With wit and irreverence, in question-and-answer form, Don't Know Much About History took readers on a rollicking ride through more than five hundred years of American history, from Columbus's voyages to recent events. The book became an instant classic and has sold more than 1.6 million copies.

Which president broke the law to prevent enslaved people from being freed? Who said, "When the president does it, that means it's not illegal"? Why does America have a president? From the heated debates among the framers of the Constitution in 1787 over an "elected king," to the creation of the presidency, and on through rich profiles of each man who has held the office, New York Times bestselling author Kenneth C. Davis takes readers on a guided tour of American history. Examining each chief executive, from the low lights to the bright lights, the memorable to the forgettable and the forgotten, Davis tells all the stories, offering rich anecdotes about real people. He also charts the history of the presidency itself, debunking myths and grading the presidents from A+ to F. For history buffs and history-phobes alike, this entertaining book may change your understanding of the highest office in the land throughout more than two hundred years of history.

A new, completely revised, expanded and updated edition of the million-selling New York Times bestseller that launched the entire Don't Know Much About® series When Don't Know Much About® History first appeared thirteen years ago, it created a sensation. With humor, wit, great stories, and a trademark conversational style, the book brought Americans a fresh new take on history. Shattering myths and vividly bringing the past to life, it spent thirty-five consecutive weeks on the New York Times bestseller list. Davis proved that Americans don't hate history -- they just hate the dull textbook version they were force-fed in school. The book became an instant classic, an "anti-textbook" that has sold more than 1.3 million copies. In his irreverent and popular question-and-answer style, Davis now returns with a completely revised edition that brings history right up to the moment -- covering such topics as the end of the Cold War, Clinton's impeachment, the bizarre election of 2000, and the events that led to September 11. Incorporating new research and discoveries, Davis also updates and expands on such long-standing American controversies as the Jefferson-Hemings affair, the Alger Hiss trial, and the Rosenberg spy case. And he includes an expanded "civics lesson" that examines some of America's hottest social and political issues, such as the death penalty, gun control, and school prayer. For history buffs and history-phobes alike, longtime fans who need a refresher course, and for a new generation of Americans who are still in the dark about America's past, Davis proves once more why People magazine said, "Reading him is like returning to the classroom of the best teacher you ever had."

Presents, in question and answer format, a history of the United States from the exploration of Christopher Columbus to the terrorist attacks of September 11, 2001. Simultaneous.

Davis first dazzled audiences with his instant classic Don't Know Much About® History, vividly bringing the past to life and proving that Americans don't hate history, they just hate the dull, textbook version they were fed in school. Now, in the classic traditions of Edith Hamilton and Joseph Campbell, he turns his talents to the world of myth. Where do we come from? Why do stars shine and the seasons change? What is evil? Since the beginning of time, people have answered such questions by crafting imaginative stories that have served as religion, science, philosophy, and popular literature. In his irreverent and popular question-and-answer style, Davis introduces and explains the great myths of the world, as well as the works of literature that have made them famous. In a single volume, he tackles Mesopotamia's Gilgamesh, the first hero in world mythology; Achilles and the Trojan War; Stonehenge and the Druids; Thor, the Nordic god of thunder; Chinese oracle bones; the use of peyote in ancient Native American rites; and the dramatic life and times of the man who would be Buddha.
