Images of teenage girls in poodle skirts dominated American popular culture on the 1950's. But as Kelly Schrum shows, teenage girls were swooning over pop idols and using their allowances to buy the latest fashions well beforehand. After World War I, a teenage identity arose in the US, as well as a consumer culture geared toward it. From fashion and beauty to music and movies, high school girls both consumed and influenced what manufacturers, marketers, and retailers offered to them. Examining both national trends and individual lives, Schrum looks at the relationship between the power of consumer culture and the ability of girls to selectively accept, reject, and appropriate consumer goods. Lavishly illustrated with images from advertisements, catalogs, and high school year books, Some Wore Bobby Sox is a unique and fascinating cultural history of teenage girl culture in the middle of the century.

Presents a series of episodes in which scientists, military personnel, corporate officials, and hapless civilians encounter the deadly and mysterious Aliens, leading to adventures on Earth and other planets.

Sanora Babb ' s long-hidden novel Whose Names Are Unknown tells of the High Plains farmers who fled drought and dust storms during the Great Depression. Written with empathy for the farmers ' plight, this powerful narrative is based upon the author ' s firsthand experience. Babb submitted the manuscript for this book to Random House for consideration in 1939. Editor Bennett Cerf planned to publish this " exceptionally fine " novel but when John Steinbeck ' s The Grapes of Wrath swept the nation, Cerf explained that the market could not support two books on the subject.
