows a different world-view. In the short memoir Hōjōki, Chōmei recounts his decision to withdraw from worldly affairs and live as a hermit in a tiny hut in the mountains, contemplating the impermanence of human existence. Kenko, however, displays a fascination with more earthy matters in his collection of anecdotes, advice and observations. From ribald stories of drunken monks to aching nostalgia for the fading traditions of the Japanese court, Essays in Idleness is a constantly surprising work that ranges across the spectrum of human experience. Meredith McKinney's excellent new translation also includes notes and an introduction exploring the spiritual and historical background of the works. Chōmei was born into a family of Shinto priests in around 1155, at a time when the stable world of the court was rapidly breaking up. He became an important though minor poet of his day, and at the age of fifty, withdrew from the world to become a tonsured monk. He died in around 1216. Kenkō was born around 1283 in Kyoto. He probably became a monk in his late twenties, and was also noted as a calligrapher. Today he is remembered for his wise and witty aphorisms, 'Essays in Idleness'. Meredith McKinney, who has also translated Sei Shonagon's The Pillow Book for Penguin Classics, is a translator of both contemporary and classical Japanese literature. She lived in Japan for twenty years and is currently a visiting fellow at the Australian National University in Canberra. [Essays in Idleness is] a most delightful book, and one that has served as a model of Japanese style and taste since the 17th century. These cameo-like vignettes reflect the importance of the little, fleeting futile things, and each essay is Kenko himself" Asian Student

This book explores the unfinished India–Pakistan Trade normalisation agenda (building upon the themes covered in the book "India-Pakistan Trade: Strengthening Economic Relations" published by Springer in 2014) and discusses the steps that must be undertaken in order to move the bilateral engagement forward. Given the commencement of bilateral state-level talks and the Indian government's emphasis on South Asian integration, it adds impetus to the trade liberalisation process, while also providing essential recommendations for policymakers in both countries. The unfinished agenda faces obstacles such as the list of items for which export from India to Pakistan continues to be restricted; lack of land borders and seamless cross-border transport services, which hampers the realisation of trade potential; negative reporting in the media, which influences traders' perceptions; and the continued occurrence of informal trade resulting from inadequacies of formal trade relations. The book examines various sectors, including the agricultural, textiles, automotive and pharmaceutical industries, given their predominance on the list of restricted items for bilateral trade. It also covers studies on unconventional and under-researched themes concerning informal trade, informational barriers to India–Pakistan trade, and opening new land borders for trade – all of which can play a facilitating role in realizing the untapped trade potential between India and Pakistan. The book also includes the second round of the India–Pakistan trade perception survey, which identifies impediments to India–Pakistan bilateral trade and assesses the change in traders' perceptions since the first round of the survey, which was published in 2014.

This companion handbook to Green Witchcraft explores the Green path and the ways of Green magic.

Particle technology is a term used to refer to the science and technology related to the handling and processing of particles and powders. The production of particulate materials, with controlled properties tailored to subsequent processing and applications, is of major interest to a wide range of industries, including chemical and process, food, pharmaceuticals, minerals and metals companies and the handling of particles in gas and liquid solutions is a key technological step in chemical engineering. This textbook provides an excellent introduction to particle technology with worked examples and exercises. Based on feedback from students and practitioners worldwide, it has been newly edited and contains new chapters on slurry transport, colloids and fine particles, size enlargement and the health effects of fine powders. Topics covered include: Characterization (Size Analysis) Processing (Granulation, Fluidization) Particle Formation (Granulation, Size Reduction) Storage and Transport (Hopper Design, Pneumatic Conveying, Standpipes, Slurry Flow) Separation (Filtration, Settling, Cyclones) Safety (Fire and Explosion Hazards, Health Hazards) Engineering the Properties of Particulate Systems (Colloids, Respirable Drugs, Slurry Rheology) This book is essential reading for undergraduate students of chemical engineering on particle technology courses. It is also valuable supplementary reading for students in other branches of engineering, applied chemistry, physics, pharmaceuticals, mineral processing and metallurgy. Practitioners in industries in which powders are handled and processed may find it a useful starting point for gaining an understanding of the behavior of particles and powders. Review of the First Edition taken from High Temperatures - High pressures 1999 31 243 – 251 ".This is a modern textbook that presents clear-cut knowledge. It can be successfully used both for teaching particle technology at universities and for individual study of engineering problems in powder processing."

Hope Glassy loves her job at Amberey, Inc., despite having Jolie Garoul as her new boss. Jolie is a moody workaholic. She is awkward, contrary, & on occasion, just plain mean. Hope is hardworking, popular & in recovery from a serious illness. She really doesn't need a bizarre boss. Will the two women ever see eye to eye?

Mail-order bride Edwina Ladoux is grateful for the three-month courtship period she agreed to with Declan Brodie and his four rambunctious children, but experiences a change of heart when Declan's first wife suddenly returns.

This compelling novel follows four women as they learn to balance children, estranged husbands, boyfriends, and problems at work through their faith in God. Michelle, Tonya, Mrs. Judson, and Miz Ida. African-American, white, rich, poor -- they seemingly have nothing in common. Yet every day they face the complex realities of twenty-first-century urban life as they try to balance their needs with their belief in God. Through the course of a year, these women must come to terms with the past, discover their true identities, and recognize the unexpected miracles that reveal God's all-encompassing love. These four women entertain us and invite us to join in their lives. As they welcome us, they also introduce us to the men in their lives. The men play supporting roles, adding color and zest to the lives of the Cover Girls. Bishop Jakes knows the struggles real women encounter and the losses that make it difficult to face the future. He brings compassionate insight and deep wisdom to this novel and proves that he is not only a gifted preacher, but a born storyteller.
