The economies of South Korea and Taiwan in the second half of the twentieth century are to scholars of economic development what the economy of Britain in the late eighteenth and early nineteenth centuries is to economic historians. This book, first published in 2006, is a collaboration between a leading trade economist and a leading economic sociologist specializing in East Asia, and offers an explanation of the development paths of post-World War II Korea and Taiwan. The ambitions of the authors go beyond this, however. They use these cases to reshape the way economists, sociologists, and political scientists will think about economic organization in the future. They offer nothing less than a theory of, and extended evidence for, how capitalist economies become organized. One of the principal empirical findings is that a primary cause for the industrialization of East Asia is the retail

revolution in the United States and the demand-responsiveness of Asian manufacturers.

Collector's Originality Guide: Ford Model A is the definitive guide to one of the greatest cars in American history: The Ford Model A. The successor to the ubiquitous and world-changing Model T, the Model A arrived on the scene in 1928 to considerable fanfare, thanks to the marketing genius of Henry Ford. And this much-hyped car delivered exactly what the public wanted: a solid, reliable, up-to-date--and beautiful--new car. Naturally, this car became an instant classic, and has been a favorite among collectors and restorers for decades. In this paperback reissue of the highly popular hardcover book, author and photographer Jim Schild walks through all of the details of the Model A's four-year production, providing collectors with everything they need to know to identify, classify, and restore these fabulous cars. Filled with gorgeous color photography, this book has been and continues to be a must-have for all Model A fans.

When the market doesn't seem to be growing, you need this guide "for mature companies looking to rejuvenate themselves" in order to keep your business competitive (Publishers Weekly). Though most companies claim to be growth oriented, surprisingly few actually achieve double-digit growth--and over the past 10 years, that percentage has steadily decreased.

SELECTED AS A 2008 BEST BUSINESS BOOK OF THE YEAR BY THE ECONOMIST The Net Generation Has Arrived. Are you ready for it? Chances are you know a person between the ages of 11 and 30. You've seen them doing five things at once: texting friends, downloading music, uploading videos, watching a movie on a two-inch screen, and doing who-knows-what on Facebook or MySpace. They're the first generation to have literally grown up digital--and they're part of a global cultural phenomenon that's here to stay. The bottom line is this: If you understand the Net Generation, you will understand the future. If you're a Baby Boomer or Gen-Xer: This is your field guide. A fascinating inside look at the Net Generation, Grown Up Digital is inspired by a \$4 million private research study. New York Times bestselling author Don Tapscott has surveyed more than 11,000 young people. Instead of a bunch of spoiled "screenagers" with short attention spans and zero social skills, he discovered a remarkably bright community which has developed revolutionary new ways of thinking, interacting, working, and socializing. Grown Up Digital reveals: How the brain of the Net Generation processes information Seven ways to attract and engage young talent in the workforce Seven guidelines for educators to tap the Net Gen potential Parenting 2.0: There's no place like the new home Citizen Net: How young people and the Internet are transforming democracy Today's young people are using technology in ways you could never imagine. Instead of passively watching television, the "Net Geners" are actively participating in the distribution of entertainment and information. For the first time in history, youth are the authorities on something really important. And they're changing every aspect of our society--from the workplace to the marketplace, from the classroom to the living room, from the voting booth to the Oval Office. The Digital Age is here. The Net Generation has arrived. Meet the future.
