Dr. Myles Bader spent 10 years researching surefire ways to rid your property of unwanted pests. "Grandmother's Critter Ridder Book" discloses thousands of ingenious methods for doing away with just about every kind of insect and critter you can think of--using natural substances for safer results.

Former executive editor of The New York Times and one of our most eminent journalists Jill Abramson provides a “valuable and insightful” (The Boston Globe) report on the disruption of the news media over the last decade, as shown via two legacy (The New York Times and The Washington Post) and two upstart (BuzzFeed and VICE) companies as they plow through a revolution that pits old vs. new media. “A marvelous book” (The New York Times Book Review), Merchants of Truth is the groundbreaking and gripping story of the precarious state of the news business. The new digital reality nearly kills two venerable newspapers with an aging readership while creating two media behemoths with a ballooning and fickle audience of millennials. “Abramson provides this deeply reported insider account of an industry fighting for survival. With a keen eye for detail and a willingness to interrogate her own profession, Abramson takes readers into the newsrooms and boardrooms of the legacy newspapers and the digital upstarts that seek to challenge their dominance” (Vanity Fair). We get to know the defenders of the legacy presses as well as the outsized characters who are creating the new speed-driven media competitors. The players include Jeff Bezos and Marty Baron (The Washington Post), Arthur Sulzberger and Dean Baquet (The New York Times), Jonah Peretti (BuzzFeed), and Shane Smith (VICE) as well as their reporters and anxious readers. Merchants of Truth raises crucial questions that concern the well-being of our society. We are facing a crisis in trust that threatens the free press. “One of the best takes yet on journalism’s changing fortunes” (Publishers Weekly, starred review), Abramson’s book points us to the future.

A standout middle grade adventure with a sassy, memorable heroine and a charming Southern feel, perfect for fans of Kate DiCamillo and Natalie Lloyd. Twelve-year-old haunt huntress apprentice Evangeline Clement spends her days and nights studying the ways of folk magic, honing her monster-hunting skills while pursuing local bayou banshees and Johnny revenants. With her animal familiar sure to make itself known any day now, the only thing left to do is prove to the council she has heart. Then she will finally be declared a true haunt huntress, worthy of following in the footsteps of her long line of female ancestors. But when Evangeline and her grandmother are called to New Orleans to resolve an unusual case, she uncovers a secret that will

shake her to the soles of her silver-tipped alligator-skin boots. Set in the evocative Louisiana bayou and the vibrant streets of New Orleans, Evangeline 's is a tale of loyalty and determination, the powerful bonds of friendship and family, and the courage to trust your gut no matter how terrifying that might be.

WALL-E, a trash-compacting robot from Earth who followed the robot probe EVE back to the spaceship Axiom, helps to free the rejected robot servants held in the repair ward of the spaceship.

From the bestselling author of *In Her Shoes*, *All Fall Down* and the forthcoming novel *Who Do You Love*, *Good in Bed* is a funny and tender story full of heart. Cannie Shapiro never wanted to be famous. The smart, sharp, plus-sized reporter was perfectly happy writing about other people's lives for her local newspaper. And for the past twenty-eight years, things have been tripping along nicely for Cannie. Sure, her mother has come charging out of the closet, and her father has long since dropped out of her world. But she loves her job, her friends, her dog and her life. She loves her apartment and her commodious, quilt-lined bed. She has made a tenuous peace with her body and she even felt okay about ending her relationship with her boyfriend Bruce. But now this... 'Loving a larger woman is an act of courage in our world,' Bruce has written in a national woman's magazine. And Cannie - who never knew that Bruce saw her as a larger woman, or thought that loving her was an act of courage - is plunged into misery, and the most amazing year of her life.

A unique blend of traditional folklore and contemporary customs brings the Chinese Mid-Autumn Festival to life. Two sisters and their grandmother celebrate a popular Chinese holiday with family. Their favorite part? Mooncakes, of course--along with Ah-ma's story of the ancient Chinese tale of Hou Yi, a brave young archer, and his wife, Chang'E. A long, long time ago, Hou Yi rescued the earth from the heat of ten suns. The Immortals rewarded him with a magic potion that could let him live in the sky with them forever. But when a thief tries to steal the potion, what will Chang'E do to keep it out of dangerous hands? The sisters are mesmerized by Ah-ma's retelling and the fact that the very mooncakes they enjoy each holiday are a symbol of this legend's bravest soul.

Indianapolis Monthly is the Circle City 's essential chronicle and guide, an indispensable authority on what 's new and what 's news. Through coverage of politics, crime, dining, style, business, sports, and arts and entertainment, each issue offers compelling narrative stories and lively, urbane coverage of Indy 's cultural landscape.

This book constitutes the refereed proceedings of the 14th International Conference on Entertainment Computing, ICEC 2015, held in Trondheim, Norway, in September/October 2015. The 26 full papers, 6 short papers, 16 posters, 6 demos and 6 workshops/tutorial descriptions presented were carefully reviewed and selected from 106 submissions. The multidisciplinary nature of Entertainment Computing is reflected by the papers. They focus on computer games; serious games for learning; interactive games; design and evaluation methods for Entertainment Computing; digital storytelling; games for health and well-being; digital art and installations; artificial intelligence and machine learning for entertainment; interactive television and entertainment.
