From the second century to the seventeenth, from Irenaeus to Grotius, this unique reader provides a coherent overview of the development of Christian political thought. The editors have collected readings from the works of over sixty-five authors, together with introductory essays that give historical details about each thinker and discuss how each has contributed to the tradition of Christian political thought. Complete with important Greek and Latin texts available here in English for the first time, this volume will be a primary resource for readers from a wide range of interests.

Two of today’s leading experts on the Christian political tradition plumb significant moments in premodern Christian political thought, using them in original and adventurous ways to clarify, criticize, and redirect contemporary political perspectives and discussions. Drawing on the Bible and the Western history of ideas, Oliver and Joan Lockwood O’Donovan explore key Christian voices on "the political" -- political action, political institutions, and political society. Covered here are Bonaventure, Thomas, Ockham, Wycliff, Erasmus, Luther, Grotius, Barth, Ramsey, and key modern papal encyclicals. The authors' discussion takes them across a wide range of political concerns, from economics and personal freedom to liberal democracy and the nature of statehood. Ultimately, these insightful essays point to political judgment as the strength of the past theological tradition and its eclipse as the weakness of present political thought.

This volume explores contemporary Christian political theology, discussing its traditional sources, its emergence as a discipline, and its key issues.

It is not a secret that the political system in the United States is broken. Unfortunately, many Christians are ambivalent about, or worse yet, contributors to that dysfunction. Many know they should do something but don't know what to do or how to do it. Drawing on insights from history, theology, and culture, Worshiping Politics reframes the relationship between faith and politics as one of intentional formation instead of divisive decision-making. When we focus on how we are formed as people and the church in relationship to our various communities instead of what we think and believe in relation to culture and society, it changes the way we engage the world. Unlearning our faulty emphasis on the power of our own intellect and learning how to be formed in grace and love for the world through our everyday lives just might make a different kind of politics possible.

In a culture obsessed with law, judgment, and violence, this book challenges Christians to remember that Jesus urged his followers to judge no one, bring harm upon no one, and follow no law save the law of altruistic love. It traces Christian history first to show that Christians of an earlier age took very seriously the gospel injunctions against punitive legal judgment and then how the advent of formal legal codes and philosophical dualism undermined that perspective to create a division between a private Christian spirituality and a public morality of order and legally sanctioned violence. This historical approach is accompanied by an argument that the recovery of a Christian ethic based upon unconditional love and forgiveness cannot be accomplished without the renewal of a Christian spirituality that mirrors the contemplative spirituality of Jesus.

All Christian colleges and universities hail the integration of faith and learning as a premier mission objective. There is less agreement as to what the integration of faith and learning should look like in pedagogical and cross-disciplinary terms. This volume proposes that faith and learning are interrelated from the start. Discovery of truth within the academic disciplines cultivates discipline-specific wisdom that both accords with all reality and complements the whole counsel of God. Where Wisdom May Be Found brings together a faculty of twenty-seven accomplished voices from across curricula to celebrate each field's capacity for revealing wisdom from all corners of God's creative design. In synthesis, these voices declare the depth and richness of the wisdom and knowledge of God for the educational advancement and holistic equipping of the corporate people of God.

The third in a series of books that result from annual conferences of the top evangelical hermeneutical scholars in the world.

Concepts of Nature compare and contrast classical, medieval, and modern conceptions of nature in order to better understand how and why the concept of nature no longer seems to provide a limit or standard for human action. These essays also evaluate whether a rearticulation of pre-modern ideas (or perhaps a reconciliation or reconstitution on modern terms) is desirable and/or possible. Edited by R. J. Snell and Steven F. McGuire, this book will be of interest to intellectual historians, political theorists, theologians, and philosophers.

Human rights are thought to guarantee pluralism by protecting individual liberty from imposed religious conceptions of virtue. Yet critics often argue that this secular focus on merely avoiding violations can also enable unfettered individualism and undermine appeals to the common good. This book uncovers in secular rights pioneer Hugo Grotius a rights theory that points toward the enlargement of individual responsibility. It grounds this connection in Grotius’ unexplored theological corpus, which reveals a dual metaethics and jurisprudence. Here a deontological natural law undergirds a secular theory of rights that is self-aware of its own limitations. A teleological practical reason then guides the exercise of these rights, so as not to compromise the political order that defends them. The book then illustrates this symbiosis of rights and responsibilities in five areas: consent theories of government, rights of rebellion, criminal punishment, war and international responsibility, and Atonement theology. This reassesses Grotius’ legacy as a secularist opponent of classical political thought, and suggests that modern liberalism and universal human rights are compatible with a world of resurgent religion.
