Aliens and space - Fulvio Fusco 2017-12-15

Il tema della vita su altri pianeti è un argomento che affascina l'uomo da secoli; la possibilità di non essere soli nell'universo ha sempre raccolto opinioni discordanti, coinvolgendo in dibattiti sia semplici appassionati che famosi studiosi. Ogni tanto arrivano alla stampa notizie che alimentano le speranze di chi crede nell'esistenza di creature aliene, ma

che la scienza cerca di spiegare in modo razionale.

Theophrastus - Johannes M. van Ophuijsen 2020-12-18

Theophrastus was Aristotle's pupil and second head of the Peripatetic School. Apart from two botanical works, a collection of character sketches, and several scientific opuscula, his works survive only through quotations and reports in secondary sources. Recently these quotations and reports have been collected and published, thereby making the thought of Theophrastus accessible to a wide audience. The present volume contains seventeen responses to this material. There are chapters dealing with Theophrastus' views on logic, physics, biology,

ethics, politics, rhetoric, and music, as well as the life of Theophrastus. Together these writings throw considerable light on fundamental questions concerning the development and importance of the Peripatos in the early Hellenistic period. The authors consider whether Theophrastus was a systematic thinker who imposed coherence and consistency on a growing body of knowledge, or a problem-oriented thinker who foreshadowed the dissolution of Peripatetic thought into various loosely connected disciplines. Of special interest are those essays which deal with Theophrastus' intellectual position in relation to the lively philosophic scene occupied by such contemporaries as Zeno, the founder of the Stoa, and Epicurus, the founder of the Garden, as well as Xenocrates and Polemon of the Academy, and Theophrastus' fellow Peripatetics, Eudemus and Strato. The contributors to the volume are Suzanne Amigues, Antonio Battagazzore, Tiziano Dorandi, Woldemar Gorier, John Glucker, Hans Gottschalk, Frans de Haas, Andre Laks, Anthony Long, Jorgen Mejer, Mario Mignucci, Trevor Saunders, Dirk Schenkeveld, David Sedley, Robert Sharples, C. M. J. Sicking and Richard Sorabji. The Rutgers University Studies in Classical Humanities series is a forum for seminal thinking in the field of philosophy, and this volume is no exception. Theophrastus is a landmark achievement in intellectual thought. Philosophers, historians, and classicists will all find this work to be enlightening.

Tra gli animali del mondo - 2016-11

Pier Paolo Pasolini - Ben Lawton 2009-03-09

A collection of essays discussing the famed Italian film director, writer, and intellectual. More than thirty years after the tragic death of Pier Paolo Pasolini, this volume is intended to acknowledge the significance of his living memory. His artistic and cultural production continues to be a fundamental reference point in any discourse on the state of the arts, and on contemporary political events, in Italy and abroad. This collection of essays intends to continue the recognition of Pasolini's teachings and of his role as engaged intellectual, not only as acute observer of the society in which he lived, but also as semiologist, writer, and filmmaker, always heretical in all his endeavors. Many directors, reporters, and contemporary writers see in the "inconvenient intellectual" personified by Pasolini in his writings, in his films, and in his interviews, an emblematic figure with whom to institute and maintain a constant dialog, both because of the controversial topics he addressed, which are still relevant today, and because of the ways in which he confronted the power structures. His analytical ability made it impossible for him to believe in the myth of progress; instead, he embraced an ideal that pushed him always to struggle on the firing line of controversy.

**Shameless** - Cristiana Franco 2014-09-26

The figure of the dog is a paradox. As in so many cultures, past and present, the dog in ancient Greece was seen as the animal closest to humans, even as it elicited from them the most negative representations. Still a loaded term today, the word bitch not only signified shamelessness and a lack of self-control but was also exclusively figured as female. Woman and dogs in the Greek imagination were intimately intertwined, and in this careful, engaging analysis, Cristiana Franco explores the ancients' complex relationship with both. By analyzing the relationship between humans and dogs as depicted in a vast array of myths, proverbs, spontaneous metaphors, and comic jokes, Franco in particular shows how the symbolic overlap between dog and woman provided the conceptual tools to maintain feminine subordination. Intended for general readers as well as scholars, Shameless extends the boundaries of classics and anthropology, forming a model of the sensitive work that can be done to illuminate how deeply animals are imbricated in human history. The English translation has been revised and expanded from the original Italian edition, and it includes a new methodological appendix by the author that points the way toward future work in the emerging field of human-animal studies.
