You're no idiot, of course. You know life is a journey and that physical birth and death are its points of transition. Many people, across cultures and faiths, believe the spirit lives on—and have experienced contact with the spirits of loved ones who have passed to the higher side. This contact is joyous, comforting, and healing—but you wonder if it's really real and whether you can share in it, too. Don't give up the spirit! The Complete Idiot's Guide® to Communicating with Spirits will show you exactly how to uncover your own mediumistic capabilities and connect with those no longer on the earth plane. In this Complete Idiot's Guide®, you get:
--Tips on how to connect with your personal divine energy through prayer, meditation, and dreams.
--Information on the birth of the human soul—as perceived through theological, metaphysical, and spiritual viewpoints.
--Exercises to help you develop your mediumistic abilities.
--Tangible evidence of the continuity of life as presented through the experiences and spirit drawings of medium Rita S. Berkowitz.

Let's face it- most students don't take calculus because they find it intellectually stimulating. It's not . . . at least for those who come up on the wrong side of the bell curve! There they are, minding their own business, working toward some non-science related degree, when . . . BLAM! They get next semester's course schedule in the mail, and first on the list is the mother of all loathed college courses . . . CALCULUS! Not to fear-The Complete Idiot's Guide to Calculus, Second Edition, like its predecessor, is a curriculum-based companion book created with this audience in mind. This new edition continues the tradition of taking the sting out of calculus by adding more explanatory graphs and illustrations and doubling the number of practice problems! By the time readers are finished, they will have a solid understanding (maybe even a newfound appreciation) for this useful form of math. And with any luck, they may even be able to make sense of their textbooks and teachers.

The Complete Idiot's Guide to Accounting, Second Edition, is for small business owners, novice bookkeepers, and accounting clerks who need a comprehensive overview of the monthly accounting process. It guides readers through the ins and outs of creating accounts, conducting transactions, handling employees and payroll, managing month-end procedures, and issuing financial reports. It also covers the various types of accounting software programs available and how to use them to manage a manual set of books. In addition, this new edition includes- Updates to current corporate tax rates Changes to inventory management procedures An all-new appendix featuring the latest government forms Changes to depreciation and sales taxes New and updated computer software programs

From the author of the highly successful The Complete Idiot's Guide to Calculus comes the perfect book for high school and college students. Following a standard algebra curriculum, it will teach students the basics so that they can make sense of their textbooks and get through algebra class with flying colors.
