The authors see mapping software as visual tools for reading and writing in a networked age. In an information ocean, the challenge is to find meaningful patterns around which we can weave plausible narratives. Revealing a world beyond the stereotype, My Cool Campervan celebrates the new wave of interest in modern-retro campervans. When people think of campervans, they almost always recall the iconic VW T2, that familiar, happy-faced van that embodies the virtues of enjoying the journey and taking your time. However, there is a world of forgotten campervans out there and an idiosyncratic world of individual conversions to campers. Join Jane Field-Lewis and Chris Haddon as they set off on a 3,500-mile trip to locate campervans and their proud owners, who share their memories of family holidays and long road trips. Delve into the world of road-tripping as they reveal a succession of delightful campervans, memorable locations, and classic models, at times beautifully restored, and at others well-loved and well-used. My Cool Campervan reveals a world beyond the stereotype and is a celebration of campervans' evolving styles and designs.
