In any given form of opposites or duality, the one that is judged inferior or lesser is the one that rules. When both sets of opposites are recognised and given equal value, the neurosis dies, not as a soldier dies in battle, but as a seed dies when it breaks its skin and opens up to a new form of life. This text argues that by seeing beauty in the world of duality, one awakens to singularity.

This text is a rare medieval alchemical treatise, scattered throughout with insights relevant to the process of individuation in modern men and women. Reputed to be the last work of St Thomas Aquinas, it bears out Jung's view that the traditional practice of alchemy is best understood symbolically.

Experience the orgasmic rapture of Sacred Union with your Twin Soul and the Divine • Includes practices in sacred sexuality, emotional intimacy, and soul awareness to awaken the Love, Power, and Wisdom of your soul, attract your Twin Soul, and satisfy your soul's longing to reunite with God • Draws on teachings from Gnosticism, Sufi mysticism, the Kabbalah, Kundalini yoga, sexual shamanism, the Egyptian Mystery schools, and Christ Consciousness • Offers examples of Sacred Union, including Jesus and Mary Magdalene and Rumi and Shams as well as experiences of modern couples Jesus and Mary Magdalene, Rumi and Shams, King Solomon and the Queen of Sheba, Isis and Osiris--in these sacred unions we recognize the merging not only of Twin Souls but also of these lovers with the Divine. In Sacred Sexual Union, Anaiya Sophia shows this Holy Marriage, complete reunification with your Twin Soul and God, is not a secret reserved for the initiated or a tradition lost to the ages. It is a potent, living spiritual path enabling two beloveds to experience the primordial state of creation as one soul blessed by the Divine Light and Love of their Creator. Drawing on teachings from Gnosticism, Sufi mysticism, the Kabbalah, Kundalini yoga, sexual shamanism, the Egyptian Mystery Schools, and Christ Consciousness, the author reveals the complete alchemical process of Sacred Union. She provides physical, meditative, and

psychological practices that combine sacred sexuality, emotional intimacy, and transparent soul awareness to awaken the magnetic energies of your soul, draw your Twin Soul to you, and, with Twin Souls reunited, experience the passionate rapturous remembrance of becoming one with God. She explores ancient writings and rituals of Sacred Union--known as Hieros Gamos in ancient Sumeria, Sacred Marriage in the Kabbalah, Yab Yum in Tibetan Buddhism, and the Bridal Chamber in Gnostic Christianity--and offers examples of Sacred Union throughout the ages, including experiences from her own spiritual journey. More than a meditative or yogic practice, Sacred Sexual Union offers a transformative spiritual path to embrace the threefold flame of Power, Love, and Wisdom and satisfy your soul's longing for wholeness and reunion with the Divine.

'A breakthrough book. Wonderfully applicable to everything in life, and funny as hell.' Nassim Nicholas Taleb Why is Red Bull so popular - even though everyone hates the taste? Why do countdown boards on platforms take away the pain of train delays? And why do we prefer stripy toothpaste? Discover the alchemy behind original thinking, as TED Talk superstar and Ogilvy advertising legend Rory Sutherland reveals why abandoning logic and casting aside rationality is the best way to solve any problem. In his first book he blends cutting-edge behavioural science, jaw-dropping stories and a touch of branding magic on his mission to turn us all into idea alchemists. He shows how economists, businesses and governments have got it all wrong: we are not rational creatures who make logical decisions based on evidence. Instead, the big problems we face every day, whether as an individual or in society, could very well be solved by thinking less logically. To be brilliant, you have to be irrational.

PowerPivot is an amazing new add-in for Excel 2013 that allows business intelligence pros to process large amounts data. Although it is simple to use in a demo environment, analysts are likely to run into real-life scenarios that are difficult to solve. This guide, dedicated solely to the PowerPivot tool, provides techniques and solutions to real-world problems, including showing the Top N customers by using slicer filters, comparing budget to actuals, drilling across data instead of through data, and joining data from two different sources in a single analysis.

The second book in the Alchemy Wars trilogy by Ian Tregillis, an epic tale of liberation and war. Jax, a rogue Clakker, has wreaked havoc upon the Clockmakers' Guild by destroying the Grand Forge. Reborn in the flames, he must begin his life as a free Clakker, but liberation proves its own burden. Berenice, formerly the legendary spymaster of New France, mastermind behind her nation's attempts to undermine the Dutch Hegemony -- has been banished from her homeland and captured by the Clockmakers Guild's draconian secret police force. Meanwhile, Captain Hugo Longchamp is faced with rallying the beleaguered and untested defenders of Marseilles-in-the-West for the inevitable onslaught from the Brasswork Throne and its army of mechanical soldiers.

Full of psychological and spiritual insights that speak to today's sexual confusion. Singer shows how a person can at once embrace complementary and contradictory attitudes toward sex and gender. Finally, she proposes a range of choices by which people can identify themselves, secure that the masculine/feminine interaction within each individual is not only normal, but the dynamic factor in their wholeness.

HOW DOES MAGIC HAPPEN? The Ogilvy advertising legend--"one of the leading minds in the world of branding" (NPR)--explores the art and science of conjuring irresistible products and ideas. "Sutherland, the legendary Vice Chairman of Ogilvy, uses his decades of experience to dissect human spending behavior in an insanely entertaining way. Alchemy combines scientific research with hilarious stories and case studies of campaigns for AmEx, Microsoft and the like. This is a must-read." --Entrepreneur ("Best Books of the Year") Why is Red Bull so popular, though everyone--everyone!--hates the taste? Humans are, in a word, irrational, basing decisions as much on subtle external signals (that little blue can) as on objective qualities (flavor, price, quality). The surrounding world, meanwhile, is irreducibly complex and random. This means future success can't be projected on any accounting spreadsheet. To strike gold, you must master the dark art and curious science of conjuring irresistible ideas: alchemy. Based on thirty years of field work inside the largest experiment in human behavior ever conceived--the forever-unfolding pageant of consumer capitalism--Alchemy, the revolutionary book by Ogilvy advertising legend Rory Sutherland, whose TED talks have been viewed nearly seven million times, decodes human behavior, blending leading-edge scientific research, absurdly entertaining storytelling, deep psychological insight, and practical case studies from his storied career working on campaigns for AmEx, Microsoft, and others. Heralded as "one of the leading minds in the world of branding" by NPR and "the don of modern advertising" by The Times, Sutherland is a unique thought leader, as comfortable exchanging ideas with Nobel Prize winners Daniel Kahneman and Richard Thaler (both interviewed in these pages) as he is crafting the next product launch. His unconventional and relentlessly curious approach has led him to discover that the most compelling secrets to human decision-making can be found in surprising places: What can honey bees teach us about creating a sustainable business? How could budget airlines show us how to market a healthcare system? Why is it better to be vaguely right than precisely wrong? What might soccer penalty kicks teach us about the dangers of risk-aversion? Better "branding," Sutherland reveals, can also be employed not just to sell products, but to promote a variety of social aims, like getting people to pay taxes, improving public health outcomes, or encouraging more women to pursue careers in tech. Equally startling and profound, Sutherland's journey through the strange world of decision making is filled with astonishing lessons for all aspects of life and business.

Taking refuge in fairy tales after the loss of his mother, twelve-year-old David finds himself violently propelled into an imaginary land in which the boundaries of fantasy and reality are disturbingly melded. By the author of The Black Angel. 75,000 first printing.

What makes a genius different? Is a genius born or made? In this exploration of creativity, the author reveals that there is no special trait of genius. Rather than being gifted above ordinary people, a genius will give expression to subtle nuisances, and perceptions that others ignore.
