The Gods of Eden by William Bramley is a relatively old book written in 1989. It is interesting to note that his purpose was to search the origins of human warfare and not to write this kind of book. Something that is supported by the fact that he hasn't written anything else since then. I read the book about 8 months ago.

Here is some information and comment relating to the thesis put forward by William Bramley in The Gods of Eden that the basic cause of war, genocide and conflict in history is not a viciousness innate in the human species (or even in the male part of it) but rather is the less-than-benevolent interference in human affairs by extraterrestrials (members of a race which had its origin other than on Earth, the Anunnaki). These ETs allegedly assume, when it suits their purposes, the forms of angels.

A must have for any conspiracy theorist, GODS OF EDEN makes a well-thought out argument for covert intervention throughout history by various groups and individuals. Even though some of the ideas and details presented may seem extraordinary, the extremely well researched book makes a solid case and could lead even disbelievers to question their own orthodox.

Bramley contends in his book, The Gods of Eden, that aliens, via their elite and ultra-secret Brotherhood organizations, are the source of all human conflict. If one really thinks about this, it sounds suspiciously like that old refrain children use when they have done something bad- "the devil made me do it!".

Like the Genesis flood narrative, the Genesis creation narrative and the account of the Tower of Babel, the story of Eden echoes the Mesopotamian myth of a king, as a primordial man, who is placed in a divine garden to guard the Tree of Life. The Hebrew Bible depicts Adam and Eve as walking around the Garden of Eden naked due to their sinlessness.

Custodians of ancient knowledge have long known that the mystery of humanity’s origins is far more complicated than widely accepted notions of natural evolution. They tell us that the gods of Eden, the Annunaki, planned a destiny for us which is still being played out through our ongoing obsession with gold.

**They Came To Earth Millions Of Years Ago To Spread The Poison Of Hatred, War And Catastrophe... They Are With Us Still... Human history is a seemingly endless succession of bloody conflicts and devastating turmoil. Yet, inexplicably, in the light of astonishing intellectual and technological advancement, Man's progress has been halted in one crucial area: he still indulges the primitive beast within and makes war upon his neighbors. As a result of seven years of intense research, William Bramley has uncovered the sinister thread that links humanity's darkest events -- from the wars of the ancient pharaohs to the assassination of JFK. In this remarkable, shocking and absolutely compelling work, Bramley presents disturbing evidence of an alien presence on Earth -- extraterrestrial visitors who have conspired to dominate Humankind through violence and chaos since the beginning of time...a conspiracy which continues to this very day.**

**An exploration of the megalithic complex at Göbekli Tepe, who built it, and how it gave rise to legends regarding the foundations of civilization • Details the layout, architecture, and exquisite carvings at Göbekli Tepe • Explores how it was built as a reaction to a global cataclysm • Explains that it was the Watchers of the Book of Enoch and the Anunnaki gods of Sumerian tradition who created it • Reveals the location of the remains of the Garden of Eden in the same region Built at the end of the last ice age, the mysterious stone temple complex of Göbekli Tepe in Turkey is one of the greatest challenges to 21st century archaeology. As much as 7,000 years older than the Great Pyramid and Stonehenge, its strange buildings and rings of T-shaped monoliths--built with stones weighing from 10 to 15 tons--show a level of sophistication and artistic achievement unmatched until the rise of the great civilizations of the ancient world, Sumer, Egypt, and Babylon. Chronicling his travels to Göbekli Tepe and surrounding sites, Andrew Collins details the layout, architecture, and exquisite relief carvings of ice age animals and human forms found at this 12,000-year-old megalithic complex, now recognized as the oldest stone architecture in the world. He explores how it was built as a reaction to a global cataclysm--the Great Flood in the Bible--and explains how it served as a gateway and map to the sky-world, the place of first creation, reached via a bright star in the constellation of Cygnus. He reveals those behind its construction as the Watchers of the Book of Enoch and the Anunnaki gods of Sumerian tradition. Unveiling Göbekli Tepe’s foundational role in the rise of civilization, Collins shows how it is connected to humanity’s creation in the Garden of Eden and the secrets Adam passed to his son Seth, the founder of an angelic race called the Sethites. In his search for Adam’s legendary Cave of Treasures, the author discovers the Garden of Eden and the remains of the Tree of Life--in the same sacred region where Göbekli Tepe is being uncovered today.**

**The biblical story of Adam and Eve in the Garden of Eden is a cornerstone of Western civilization, yet there are still many mysteries concerning its origins and meaning. In The Mythology of Eden, Arthur and Elena George utilize new historical and archaeological discoveries to reveal how the story’s author uses veiled symbolism and mythological storytelling to convey his message about the most profound questions of human existence regarding the divine, life, death, and immortality. This innovative book offers an interdisciplinary interpretation of the Eden story that delves into incorrect assumptions and brings to light details that have previously gone unnoticed. The Mythology of Eden provides a new understanding of the story of Adam and Eve and illuminates the story’s role and meaning in our modern world.**

