~~As new media mature, the changes they bring to writing in college are many and suggest implications not only for the tools of writing, but also for the contexts, personae, and conventions of writing. An especially visible change has been the increase of visual elements—from typographic flexibility to the easy use and manipulation of color and images. Another would be in the scenes of writing—web sites, presentation "slides," email, online conferencing and coursework, even help files, all reflect non-traditional venues that new media have brought to writing. By one logic, we must reconsider traditional views even of what counts as writing; a database, for example, could be a new form of written work. The authors of Writing New Media bring these ideas and the changes they imply for writing instruction to the audience of rhetoric/composition scholars. Their aim is to expand the college writing teacher's understanding of new media and to help teachers prepare students to write effectively with new media beyond the classroom. Each chapter in the volume includes a lengthy discussion of rhetorical and technological background, and then follows with classroom-tested assignments from the authors' own teaching.~~

~~This report discusses the findings of a nationwide study on the use of private prisons in the United States. The number of these prisons grew enormously between 1987 and 1998, with proponents suggesting that allowing facilities to be operated by the private sector could result in cost reductions of 20%. The study examined the historical factors that gave rise to the higher incarceration rates, fueling the privatization movement, and the role played by the private sector in the prison system. It outlines the arguments, both in support of and opposition to, privatized prisons, reviews current literature on the subject, and examines issues that will have an impact on future privatizations. The report concludes that, rather than the projected 20-percent savings, the average saving from privatization was only about 1 percent, and most of that was achieved through lower labor costs. Nevertheless, there were indications that the mere prospect of privatization had a positive effect on prison administration, making it more responsive to reform.~~

~~What habits are common among good college writers? Good college writers are curious, engaged, reflective, and responsible. They read critically. They write with purpose. They tune into their audience. They collaborate and seek feedback. They know credible evidence makes them credible researchers. They revise. The Bedford Handbook, based on surveys with more than 1,000 first-year college students, fosters these habits and offers more support than ever before for college reading and writing. New writing guides support students as they compose in an ever-wider variety of genres, including multimodal genres. New reading support encourages students to become active readers. Retooled research advice emphasizes inquiry and helps writers cite even the trickiest digital sources confidently and responsibly. Best of all, the Handbook remains a trusted companion for students because it is accessible, comprehensive, and authoritative. Instructors benefit, too: A substantially revised Instructor's Edition includes Nancy Sommers's personal mentoring—more than 100 new concrete tips for teaching with the handbook. Finally, integrated digital content is easily assignable and helps students practice and apply the handbook's lessons.~~
