In this newest children's book from Anne-Margot Ramstein, she explores different perspectives, usually in nature. It's wordless and oversized, nearly coffee-table-book size. As the title suggests, Inside Outside contains illustrations of various images showing how each appears inside and outside.

My husband and I will be staying in Paris for 10 days which I feel will be a bit long for my husband in a "big city".. I am looking for different and exciting places we could visit for day visits (or maybe an overnight) other than the usual Versailles or Monet Gardens - I know we must include these in day visits. We will not have a car so will be relying on trains etc

The Knoedler Gallery Archive illuminates the business relationships and records of one of America's oldest and most preeminent art galleries. Founded in 1848 as the New York branch of the French firm Goupil & Cie before the creation of most museums in this country, the Knoedler Gallery was able to play a central role as a conduit for the masterworks that established American collections.

Part of the Inside-Outside series this book gives useful information, which is suitable for adults and children alike, on the interesting historical sites of Paris. It features attractions such as Notre-Dame cathedral, the Paris Opera House and the Pompidou Centre.

With her sweeping perspectives, vivid colors and abundant details, author and artist Roxie Munro portrays Paris, the City of Light, with respect for both its revered traditions and its modern panache. Seen from one angle and then another, the world's most beloved capital offers a wealth of treasures for children and travelers of all ages. The Tuileries Gardens with its gaily spinning carousel; a streamlined patisserie turning out artful pastries; the majestic Arc de Triomphe; and the vista it affords -- these are just some of the vibrant sites and setting to which Ms. Munro turns her gift for drama, pattern, and color. From the ultramodern Pompidou Center to an open-air market, from boats cruising the Seine to booksellers on its banks, this book is full of light and life.

Illustrations and brief text present some noted sights in Paris, including the Eiffel Tower, the Arch of Triumph, the Metro subway, and a puppet theater.

By the time Timber Marlow is fifteen years old, she has already killed three men. Despite the

bloody and violent nature of their deaths, Timber is hardly a murderer, at least not in the traditional sense of the word. She has lived her entire life as a cannibal within a cult tucked away in the San Bernardino Mountains called the Divinity of Feminine Reproach. She watches rituals where Divinity members are tied down and beheaded by their leader, Daddy Marlow. The Divinity keeps itself isolated from the Outside, which is the mainstream society beyond its invisible borders. When the opportunity presents itself, Timber escapes into the Outside, bearing witness to some dark and unsettling truths about the world around her and the integral role she plays in it. And no matter how long she stays away, Timber finds out the past isn't as far away as she thinks it is. In this debut novel, laced with scenes of horrific violence and uplifting humanity, Martin Lastrapes has written a one-of-a-kind story about love, friendship, sacrifice, and cannibalism.

This book is a collection of color photos of ordinary, familiar items around the home. There are images of tables, books, windows, couches, and pillows. Such things are part of life every day. Photos taken outside include flowers, trees, bottles, mailboxes, and tricycles. I attempted to capture images of that which is common, but quite attractive, paying close attention to photographic composition. After all, not everyone lives in Paris.
