- Container candles. Dipping Dipping is the simplest method of making candles. It can be used to make a small number of candles by hand, with very simple equipment, or as a production process for manufacturing large numbers of candles in a variety of sizes and colours. Method Heat the wax in the dipping container to the required temperature.

*Candlemaking*

Fill your mold or container with water and empty it out into a measuring jug or cylinder. Water weighs the same as its volume in metric, so you could also weigh it in grams. Once you have this measurement, subtract 20% and this will be exactly how much wax will be needed to fill your mold or container.

With the invention of the candle making machine in the early 19th century, the manual process of traditional candle making started to decline. Machines were able to produce thousands of candles per hour, way more than any solo candlemaker could keep up with up. Candles become much more affordable and available on the market as a result of this.

Soy & Beeswax Candle Making Handbook How to Start a Homebased Profitable Candle Making Business According to the National Candle Association U.S. retail sales of candles are estimated at approximately \$3.2 billion dollars per year and growing. If you are a candle lover, then you already know that not all candles are created equal right? The question is why not, well, because most commercially made candles are full of paraffin, a petroleum byproduct that is cheap to use and harmful to you and your family. Not to mention they don't give you the long-lasting aroma that some better quality candles provide. I have been making and selling candles for little over two decades now, and I can assure you it is not a hard craft to master. It is one of the simpler home craft that anyone can try and see great success. But more importantly, you will be able to enjoy the goodness of a real soy or beeswax candle that is aromatic and good for you and your whole family. But what if you can make much better quality candles right at home and at a fraction of the cost? What if I tell you it can be done in just few hour? Lastly what if I tell you, you can sell some of your creation and make a nice income from it right from home? Could you use a little bit (or maybe a LOT) of extra cash each month? And wouldn't it be great to be able to earn that extra cash without having to get another job. Wouldn't it be great if you could earn this extra cash on YOUR terms. In this book, I will show you how you can do just that. If I was able to peak your interest, then let me say this, it is very doable, and NO it does not take any extra or special skill set. Once you know the basics, you can then start getting creative and add your own touch, scent, and color and make something so unique that just by looking at it, everyone will know it is your creation. Okay now, let me give you a quick glimpse of what you will learn in this book so you can decide for yourself. In Part- 1 What are Soy & Beeswax Candles 9 Popular Types of Candles & Their Description 4 Varieties of Beeswax Where to Find & Buy Beeswax Why Use Soy Wax, Where to Find Soy Wax to Buy What & How to Choose the Right Type of Wicks For Your Candle Project How to Add Scent (Essential Oils) To Your Candles for Beautiful Aroma How to Add Color & Other Additives Where to Purchase Essential Oils, Color & Other Additives What Candle Making Equipment, You Will Need What & How to Practice Safety When Making Candles 7 Must Follow Safety Tips Safe Cleanup Process Candle Making Process & Techniques 6 Tips for Successfully Using Beeswax 5 Most Popular Beeswax Recipes with Detail Step By Step Instructions Tips & Tricks for Using Soy Wax for Candles Soy Candle Making Recipe with Detail Step By Step Instructions In Part - 2 3 Big Reasons to Start a Candle Making Business Is It A Business Or A Hobby? The Legal Side of Starting Your Business How & What Legal Entity Should You Choose Business License, Permits & Zoning Keeping Records Bank Account & Credit Cards Business Cards, Websites, Social Media How to Create a Label, Product Description & Catalog For Cheap Promoting and Selling Your Candles How to Sell Online & Offline Locally Marketing and Branding Your Candles 4 Must Try Marketing Ideas BONUS Appendix- Actual Articles of Incorporation Appendix - A Complete Business Plan For Candle Business Appendix - A Sample Customer Invoice

Handmade candles are a new trend in this era. If you love scents and want to chill after a tiring day at work, you can find relaxation in making candles and enjoying your work. This book is really a suitable choice for those who want to learn about history and how to make handmade candles. The book will provide you with basic knowledge about the craft of making candles and suggest you various ways to make candles and is of course very easy to follow.

This easy, step-by-step instruction manual is for anyone wanting to learn how to make soy container candles for profit. With so much misinformation on the internet about candle making, I've cut out many of the variables so you have a clear, precise place to start in this craft. Once you have a solid place to start and feel grounded you'll be at a better place to grow your own business as you see fit. Warning: this is a detailed guide! (Painfully detailed some might argue) Within these pages I promise to give you all the down and dirty in this business as I know it. Details on supplies, suppliers, trouble-shooting, learning, and even a little research where applicable. This product-based guide is perfect for those considering candle making as a small business or program fundraiser. I give you specific information to go forward immediately with your own project and evaluate for yourself if this craft is a viable place for your business or fundraiser. I share my mistakes so you can jump ahead to the profit-making in your own venture. Seriously, I can't even believe the dumb mistakes I've made. Fortunately I don't really believe in dumb mistakes - I believe in learning opportunities at every turn in the road. Let my mistakes give you a solid path to navigate so you can focus on the direction you intend for your own business. You'll find links to specific supplies and suppliers I currently use in my own business as well as specific recipes and step-by-step instructions I use to create profitable, quality, all-natural, sellable products. I'll even tell you the exact wax I use, the specific amount of fragrance oils I use, and what containers have been the most successful and profitable in our business. I include a trouble-shooting section for specific problems commonly experienced in soy candle making and offer specific, tested solutions to help get your project and learning on the right track to success. Want to learn about the adhesion of wax to glass containers? It's in here. Want to avoid the dreaded sinkholes in your candles? That's in here, too! I include specific links to suppliers as well as links for additional learning for those interested and a small manufacturing business perspective that I employ every day in my own business. Want to know why I chose the soy wax we currently use in our business? In this guide I tell you what I like about it and about the helpful chemists at the wax manufacturer that helped me learn to use it correctly. Are you interested in the hand-made makers movement? This book will help. I want to be part of your success and invite you to contact me with your projects and questions. I invite you to be part of making this a success by contributing to future updates, too! Hand-made, small, mom & pop manufacturing in the United States is alive and well and I'd love to hear how this book contributed to your own success. If I have succeeded, I believe you will, too. I really do believe that the more we share, the more we all will succeed. These -secrets- aren't mine to hoard and leave you struggling on you own to figure out. These -secrets- are just information nuggets I have gathered through trial, error, research, and learning in my own business and I'd be thrilled to know I helped someone else over a hurdle. I know your struggle as a small business owner. I know you don't have access to a research and development department to get your product-based business up and running. (At least I didn't!) I really do want to see small manufacturing businesses grow and thrive, so here's an effort to see that happen. I hope this helps and I'd be thrilled to hear back from you on your successes!
