Ella Minnow Pea, A Novel in Letters by Mark Dunn was written in 2001 and has a timeless appeal. It is taught in schools; there are Sparks notes on the Internet . It is broad satire woven with the intricate detail of wordsmithery (that's a neologism, a made up word and a portmanteau word: hybrid of two).

It is clever, not just because it is a physically difficult task, but also because Dunn manages to express so much emotion in so many ways, and when Ella's heart breaks, my heart broke too. The format itself, a series of somewhat connected letters, is a very novel and highly effective form of delivery.

An epistolary novel set on a fictional island off the South Carolina coastline, 'Ella Minnow Pea' brings readers to the hometown of Nevin Nollop, inventor of the pangram 'The Quick Brown Fox Jumps Over the Lazy Dog'. Deified for his achievement in life, Nevin has been honored in death with a monument featuring his famous phrase. One day, however, the letter 'Z' falls from the monument, and some of the islanders interpret the missing tile as a message from beyond the grave. The letter 'Z' is banned from use. of South Carolina. Nollop was named after Nevin Nollop, author of the immortal phrase containing all the letters of the alphabet, "The quick brown fox jumps over the lazy dog." Now Ella finds herself acting to save her friends, family, and fellow citizens from the encroaching totalitarianism of the island's Council, which has banned the use of certain letters of the alphabet as they fall from a memorial statue of Nevin Nollop. As the letters progressively drop from the statue they also disappear from the novel. The result is both a hilarious and moving story of one girl's fight for freedom of expression, as well as a linguistic tour de force sure to delight word lovers everywhere.

Tells the story of Jonathan Blashette, a three-legged circus performer and the CEO of Dandy-de-odor-o Inc., in a novel composed entirely of footnotes.

Recounts what happens when the citizens of an island must rely on all their ingenuity to communicate in an increasingly limited language when the government progressively bans letters from the alphabet.

"...a daunting triumph of will pushing its way through imposing roadblocks to a magical country, an absurdist nirvana of humor, pathos, and loss."--Time magazine A Void is a metaphysical whodunit, a story chock-full of plots and subplots, of trails in pursuit of trails, all of which afford Perec occasion to display his virtuosity as a verbal magician. It is also an outrageous verbal stunt: a 300-page novel that never once employs the letter E. The year is 1968, and as France is torn apart by social and political anarchy, the noted eccentric and insomniac Anton Vowl goes missing. Ransacking his Paris flat, his best friends scour his diary for clues to his whereabouts. At first glance these pages reveal nothing but Vowl's penchant for word games, especially for "lipograms," compositions in which the use of a particular letter is suppressed. But as the friends work out Vowl's verbal puzzles, and as they investigate various leads discovered among the entries, they too disappear, one by one by one, and under the most mysterious circumstances . . .
