Designed for introductory-level survey courses in World History. The primary goal of "World Civilizations" is to present a truly global history--from the development of agriculture and herding to the present. Using a unique periodization, this book divides the main periods of human history according to changes in the nature and extent of global contacts. This global world history text emphasizes the major stages in the interactions among different peoples and societies, while at the same time assessing the development of major societies. Encompassing social and cultural as well as political and economic history, the book examines key civilizations in world history. "World Civilizations "balances this discussion of independent developments in the world's major civilizations with comparative analysis of the results of global contact.

Taureans, ever wondered what the Sun-signs tell you about love and life? This unique anthology of poems for love and life relates directly to your Sun-sign, Taurus. If you were born between the 21st of April and the 21st of May, you will relate to many of the themes identified with your sign's characteristics and personality traits. The poems in this collection have been chosen because they reflect a Taurean attitude to life. They appeal to the interests 'ruled' by your sign; the animals, flowers, trees, plants and places celebrated by the poets and associated with the sign of Taurus over three thousand years of traditional astrology. Some have been chosen simply because we believe you will enjoy them, and that they will awaken or re-awaken your love of poetry.

A collection intended for students, presenting primary sources (some of them excerpts, and some of them translated) and study questions designed to stimulate discussion. Vol. II deals with the period of the 17th century to the present. Ch. 9 (pp. 392-436), "The Jewish Holocaust", contains excerpts from documents (e.g. German official documents, Nazi leaders' speeches, eyewitness accounts and memoirs, and Nuremberg Trial documents) pertaining to Nazi anti-Jewish policies, the Nazi genocide of the Jews, Jewish resistance, and postwar trials against those responsible for the mass murders.

This two-volume compilation of primary sources in world civilization is based around eight major themes to provide direction and cohesion to the text. Designed to involve students with important historical questions and controversies, the text promotes thoughtful comparisons between world societies that are linked to common problems, events or themes within the same time period and across chronological divisions. Broad in scope, the text incorporates a wide variety of political, social, economic, religious, intellectual and scientific issues, and is designed to help students consider historical questions and concerns.
