The Age of Surveillance Capitalism - Shoshana Zuboff 2019-01-15

The challenges to humanity posed by the digital future, the first detailed examination of the unprecedented form of power called "surveillance capitalism," and the quest by powerful corporations to predict and control our behavior. In this masterwork of original thinking and research, Shoshana Zuboff provides startling insights into the phenomenon that she has named surveillance capitalism. The stakes could not be higher: a global architecture of behavior modification threatens human nature in the twenty-first century just as industrial capitalism disfigured the natural world in the twentieth. Zuboff vividly brings to life the consequences as surveillance capitalism advances from Silicon Valley into every economic sector. Vast wealth and power are accumulated in ominous new "behavioral futures markets," where predictions about our behavior are bought and sold, and the production of goods and services is subordinated to a new "means of behavioral modification." The threat has shifted from a totalitarian Big Brother state to a ubiquitous digital architecture: a "Big Other" operating in the interests of surveillance capital. Here is the crucible of an unprecedented form of power marked by extreme concentrations of knowledge and free from democratic oversight. Zuboff's comprehensive and moving analysis lays bare the threats to twenty-first century society: a controlled "hive" of total connection that seduces with promises of total certainty for maximum profit -- at the expense of democracy, freedom, and our human future. With little resistance from law or society, surveillance capitalism is on the verge of dominating the social order and shaping the digital

future -- if we let it.

She had scraped together what previous generations of trans women could only dream of: a life of mundane, bourgeois comforts. The only thing missing was a child. But then her girlfriend, Amy, detransitioned and became Ames, and everything fell apart. Now Reese is caught in a self-destructive pattern: avoiding her loneliness by sleeping with married men. Ames isn't happy either. He thought detransitioning to live as a man would make life easier, but that decision

cost him his relationship with Reese—and losing her meant losing his only family. Even though their romance is over, he longs to find a way back to her. When Ames's boss and lover, Katrina, reveals that she's pregnant with his baby—and that she's not sure whether she wants to keep it—Ames wonders if this is the chance he's been waiting for. Voir la mer - Sophie Calle 2013

In See the Sea, Sophie Calle invited inhabitants of Istanbul, who often originated from central Turkey, to see the sea for the first time. The exhibition of the same name was presented at the Méjan Chapel in Arles during summer 2012, then at the Galerie Perrotin in Paris, 8 September to 27 October 2012, before visiting Japan in 2013. The exhibition comprises fourteen 5-minute videos by Caroline Champetier. Each person is filmed from behind, facing the sea. Listening to the distant sound of waves, we are simultaneously also invited to gaze at the sea. After several minutes the person filmed turns around to face the camera, revealing the emotions the experience has procured. Based on the exhibition, the catalogue features photographs of the people, brought together by a single event: In Istanbul, a city surrounded by sea, I met people who had never seen it and filmed them for the first time. Sophie Calle once more refers the gaze back to its own experiences, reminding

us that even the simplest things in life can be exceptional, while inviting us to rediscover our daily lives.

Teaching Kids to Be Kind - Rachel Tomlinson 2020-01-21

A simple and sweet parenting book with 365 tips—a new one to try every day! As a parent, you want the best for your child, and one of your greatest hopes is that your child will grow up to be a good person. So, what makes a good person? Generally, we think about good people as being kind: those who are compassionate, empathetic, generous. However, it seems that, in our fast-paced, individual-driven society, kindness is fading and the pressure on parents to raise socially conscious, empathetic, and caring children can seem overwhelming at times. In Teaching Kids to Be Kind, Rachel Tomlinson draws from her professional experiences to provide 365 inspiring strategies to help children and families practice kindness every day of the year. Daily tips include: Taking your child shopping around the holidays to select a new toy to donate to another little boy or girl their age. Leaving little notes in their lunch box or school bag for them to find. This models unconditional love and consideration for others. Baking a cake together to teach patience and teamwork and build on their ability to delay gratification. An essential tool for parents, Teaching Kids to Be Kind will help children develop empathy, regulate their emotions, and improve their general well-being as well as support families in strengthening their overall relationships.
