"Stella Cottrell's student-centred approach demystifies critical thinking and breaks down a complex subject into manageable chunks. With clear explanations, relevant examples and plenty of exercises throughout, this book helps students to develop their analytical reasoning skills and apply them to a range of tasks including reading, note-making and writing. This text will turn even the most hesitant student into a proficient critical thinker. This is an ideal companion for students of study skills, humanities, social sciences, business and arts programmes, where assessment includes essay and report writing. It is suitable for students of all levels"--Provided by publisher.

This book presents the conceptual framework underlying the fifth cycle of PISA, which covers reading, science and this year's focus: mathematical literacy, along with problem solving and financial literacy.
