ACSM ' s Health/Fitness Facility Standards and Guidelines, Fourth Edition, presents the current standards and guidelines that help health and fitness establishments provide high-quality service and program offerings in a safe environment. This text is based in large part on both the work that has begun through the NSF international initiative to develop industry standards to serve as the foundation for a voluntary health and fitness facility certification process and the third edition of ACSM ' s Health/Fitness Facility Standards and Guidelines. The ACSM ' s team of experts in

academic, medical, and health and fitness fields have put together an authoritative guide for facility operators and owners. By detailing these standards and guidelines and providing supplemental materials, ACSM ' s Health/Fitness Facility Standards and Guidelines provides a blueprint for health and fitness facilities to use in elevating the standard of care they provide their members and users as well as enhance their exercise experience. The fourth edition includes new standards and guidelines for pre-activity screening, orientation, education, and supervision; risk management and emergency procedures; professional staff and independent contractors; facility design and construction; facility equipment; operational practices; and signage. This edition includes these updates:

- Standards and guidelines aligned with the current version of the pending NSF international health and fitness facility

consent forms, and evaluation forms. Appendixes also contain more than 30 supplements, such as sample preventive maintenance schedules, checklists, and court and facility dimensions. Included in appendix A is Blueprint for Excellence, which allows readers to search efficiently for specific information regarding the standards and guidelines within the book. Health and fitness facilities provide opportunities for individuals to become and remain physically active. As the use of exercise for health care prevention and prescription continues to gain momentum, health and fitness facilities and clubs will emerge as an integral part of the health care system. The fourth edition of ACSM ' s Health/Fitness Facility Standards and Guidelines will assist health and fitness facility managers, owners, and staff in keeping to a standard of operation, client care, and service that will assist members and users in caring
