“The most powerful spiritual healer, fixer, teacher on the planet.” —Oprah Winfrey From the host of the OWN TV show, Iyanla: Fix My Life, the companion workbook to Iyanla Vanzant's #1 New York Times bestseller *In the Meantime* provides an easy, step-by-step program to help you begin the healing process after facing adversity. Are you in the Meantime? Are you confused, angry, disappointed, frustrated, anxious, apprehensive, sorry for yourself, or generally wiped out? If so, my friend, you are in the meantime. Are you ready to put the pieces of your life together? Are you ready to begin the process of healing? Are you ready to give and receive love in all of your experiences? In *Living Through the Meantime*, bestselling author Iyanla Vanzant will lead you, step-by-step, to a greater understanding of your own past, your motivations, and your desires. Once you have completed this program of meditation, self-care, and self-examination, you will be able to move beyond your meantime experience and into the love that is your true essence.

Japan and Italy encountered severe economic problems in the early 1990s, and the governments had to deal with those issues effectively under the increasing neoliberal pressures of globalisation. In this context, labour market deregulation was considered an effective tool to cope with those economic problems. However, the forms and degrees of labour market deregulation in the two countries were quite different. This book seeks to explain the differences in labour market deregulation policies between Japan and Italy, despite the fact that the two countries shared a number of similar political, social and labour market (if not cultural) characteristics. Uniquely, it takes a political, rather than economic or sociological perspective to provide a theoretical and empirical analysis of the processes of labour market deregulation in the two countries. The precarious working conditions of an increasing number of non-regular workers has become a prominent social issue in many industrialised countries including Japan and Italy, but the level of the protection for these workers depends on a country's labour market policies, which are affected by the power resources of labour unions and labour policy-making structures. This book provides a useful perspective for understanding the root causes of this phenomenon, such as the diffusion of 'neoliberal' ideas aimed at promoting labour-market flexibility under globalisation, and demonstrates that there is still room for politics to decide the extent of deregulation and maintain worker protection from management offensives even in an era of globalisation. *Labour Market Deregulation in Japan and Italy: Worker Protection under Neoliberal Globalisation* will appeal to students and scholars of Japanese politics, Italian politics, political economy and comparative politics.

Until recently, evolutionary psychologists have considered human mating behavior to be universal and similar to other animals, painting a picture of human mating as visceral, animalistic, and instinctual. But that's not the whole story. In courtship and display, sexual competition and rivalry, we are guided by Mating Intelligence, or the range of psychological abilities designed for sexual reproduction. In this book, psychologists Glenn Geher and Scott Barry Kaufman take a fascinating tour of the intersection of r sing and intelligence by drawing on cutting-edge research on evolutionary psychology, intelligence,

creativity, personality, social psychology, developmental psychology, neuroscience, epigenetics, and more. This book will change the way you think about sex, dating, love, and the human mind.

Mercedes Lackey's triumphant return to the best-selling world of Valdemar, *Take a Thief* reveals the untold story of Skif--a popular character from Lackey's first published novel, *Arrows of the Queen*. Skif was an orphan who would have died from malnutrition and exposure if he had never met Deke the pickpocket. By the time he was twelve, Skif was an accomplished cat burglar. But it wasn't until he decided to steal a finely tacked-out white horse, which was, oddly enough, standing unattended in the street, that this young thief discovered that the tables could turn on him--and that he himself could be stolen!

Senegalese Murid migrants have circulated cargo and currency through official and unofficial networks in Africa and the world. *Muslim Families in Global Senegal* focuses on trade and the transmission of enduring social value through cloth, videos of life-cycle rituals, and religious offerings. Highlighting women's participation in these networks and the financial strategies they rely on, Beth Buggenhagen reveals the deep connections between economic profits and ritual and social authority. Buggenhagen discovers that these strategies are not responses to a dispersed community in crisis, but rather produce new roles, wealth, and worth for Senegalese women in all parts of the globe.
