The idealized Matrix would have a narrower focus and less of a desire to present long, boring levels; put the guns away, focus on a killer hand-to-hand combat system. Instead, you get minor characters beating up rent-a-cops in a warehouse or a sewer. Judged on its own, Enter the Matrix is a decidedly mediocre game.

Spiritual development occurs from within a person, and demands the awakening of a life ' s conscience. This conscience starts with a duality, in which we don ' t allow ourselves to stay permanently in one of the two poles, as many people, deluded by materiality tend to do. In other words, we can only ascend beyond the material sphere of life when we gain conscience of both the good and bad that life has to offer, but also the relation between both in our growth. There are many paths possible to gain such awareness, but they demand the acknowledgment of emptiness and the detachment from ego. This can be exercised with proper meditation and a conscious existence. As the perspective about life increases in perceptions and awareness, the duality within is also accepted. In this universe, the individual is both a receiver and seeker, passive and active, restless and comforted, because he can see the physical world as it is, and deny it at the same time. However, before anyone reaches the final stage, commonly known as enlightenment, there are others which are necessary to study and acknowledge. The purpose of this book is to describe them, so that anyone may know how to experience a more spiritual existence.

What you see of God is only part of the story. From the time Blake Healy was a small child, he has seen angels, demons, and other spiritual things. He sees them with his naked eyes, as vividly and clearly as anything else. Everyplace he goes, every person he meets, every day that goes by, he sees in the spirit. After thirty years of seeing in the spirit, one thing has consistently been the most painful for him to see. It is not when he sees someone trapped in demonic oppression. It is not when he sees the gaping wounds of emotional trauma. It is when he sees the goodness of God go unclaimed by His people. In this book Healy takes readers on a journey of rediscovering the goodness of God. It fills the churches we visit every week. It moves across the sea from nation to nation. All we have to do is learn how to see it and receive it, and then we will watch every corner of the world be completely transformed by the power of His profound good. Other books by Blake Healy include: The Veil
