The student Lab Manual provides hands-on practice to be completed in the school lab setting under the guidance of an instructor or trainer. For the labs, students are provided with learning objectives, introductions to the labs, text references for additional information, equipment lists, and guidance for completing the labs. Organized logically and progressively, the Lab Manual enables students to demonstrate learning in a very practical and thoroughly engaging manner.

This publication deals in depth with a limited number of culture media used in Food Science laboratories. It is basically divided into two main sections: 1) Data on the composition, preparation, mode of use and quality control of various culture media used for the detection of food borne microbes. 2) Reviews of several of these media, considering their selectivity and
