This text-workbook, along with the support of software, provides an effective tool for teaching the fundamentals of using a computer calculator. Approximately 15 hours of instructional material and application activities are combined to achieve basic mastery of the ten-key touch method and standard math calculations.

The goal of this book is to help students to develop a touch-method mastery of the ten-key numeric keypad in as short a time as possible.--P. iv.

This handbook offers practical guidance for everyone involved in professional development. Expert advice is provided on relevant aspects of nursing practice such as reflective practice and clinical supervision.

Until now assessors have not had the material they need to guide them through the process of assessing prior learning. Malcolm Day brings together the experience of specialists in this field from Canada, the US and South Africa where this has been a major part of education since the 1970s. This is an interactive text, which helps develop anyone undertaking Assessment of Prior Learning in nursing, allied health care and social care. A glossary of vocabulary associated with prior learning assessment is included.
