Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential

government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

What is the President, Congress, and the Supreme Court really allowed to do? This unique and handy guide includes the documents that guide our government, annotated with accessible explanations from one of America's most esteemed constitutional scholars. Known across the country for his appearance on The Daily Show with Jon Stewart, Professor Richard Beeman is one of the nation's foremost experts on the United States Constitution. In this book, he has produced what every American should have: a compact, fully annotated copy of the Declaration of Independence, the Constitution and amendments, all in their entirety. A marvel of accessibility and erudition, the guide also features a history of the making of the Constitution with excerpts from The Federalist Papers and a look at crucial Supreme Court cases that reminds us that the meaning of many of the specific provisions of the Constitution has changed over time. "Excellent . . . valuable and judicious." -Jill Lepore, The New Yorker

The law of nations and the Constitution -- The law merchant and the Constitution -- The law of state-state relations and the Constitution -- The law of state-state relations in federal courts -- The law maritime and the Constitution -- Modern customary international law -- The inadequacy of existing theories of customary -- Judicial enforcement of customary international law against foreign nations -- Judicial enforcement of customary international law against the United States -- Judicial enforcement of customary international law against U.S. states

The Constitution of the United States of America, with the Bill of Rights and all of the Amendments; The Declaration of Independence; and the Articles of Confederation Collected here in one affordable volume are the most important documents of the United States of America: The Constitution of the United States of America, with the Bill of Rights and all of the Amendments; The Declaration of Independence; and the Articles of Confederation. These three documents are the basis for our entire way of life. Every citizen should have a copy.

This book contains in large print the complete text of the three most important documents in American history: The United States Declaration of Independence, adopted at the Second Continental Congress meeting at Philadelphia in July 1776. The Bill of Rights, the collective term of the first ten constitutional amendments, created in 1789 and ratified in 1791 at the Philadelphia Congress. The Constitutional Amendments - eleven through to twenty seven. The publisher humbly advances the notion that every American citizen should claim ownership of a copy of these essential documents, in order to benefit from and reference the wisdom which went into their creation. Together with the principle text, this edition contains images provided courtesy of the United States National Archives as well as independent photographers. Proceeds from the sale of this book go to the American Red Cross, which provides aid and relief in the United States during times of calamity or disaster.

This book examines the U.S. Constitution by focusing on its origins in Western political thought and its organization and subsequent amendments. It describes the document as a series of choices among alternative governmental institutions that are designed to provide national security and secure ordered liberty.
