This book is the most complete and up-to-date resource on Java from programming guru, Herb Schildt -- a must-have desk reference for every Java programmer.

This definitive guide contains complete details on the Java language, its class libraries, and its development environment along with hundreds of examples and expert techniques. Fully updated to cover the latest features of Java 2, v1.4, including the new I/O API, regular expressions, chained exceptions, the assert keyword, and upgrades to Java's networking classes and the Collections Framework, this comprehensive reference is a must-have for every Java programmer.

The revised edition of the classic Core Java™, Volume II—Advanced Features, covers advanced user-interface programming and the enterprise features of the Java SE 6 platform. Like Volume I (which covers the core language and library features), this volume has been updated for Java SE 6 and new coverage is highlighted throughout. All sample programs have been carefully crafted to illustrate the latest programming techniques, displaying best-practices solutions to the types of real-world problems professional developers encounter. Volume II includes new sections on the STAX API, JDBC 4, compiler API, scripting framework, splash screen and tray APIs, and many other Java SE 6 enhancements. In this book, the authors focus on the more advanced features of the Java language, including complete coverage of Streams and Files. Networking Database programming XML JNDI and LDAP Internationalization Advanced GUI components Java 2D and advanced AWT JavaBeans Security RMI and Web services Collections Annotations Native methods For thorough coverage of Java fundamentals—including interfaces and inner classes, GUI programming with Swing, exception handling, generics, collections, and concurrency—look for the eighth edition of Core Java™, Volume I—Fundamentals (ISBN: 978-0-13-235476-9).

Groundbreaking fundamentals - first approach enables readers to understand the basics before being introduced to more challenging topics. Liang offers one of the broadest ranges of carefully chosen examples, reinforcing key concepts with objectives lists, introduction and chapter overviews, easy-to-follow examples, chapter summaries, review questions, programming exercises, and interactive self-test.Now uses standard classes only. Offers new chapters on data structures, JSF for visual Web development, and Web services; includes a new standalone chapter on the full GUI library. Uses UML diagrams in every example starting chapter 8. Includes additional notes with diagrams.Comprehensive coverage of Java and programming make this a useful reference for IT professionals.

A quick-reference handbook for Java 2 Programmers features detailed descriptions of the most commonly used features of Java 2, with an A-to-Z format that includes entries on the classes and methods that programmers will need on a day-to-day basis, along with information on programming syntax, keywords, functions, commands, and class libraries. Original. (Intermediate)

The Deitel's groundbreaking How to Program series offers unparalleled breadth and depth of object-oriented programming concepts and intermediate-level topics for further study. This survey of Java programming contains an extensive OOD/UML 2 case study on developing an automated teller machine. The Seventh Edition has been extensively fine-tuned and is completely up-to-date with Sun Microsystems, Inc.'s latest Java release—Java Standard Edition (Java SE) 6.

Java How to Program (Late Objects), Tenth Edition is intended for use in the Java programming course. It also serves as a useful reference and self-study tutorial to Java programming. The Deitel's' groundbreaking How to Program series offers unparalleled breadth and depth of object-oriented programming concepts and intermediate-level topics for further study. Java How to Program (Late Objects), Tenth Edition, teaches programming by presenting the concepts in the context of full working programs. The Late Objects Version delays coverage of class development, first presenting control structures, methods and arrays material in a non-object-oriented, procedural programming context. Teaching and Learning Experience This program presents a better teaching and learning experience--for you and your students. Teach Programming with the Deitel's' Signature Live Code Approach: Java language features are introduced with thousands of lines of code in hundreds of complete working programs. Use a Late Objects Approach: The Late Objects Version begins with a rich treatment of procedural programming, including two full chapters on control statements and 200+ exercises. Keep Your Course Current: This edition can be used with Java SE 7 or Java SE 8, and is up-to-date with the latest technologies and advancements. Facilitate Learning with Outstanding Applied Pedagogy: Making a Difference exercise sets, projects, and hundreds of valuable programming tips help students apply concepts. Support Instructors and Students: Student and instructor resources are available to expand on the topics presented in the text.

The tenth edition of Operating System Concepts has been revised to keep it fresh and up-to-date with contemporary examples of how operating systems function, as well as enhanced interactive elements to improve learning and the student ' s experience with the material. It combines instruction on concepts with real-world applications so that students can understand the practical usage of the content. End-of-chapter problems, exercises, review questions, and programming exercises help to further reinforce important concepts. New interactive self-assessment problems are provided throughout the text to help students monitor their level of understanding and progress. A Linux virtual machine (including C and Java source code and development tools) allows students to complete programming exercises that help them engage further with the material. The Enhanced E-Text is also available bundled with an abridged print companion and can be ordered by contacting customer service here: ISBN: 9781119456339 Price: \$97.95 Canadian Price: \$111.50
