"It's the most wonderful time of the year," the old song tells us. But that doesn't mean the people celebrating it are always so nice. Criminals get the Christmas spirit, too! In this collection of hilarious short stories, you'll see what the thieves, killers, psychos and scumbags are up to come the holidays...and it's not caroling door to door. Well, not unless they're casing the neighborhood for a break-in, as a rag-tag gang does in the title story. You'll also meet a mall elf menaced by a very, very bad Santa (in "I Killed Santa Claus"), a London police inspector hunting for the man who murdered Ebenezer Scrooge (in "Humbug"), a trucker out to save his shipment of Cabbage Patch Dolls from bumbling hijackers (in "Special Delivery") and many more characters you'll never forget. Originally published in Ellery Queen's Mystery Magazine and Alfred Hitchcock's Mystery Magazine, these nine tales from award-winning short story master Steve Hockensmith (Holmes on the Range, Dreadfully Ever After) are sure to have you ho-ho-hoing from the first page to the last.

Nick and Tesla are bright 11-year-old siblings with a knack for science, electronics, and getting into trouble. When their parents mysteriously vanish, they ’ re sent to live with their Uncle Newt, a brilliant inventor who engineers top-secret gadgets for a classified government agency. It ’ s not long before Nick and Tesla are embarking on adventures of their own—engineering all kinds of outrageous MacGyverish contraptions to save their skin: 9-volt burglar alarms, electromagnets, mobile tracking devices, and more. Readers are invited to join in the fun as each story contains instructions and blueprints for five different projects. In Nick and Tesla ’ s High-Voltage Danger Lab, we meet the characters and learn how to make everything from rocket launchers to soda-powered vehicles. Learning about science has never been so dangerous—or so much fun!

Kid inventors Nick and Tesla Holt have outsmarted crooks, spies, and kidnappers. Now they have to crack their biggest mystery yet: Where the heck are their parents? To outwit the criminal mastermind who ’ s holding their parents hostage, the twins will need all their brainpower, the help of their eccentric Uncle Newt, and an assortment of homemade solar gadgets. Will the Holt family be reunited at last? Or will a hijacked solar satellite beam down doom from the skies? The adventure includes instructions for creating a solar-powered hot-dog cooker, alarm, secret listening device, and model car, plus a nighttime signal

cannon that fires illuminated ping-pong balls.

After foiling a gang of kidnapers and fending off an army of robots, 11-year-old siblings Nick and Tesla Holt could use a little rest! But as their third mystery opens, they discover there ' s a spy in their midst, searching for secrets in the home of their beloved (and slightly crazy) Uncle Newt. Is it the new laboratory assistant? The exterminator? The housekeepers? Or someone completely unexpected? To expose the mystery agent, Nick and Tesla must engineer all kinds of outrageous contraptions, from code wheels and fingerprint powder to spy cameras and burglar detectors. Best of all, instructions are included throughout the story, so you can build the projects, too!

Nick and Tesla return in an all-new, robot-filled adventure! When a rash of robberies hits the town of Half Moon Bay, 11-year-old sleuths Nick and Tesla are determined to catch the criminals—but to do so, they'll have to build a host of new gadgets and gizmos! In this robot-themed follow-up to Nick and Tesla's High-Voltage Danger Lab, the brother-and-sister duo build four different droids out of ordinary household objects—and illustrated instructions are included throughout the story, so you can build them, too! Make bristlebots that buzz, hoverbots that float above the ground, battlebots that duke it out, and more! Can Nick and Tesla catch the criminal mastermind—and foil his army of rampaging robots—before it's too late?

Einstein is running amok! Darwin is losing his head! The science museum in Half Moon Bay is in big trouble because its robotic replicas of history ' s greatest scientists keep going kablooeey! As 11-year-old amateur inventors Nick and Tesla Holt try to uncover the cause, they ' ll need to keep adding all-new gadgets to their latest creation, a customized super-cyborg glove. Follow the action, and then follow the illustrated instructions to build your own gadget glove with four incredible functions: LED signal light, emergency alarm, sound recorder, and UV secret-message revealer!

In 1931, nine naughty children who received coal in their stockings travel from Pittsburgh to the North Pole to plead their case to Santa Claus.

A satire of traditional Christmas stories and noir. A hardboiled elf is framed for murder in a North Pole world that plays reindeer games for keeps, and where favorite holiday characters live complex lives beyond December. Fired from his longtime job as captain of the Coal Patrol, two-foot-three inch 1,300-year-old elf Gumdrop Coal is angry. He's one of Santa's original elves, inspired by the fat man's vision to bring joy to children on that one special day each year. But somewhere along the way things went sour for Gumdrop. Maybe it was delivering one too many lumps of coal for the Naughty List. Maybe it's the conspiracy against Christmas that he's starting to sense down every chimney. Either way, North Pole disillusionment is nothing new: Some elves brood with a bottle of nog, trying to forget their own wish list. Some get better. Some get bitter. Gumdrop Coal wants revenge. Justice is the only thing he knows, and so he decides to give a serious wakeup call to parents who can't keep their vile offspring from landing on the Naughty List. But when one parent winds up dead, his eye shot out with a Red Ryder Carbine-Action Two-Hundred-Shot Range Model BB gun, Gumdrop Coal must learn who framed him and why. Along the way he'll escape the life-sucking plants of the Mistletoe Forrest, battle the infamous Tannenbomb Giant, and survive a close encounter with twelve very angry drummers and their violent friends. The horrible truth lurking behind the gingerbread doors of Kringle Town could spell the end of Christmas-and of the fat man himself. Holly Jolly!
