Expanded and updated from the Electronic Resources section, The APA style guide to electronic resources outlines for students and writers the key elements with numerous examples. Dissertations and theses, bibliographies; curriculum and course material, reference materials, including Wiki; gray literature, such as conference hearings, presentation slides, and policy briefs; general interest media and alternative presses such as audio podcasts; and online communities, such as Weblog posts and video Weblog posts.

Offers an architectural overview of the programming language, including Entity Beans, Session Beans, transactions, design strategies, and XML deployment descriptors.

A detailed history and analysis of the actual statutes behind the Internal Revenue Code revealing the surprisingly limited reach of the American income tax.

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The Canadian Heart Health Initiative (CHHI) is a multi-level strategy for the prevention of cardiovascular disease, the major cause of death & disability and of rising health care costs in Canada. This report begins with an overview of the CHHI, including the strategies employed. Chapters two & three present data from a process evaluation of the CHHI, including resource inputs to the provincial heart health programs, a profile of the projects undertaken relative to the key strategies used, the risk factors addressed, the populations targeted, and settings through which interventions were delivered. Chapter four focusses on lessons learned and reviews contextual influences, resource issues, organizational management structures, evaluation strategies, and technical support provided. The final chapter presents conclusions of the evaluation & makes recommendations for future action.
