A century after Leo Tolstoy's death, the author of *War and Peace* is widely admired but too often thought of only with reference to his realism and moral sense. The many sides of Tolstoy revealed in these essays speak to readers with astonishing force, relevance, and complexity. In a lively, challenging style, leading scholars range over his long life, from his first work *Childhood* to the works of his old age like *Hadji Murat*, and the many genres in which he worked, from the major novels to aphorisms and short stories. The

essays present fresh approaches to his central themes: love, death, religious faith and doubt, violence, the animal kingdom, and war. They also assess his reception both in his lifetime and subsequently. Setting new agendas for the study of this classic author, this volume provides a snapshot of more current scholarship on Tolstoy.

Lo Somni (The Dream) is a dream allegory divided into four chapters or books. It was written ca. 1399 and is considered Bernat Metge's best work. It is

extremely innovative within the context of Catalan (and Iberian Peninsular) literature of the 1300's. It consists of a dialogue between Metge-the-character and several participants (in fact the book is a dialogue between Metge and the Classical and Biblical tradition) on the topics of the immortality of the soul, the essence of religion and the dignity and moral essence of the human being. In addition to using many Classical and medieval literary sources, Lo Somni can be considered one of the first (if not the first) Humanist books to be ever written in the Iberian Peninsula. Metge wrote Lo Somni supposedly while in prison (house arrest?) following a dubious accusation about his involvement in the death of King Joan I.

Metge wrote this work as a personal defense to exonerate himself and as an attempt to gain the confidence of the new King Martí l'Humà and his wife Queen María de Luna. Lo Somni ends when Metge-the-character is awoken from his dream. This foundational work also touches upon political themes pertaining to the Crown of Aragon, literary fashion and reception of Italian humanist works at the court, as well as on matters of fashion, cultural customs, taste and style.

Archetypal images, Carl Jung believed, when elaborated in tales and ceremonies, shape culture's imagination and behavior. Unfortunately, such cultural images can become stale and lose their power over the mind. But an artist or mystic can refresh and revive a culture's imagination by exploring his personal dream-images and connecting them to the past. Dante Alighieri presents his Divine Comedy as a dream-vision, carefully establishing the

date at which it came to him (Good Friday, 1300), and maintaining the perspective of that time and place, throughout the work, upon unfolding history. Modern readers will therefore welcome a Jungian psychoanalytical approach, which can trace both instinctual and spiritual impulses in the human psyche. Some of Dante's innovations (admission of virtuous pagans to Limbo) and individualized scenes (meeting personal friends in the afterlife) more likely spring from unconscious inspiration than conscious didactic intent. For modern readers, a focus on Dante's personal dream-journey may offer the best way into his poem.

Flight has always fascinated human minds, but until a century ago it remained a dream—the exclusive domain of birds, gods, and mythological heroes. From the myths of the ancients to the poetry of Pindar and Yeats, *Winged Words* traces the imprint of the human impulse to fly from premodern times to the age of terrorism in both literature and history. Piero Boitani begins his analysis with an account of the way the myths of Pegasus and Icarus have persisted from classical to twentieth-century politics and literature. He then takes up the figure of Hermes; the roles of halcyons and eagles in classical, biblical, and later literatures; and literary response to Pieter Brueghel's *The Fall of Icarus*. Honing in on modern figures and

concerns, Boitani also offers a fascinating discussion of author-pilot Antoine de Saint-Exupéry and concludes with a meditation on the flight of the hijacked airliners on 9/11. Throughout, *Winged Word* brings a remarkable range of men of action, politicians, theologians, writers, and artists into dialogue with each other: Shakespeare with T. S. Eliot, Horace with Ovid, Leonardo with Milton, Leopardi with Mallarmé, Saint-Exupéry with Faulkner and Rilke, and the Ulysses of Homer with the Ulysses of Dante. Ultimately, by showing how writers and fliers have looked to the ancients for inspiration, Boitani testifies to the modern relevance of poetry and the classics.
