This book is intended for anyone whose job involves writing formal documentation. It is aimed at non-native speakers of English, but should also be of use for native speakers who have no training in technical writing. Technical writing is a skill that you can learn and this book outlines some simple ideas for writing clear documentation that will reflect well on your company, its image and its brand. The book has four parts: Structure and Content: Through examples, you will learn best practices in writing the various sections of a manual and what content to include. Clear Unambiguous English: You will learn how to write short clear sentences and paragraphs whose meaning will be immediately clear to the reader. Layout and Order Information: Here you will find guidelines on style issues, e.g., headings, bullets, punctuation and capitalization. Typical Grammar and Vocabulary Mistakes: This section is divided alphabetically and covers grammatical and vocabulary issues that are typical of user manuals.

What is the point? What is the purpose of life? Why must I suffer the stress, and anxiety that comes with it? Why does it all seem so hard and so unfair? If you have asked yourself any of these questions, then you have found the book you are looking for. There are answers to all of these questions and Anderson Silver has compiled teachings from Stoicism and other schools of thought in Your User's Manual. This refreshing collection not only gives the reader much sought after answers, but also provides the tools for finding purpose, and living an anxiety-free life in the modern world. Meant as a light read that the reader can come back to and meditate on periodically, Anderson has done a wonderful job of condensing fundamental teachings, making Your User's Manual a straightforward read in answering life's most pressing questions and recognizing what is truly important.

Offers practical guidelines and samples for writing coherent, accessible technical reports and proposals

Thesis (M.S.) in Professional Writing and Technical Communications--University of Houston Downtown, 2009.

Represents an exploration of the relationship between imagination and reality as seen through the eyes of the dying Serge Valene, an inhabitant of a large Parisian apartment block.
