Sea of strangers was an emotional, character driven story about our leading lady Jeanette travelling across country to study nursing after a traumatic situation with her uncle. Very nice short historical novella. Entertaining and well written. I'll definitely be giving Amelia's books a try. Happy reading.

In this respect, Sea Of Strangers did not disappoint. However when it comes to describing heartbreak I personally feel that Leav falls short, portraying none of it's devastation. The shaking realness of her more positive poems is lacking. That being said, I tend to take it leave poems when it comes to collections so I found this easy to overlook.

A memoir of a family's year living in Reykjavik that "captures the fierce beauty of the Arctic landscape" (Booklist). Sarah Moss had a childhood dream of moving to Iceland, sustained by a wild summer there when she was nineteen. In 2009, she saw an advertisement for a job at the University of Iceland and applied on a whim, despite having two young children and a comfortable life in Kent, England. The resulting adventure was shaped by Iceland's economic collapse, which halved the value of her salary; by the eruption of the volcano Eyjafjallajokull; and by a collection of new friends, including a poet who saw the only bombs fall on Iceland in 1943; a woman who speaks to elves; and a chef who guided Sarah's family around the intricacies of Icelandic cuisine. Moss explored hillsides of boiling mud and volcanic craters and learned to drive like an Icelander on the unsurfaced roads that link remote farms and fishing villages in the far north. She watched the northern lights and the comings and goings of migratory birds, and as the weeks and months went by, she and her family learned new ways to live. Names for the Sea is her compelling and very funny account of living in a country poised on the edge of Europe, where modernization clashes with living folklore. "Beautifully written . . . A stranger in a strange land, Moss grapples with new foods, customs and landscapes that are both oddly familiar and wildly alien in this absorbing memoir." -Financial Times

A "chronicle of a white girl captive of the Indians returned against her will to her white home . . . Her reception here, her rejection and that of her Indian son by her Caucasian father and sister . . . the conflicts of her Indian upbringing with the white way are related."

calls, begging for her help. There's been a murder—and Wendy believes she'll be wrongfully accused. While Wendy lies low, Ryan moves back to their hometown to care for the nieces she hardly knows. The sleuthing skills she's refined as a true-crime podcaster quickly rise to the surface as she digs for answers with the help of an unexpected ally. Yet the trail of clues Wendy's left behind lead to nothing but questions. Blood may be thicker than water, but what does Ryan owe a sister who, with every revelation, becomes more and more a stranger? Is Wendy, who always seemed so perfect, just a perfect liar—or worse?

Strangers From the Sea is a novel based on 8th century legend. In sweeping saga, the fates of early Norwegians and Scottish Celts combine. From fierce adventure, love and friendship comes the melding of laws and religions. Insights from the past speak to the modern reader.

Winner of the 2019 Miami Book Fair/de Groot Prize, *The Care of Strangers* is a moving story about friendship set in a gritty Brooklyn hospital, where a young woman learns to take charge of her life by taking care of others. Working as an orderly in a gritty Brooklyn public hospital, Sima is often reminded by her superiors that she's the least important person there. An immigrant who, with her mother, escaped vicious anti-Semitism in Poland, she spends her shifts transporting patients, observing the doctors and residents ... and quietly nurturing her aspirations to become a doctor herself by going to night school. Now just one credit short of graduating, she finds herself faltering in the face of pressure from her mother not to overreach, and to settle for the life she has now. Everything changes when Sima encounters Mindy Kahn, an intern doctor struggling through her residency. Sensing a fellow outsider in need of support, Sima bonds with Mindy over their patients, and learns the power of truly letting yourself care for another person, helping to give her the courage to face her past, and take control of her future. A moving story about vulnerability and friendship, *The Care of Strangers* is the story of one woman's discovery that sometimes interactions with strangers are the best way to find yourself.
