In this sequel to his first volume of autobiography *Pride and Perjury*, Aitken starts his story as he is taken down from the courtroom and incarcerated at Her Majesty's Pleasure. How this Old Etonian former Cabinet Minister on Mrs Thatcher's inner circle managed to establish new relationships and lasting friendships with fellow prisoners is fascinating - so too is this account of how religious belief transformed his life. Aitken has lost none of his charm, fluency and determination - and he has found an authentic new life which readers of this entertaining new book will be able to judge for themselves. 'A rich collection of humorous tales of prison life... Aitken seems to have found a new vocation of both a funny writer and a serious prison reformer.' *Tablet*

When a villainous wizard escapes from exile, the devastatingly sexy Domsday Brethren must defend all magickind in the spellbinding second book in bestselling author Shayla Black's seductive new paranormal series. Ex-marine Caden MacTavish has shunned his magical heritage all his life, but he will do anything to heal his desperately ill brother, a Domsday Brethren warrior in mourning for his missing mate. Posing as a photographer, Caden must convince firecracker tabloid reporter Sydney Blair to reveal the source of her recent exposé on a supernatural power clash. Unfortunately, keeping his hands off the sizzling redhead proves as hard as getting them onto the potent and mystical Domsday Diary he discovers at her bedside. A bloody rebellion led by an evil, power-hungry wizard is imminent. If Sydney divulges the book's existence, she will jeopardize magickind's most deeply guarded secrets and become the ruthless wizard's number one target. housekeeping duties, but she soon comes to know the family secret.

Following the death of her worthy liberal parents, Corlis McCrea moves back into her family's grand Reconstruction mansion in North Carolina, willed to all three siblings. Her timid younger brother has never left home. When her bullying black-sheep older brother moves into "his" house as well, it's war. Each heir wants the house. Yet to buy the other out, two siblings must team against one. Just as in girlhood, Corlis is torn between allying with the decent but fearful youngest and the iconoclastic eldest, who covets his legacy to destroy it. A Perfectly Good Family is a stunning examination of inheritance, literal and psychological: what we take from our parents, what we discard, and what we are stuck with, like it or not.

Picture a frustrated office worker of twenty-five. One rainy, miserable Monday he resolves to grab life with both hands and embark on an adventure: the first entirely human-powered journey around the world. Although he had never been on an expedition of any kind and had no money, Stevie and his friend Jason dreamed up a voyage that would take them from England to Hawaii by bicycle, inline skates and ocean-going pedal boat. For 111 days, they pedalled 7,500 kilometers across the Atlantic, and then crossed the United States to take on the challenge of the Pacific. Pedalling to Hawaii is hilarious, entertaining and refreshingly non-heroic, packed with thrills and spills as the intrepid and sometimes blundering duo make their way around the world. It is also a meditative account of a search for simplicity and integrity.

Much has been written about money-how to invest, save, become a millionaire, get out of debt, find financial freedom, change the monetary system, manage a business, hedge or save taxes. So what makes this book stand out from those already in the bookshops? Written for lay reader and expert alike, 30 Lies is a response to a newly emerging trend, where peoples' interest in money is not just to try and make more of it. But to understand better the causes of the increasingly contradictory money world they find themselves in. Some of the issues: income inequity, increasing

stress in making ends meet, decay of social systems, evaporation of pensions, polarisation of wealth, third-world indebtedness, Enrons and more. This book promises a simple understanding of these issues. But it goes further. Things they didn't say after reading this book: "Anyone interested in the truth must buy this book." George W. Bush "This book has been very helpful. Now I know for sure there is nothing in the world more important than money." Deepak Chopra "Great book-turns economics on its head." soroS egroeG "This explains it-why God has gone bankrupt and we're still in business." Pope John Paul II "Peter Koenig-They should lock him up and throw away the key!" Dermot Fitzpatrick
