Between April and July 1944, Truman Smith Flew thirty-five bombing missions over France and Germany. He was only twenty years old. Although barely adults, Smith and his peers worried about cramming a lifetime's worth of experience into every free night, each knowing he probably would not survive the next bombing mission. Written with blunt honesty, wry humor, and insight, The Wrong Stuff is Smith's gripping memoir of that time. In a new preface, the author comments with equal honesty and humor on the impact this book has had on his life.

An eye-opening account of time served in the great battles of our century— for workers' rights, against Fascism, Communism, and racism—Jumping the Line is the life story of an American original. William Herrick chronicles his adventures and misadventures on the front lines of the Spanish Civil War, in (and very much out of) the Communist Party, driving a tractor on a communal farm in Michigan, jumping the line as a hobo, organizing African American sharecroppers in Georgia, at work with Orson Welles, and immersed in his own writing. Herrick chronicles a life of great conviction and great disillusion. He went to Spain in 1936 to fight against the Fascists and there witnessed the horrifying acts that Fascists and Communists alike committed, before he was felled by a near-fatal wound. Here he tells about the life that led him, a working-class Jewish kid from New York, into the idealism and then the murky politics of this internecine conflict. From the bloody fight in Spain he takes us to the battlefields of the Communist movement in the U.S., where he found himself parading up and down the garment district of Manhattan, denouncing his former comrades. When Paul Berman interviewed Herrick in the Village Voice in 1986, for the fiftieth anniversary of the Spanish Civil War, Herrick's remarks so incensed other veterans of the Abraham Lincoln battalion that they picketed the paper. What William Herrick has to say doesn't always go down easily. But for those who like the truth, with a dash of wit and a healthy dose of history, it can be exhilarating.

Ride along and learn the fascinating differences between horses and mules as Rose Miller shares her down-to-earth experiences with these captivating, long-eared hybrids, starting with a thrilling ride down the Grand Canyon, to the purchase of her own mules. The unexpected gift of a favored bottle of shiraz from her husband leads to the adventure of a lifetime for Karen Pond and her family—moving from rural Maine to the largest city in the world: Tokyo, Japan. *Getting Genki in Japan* is a collection of illustrated travel and culture essays and musings of a Down East Mom's absurd and exhilarating adventures in the Far East. From bewildered and befuddled (and back again) to (somewhat) wise, these narratives recount a journey of cultural discoveries, experiences and the follies of a newcomer to Japan; including (mis)identifying food, (mis)pronouncing Japanese, (mis)pantomiming for necessities, and finally figuring out how to flush the Japanese toilet!

This book is a humorous collection of stories based on the experiences of the American author living in a different culture.
