This book takes you back to the time of William Wallace and his wars against the English King Edward I "Longshanks," as seen in the 1995 movie "Braveheart." The Scottish wars precede the famous Hundred Years War (1337-1453). Thus, this is a good place to begin a study of the period of time leading up to the Hundred Years War.

The Scottish and Welsh Wars 1250 – 1400 - Osprey Publishing

This is an incomplete list of the wars and battles between the Anglo-Saxons who later formed into the Kingdom of England and the Britons, as well as the conflicts between the English and Welsh in subsequent centuries. The list begins after the Adventus Saxonum in c. AD 446 to the late Middle Ages when Wales was eventually subdued and annexed by England. The list is not exhaustive but seeks to note the significant campaigns and the major battles.

List of Anglo-Welsh wars - Wikipedia

The five opening pages looks at the Welsh war of 1282, the next thirteen are based on the Scottish war, with at least four pages on the Battle of Bannockburn, while only a paragraph is dedicated to the fifteen year campaign of Owain Glyndwr.

The Scottish and Welsh Wars 1250-1400: 151 (Men-at-Arms ...

The Anglo-Scottish Wars comprise the various battles which continued to be fought between the Kingdom of England and the Kingdom of Scotland from the time of the Wars of Independence in the early 14th century through to the latter years of the 16th century. Although the Wars of Independence, in which Scotland twice resisted attempted conquest by Plantagenet kings of England, formally ended in the treaties of 1328 and 1357 respectively, relations between the two countries remained uneasy. Incursi

Sterling Bridge was a key Scottish victory in the Wars of Independence. Scots forces led by Andrew Moray and William Wallace swept down on the English troops that had just crossed the narrow bridge at Stirling and inflicted a heavy defeat upon them. The medieval wooden bridge stood just upstream from the existing stone bridge.

Welsh and Scots Wars - British Battlefields

Edward invaded and conquered Scotland (1296), removing to Westminster the coronation stone of Scone. Wallace led a revolt in 1297, and Edward, though brilliantly victorious at Falkirk (July 22, 1298), could not subdue the rebellion despite prolonged campaigning (1298 – 1303).

On October 10, 1066 came the last successful invasion of England, when William the Conqueror and his troops faced the Anglo-Saxon army of Harold Godwinson. Within 6 hours Harold was slain and his country lost. However, it was to be fully 2 centuries before Anglo-Norman kings would penetrate that wild interiors of Wales and Scotland, and still more centuries were to pass before Scotland, Wales, and England were united beneath one crown.

Were the English and the Scots always at loggerheads in the fourteenth century? The essays here offer a more nuanced picture.

Bannockburn was the climax of the career of King Robert the Bruce. In 1307 King Edward I of England, 'The Hammer of the Scots' and nemesis of William Wallace, died and his son, Edward II, was not from the same mould. Idle and apathetic, he allowed the Scots the chance to recover from the grievous punishment inflicted upon them. By 1314 Bruce had captured every major English-held castle bar Stirling and Edward II took an army north to subdue the Scots. Pete Armstrong's account of this pivotal campaign culminates at the decisive battle of Bannockburn that finally won Scotland her independence.

A study of the prophetic tradition in medieval England brings out its influence on contemporary politics and the contemporary elite.

The Civil War fought between Charles I and his Parliament is one of the most momentous conflicts in English history. This book provides a wholly new perspective by revealing the extent to which the struggle possessed an "ethnic" dimension, and the impact of that on the forging of English national identity. Stoyle reveals the acute fear of foreign invasion that gripped England after 1640, when the insular English were placed on the brink of what they perceived as a national emergency. Stoyle sets the creation of the New Model Army within that context, arguing that its appearance represented the culmination of a campaign by Oliver Cromwell and others to forge a purely "English" military instrument, one purged of the foreign solders who had been so prominent in earlier Parliamentary armies. This self-consciously "English" army eventually succeeded in wresting back control of the kingdom by defeating the King's forces, re-conquering Cornwall and Wales, and expelling all foreign agents.

A new appraisal of the military careers and activities of soldiers from elite medieval families.

Osprey's study of William Wallace's rebellion in the First War of the Wars of Scottish Independence (1296-1357). The death of the last of the Scottish royal house of Canmore in 1290 triggered a succession crisis. Attempts to undermine Scottish independence by King Edward I of England sparked open rebellion culminating in an English defeat at the hands of William Wallace at Stirling Bridge in 1297. Edward gathered an army, marched north and at Falkirk on 22 July 1298 he brought Wallace's army to battle. Amid accusations of treachery, Wallace's spearmen were slaughtered by Edward's longbowmen, then charged by the English cavalry and almost annihilated. In 1305 Wallace was captured and executed, but the flame of rebellion he had ignited could not be extinguished.

Covers more than 1000 rulers and two millennia of history
