In the last twenty years extensive research has been devoted to a better understanding of the stable and other closely related infinitely divisible mod els. Stamatis Cambanis, a distinguished educator and researcher, played a special leadership role in the development of these research efforts, particu larly related to stable processes from the early seventies until his untimely death in April '95. This commemorative volume consists of a collection of research articles devoted to reviewing the state of the art of this and other rapidly developing research and to explore new directions of research in these fields. The volume is a tribute to the Life and Work of Stamatis by his students, friends, and colleagues whose personal and professional lives he has deeply touched through his generous insights and dedication to his profession. Before the idea of this volume was conceived, two conferences were held in the memory of Stamatis. The first was organized by the University of Athens and the Athens University of Economics and was held in Athens during December 18-19, 1995. The second was a significant part of a Spe cial IMS meeting held at the campus of the University of North Carolina at Chapel Hill during October 17-19, 1996. It is the selfless effort of sev eral people that brought about these conferences. We believe that this is an appropriate place to acknowledge their effort; and on behalf of all the participants, we extend sincere thanks to all these persons.

All the papers have been carefully selected and revised.

Writing process covered in EVERY chapter. Focus on the writing process throughout the book, not just as an added element but as an integral part of the literary study. This allows students to improve their writing while enjoying the study of literature. ""Chapter 4: Researched Writing""has been revised and moved to the front of the book. The chapter now follows the initial chapters on the writing process and provides easy-to-follow instruction for planning, researching, and documenting a paper using secondary sources, including a detailed description of the MLA Style for citing and crediting these sources. The chapter also contains a new documented student essay and is generously supplemented by Ideas for Researched Writing throughout the book Seven sample student papers, some with drafts, instructor or peer comments and prewriting materials, that illustrate how to write about each genre and how to do researched writing. Students can see and understand how to go about devising and drafting their essays; they profit from seeing the writing process illustrated at every stage. Three kinds of writing prompts included in each chapter allow instructors to choose among them flexibly depending on his or her goals and philosophy. The single text for class saves them money and is convenient.