**A masterpiece of Biblical scope, and the magnum opus of one of America’s most enduring authors, in a commemorative hardcover edition In his journal, Nobel Prize winner John Steinbeck called East of Eden "the first book," and indeed it has the primordial power and simplicity of myth. Set in the rich farmland of California’s Salinas Valley, this sprawling and often brutal novel follows the intertwined destinies of two families—the Trasks and the Hamiltons—whose generations helplessly reenact the fall of Adam and Eve and the poisonous rivalry of Cain and Abel. The masterpiece of Steinbeck’s later years, East of Eden is a work in which Steinbeck created his most mesmerizing characters and explored his most enduring themes: the mystery of identity, the inexplicability of love, and the murderous consequences of love’s absence. Adapted for the 1955 film directed by Elia Kazan introducing James Dean, and read by thousands as the book that brought Oprah’s Book Club back, East of Eden has remained vitally present in American culture for over half a century.**

**One of the most amazing epic stories in recent memory, the connection between ancient alien beings and human history is captured in this mesmerizing science fiction novel. A biblical passage from the Book of Genesis points the way to this connection, which recently has been tied to new excavations in Southeast Turkey, thought by several archeologists to be the site of the fabled Garden of Eden. The story ties the ancient Jewish staff of Moses to the Knights Templers, the Bilderberg Group, the American NSA, and Israeli intelligence services, all in pursuit of the secretive German Nazi Base 211 located at the South Pole in Antarctica. The American top secret Operation High Jump, which was recently partially declassified, raises many questions about the involvement of the world’s governments in a cover-up of alien presence on Earth.**

**Secrets are hidden best in plain sight. Call them sacred, blasphemous, absurd, visions, dreams, even the Word of God; the misfits of Earth’s history are not going away. Eyewitnesses to truth still live and speak. The Genesis patriarch, Enoch, is one of these witnesses. He walked with God and transcribed astounding knowledge as directed by Angels. Time has brought new life to Enoch's divine, terrestrial and extraterrestrial adventures.**

**A provocative new interpretation of the Adam and Eve story from an expert in Biblical literature. The Garden of Eden story, one of the most famous narratives in Western history, is typically read as an ancient account of original sin and humanity’s fall from divine grace. In this highly innovative study, Ziony Zevit argues that this is not how ancient Israelites understood the early biblical text. Drawing on such diverse disciplines as biblical studies, geography, archaeology, mythology, anthropology, biology, poetics, law, linguistics, and literary theory, he clarifies the worldview of the ancient Israelite readers during the First Temple period and elucidates what the story likely meant in its original context. Most provocatively, he contends that our ideas about original sin are based upon misconceptions originating in the Second Temple period under the influence of Hellenism. He shows how, for ancient Israelites, the story was really about how humans achieved ethical discernment. He argues further that Adam was not made from dust and that Eve was not made from Adam’s rib. His study unsettles much of what has been taken for granted about the story for more than two millennia—and has far-reaching implications for both literary and theological interpreters. “Classical Hebrew in the hands of Ziony Zevit is like a cello in the hands of a master cellist. He knows all the hidden subtleties of the instrument, and he makes you hear them in this rendition of the profoundly simple story of Adam, Eve, the Serpent, and their Creator in the Garden of Eden. Zevit brings a great deal of other biblical learning to bear in a surprisingly light-hearted book.”—Jack Miles, author of God: A Biography**

**A groundbreaking historical documentation of the secret history of pre-Pharonic Egypt and the race of angels that built it. •By the author of From the Ashes of Angels and Gateway to Atlantis (more than 30,000 copies sold in the United Kingdom). •Unlocks the secrets of how the Great Pyramids and the Sphinx were built. •Explains the traces left by the race of Elder gods that founded ancient Egypt through ancient texts of the Hall of Records. •Proves the foundations of ancient astronomy 10,000 years ago. Hidden deep below Egypt's Giza plateau is perhaps the key to unlocking the mysteries of the Great Pyramid, one of the seven wonders of the world. Built using a technology unequaled even today, the ancient Egyptians claimed they inherited their advanced culture from a race of Elder gods who lived during a previous age known as Zep Tepi, the First Time. In his earlier companion book From the Ashes of Angels, renowned historical writer Andrew Collins provided historical and scientific evidence showing how these Elder gods, who were the flesh and blood members of a race of fallen angels, founded ancient Egypt. Now, in Gods of Eden, he describes the remarkable achievements of their culture. Assembling clues from archaeology, mythology, and religion, Collins shows us how this great society mastered acoustic technology and employed the use of sound to raise heavy objects into the air and pierce holes through solid rock. It was with this technology that they were able to construct gigantic structures that have marveled adventurers and archaeologists worldwide. With findings based on more than 20 years of research and scholarship, Collins reveals the fascinating historical destiny of this culture of fallen angels and the imprints and legacies they left behind at the genesis of civilization.**
