**Lamberto, Lamberto, Lamberto** - Gianni Rodari  
2011-12-06

A fable for children and adults: a story of life, death, and terrorism—in the grand tradition of Exupéry's *The Little Prince* When we first meet 93-year-old millionaire Baron Lamberto, he has been diagnosed with 24 life-threatening ailments—one for each of the 24 banks he owns. But when he takes the advice of an Egyptian mystic and hires servants to chant his name over and over again, he seems to not only get better, but younger. Except then a terrorist group lays siege to his island villa, his team of bank managers has to be bussed in to help with the ransom negotiations, and a media spectacle breaks out . . . A hilarious and strangely moving tale that seems ripped from the headlines—although actually written during the time the Red Brigades were terrorizing Italy—Gianni Rodari's *Lamberto, Lamberto*, Lamberto has become one of Italy's most beloved fables. Never before translated into English, the novel is a reminder, as Rodari writes, that "there are things that only happen in

fairytale."

*The Book of Disquiet* - Fernando Pessoa

2010-12-09

Sitting at his desk, Bernardo Soares imagined himself free forever of Rua dos Douradores, of his boss Vasques, of Moreira the book-keeper, of all the other employees, the errand boy, the post boy, even the cat. But if he left them all tomorrow and discarded the suit of clothes he wears, what else would he do? Because he would have to do something. And what suit would he wear? Because he would have to wear another suit. A self-deprecating reflection on the sheer distance between the loftiness of his feelings and the humdrum reality of his life, *The Book of Disquiet* is a classic of existentialist literature.

*Vulnerability as generativity* - Cristiana

Ottaviano 2018-04-10T00:00:00+02:00

This book focuses on parenthood and generativity, considered not only a set of biological functions, but as human and socio-cultural capabilities above and beyond gender

differences. The authors reconsider in particular the institution of motherhood, emphasizing the historical and social function of women.

Alongside a reflection on the gender role of women as mothers and wives, this volume explores male identities and fatherhood. While claiming that parenthood and care are human characteristics - and not just gendered or female attributes - the authors suggest the adoption of a gynanic perspective on inter-gender relationships.

**Through Time Into Healing** - Brian L. Weiss  
2012-05-08

The book that sheds new light on reincarnation and the extraordinary healing potential of past life and hypnotic regression therapy, from the New York Times bestselling author of *Many Lives, Many Masters*. Brian Weiss made headlines with his groundbreaking research on past life therapy in *Many Lives, Many Masters*. Now, based on his extensive clinical experience, he builds on time-tested techniques of psychotherapy, revealing how regression to past

lifetimes provides the necessary breakthrough to healing mind, body, and soul. Using vivid past life case studies, Dr. Weiss shows how regression therapy can heal grief, create more loving relationships, uncover hidden talents, and ultimately shows how near death and out of body experiences help confirm the existence of past lives. Dr. Weiss includes his own professional hypnosis, dream recall, meditation, and journaling techniques for safe past life recall at home. Compelling and provocative, *Through Time Into Healing* shows us how to help ourselves lead healthy, productive lives, secure in the knowledge that death is not the final word and that the doorways to healing and wholeness are inside us.

**India** - V. S. Naipaul 2011-04-06

In 1975, at the height of Indira Gandhi's "Emergency," V. S. Naipaul returned to India, the country his ancestors had left one hundred years earlier. Out of that journey he produced this concise masterpiece: a vibrant, defiantly unsentimental portrait of a society traumatized by centuries of foreign conquest and immured in a mythic vision of its past. Drawing on novels, news reports, political memoirs, and his own encounters with ordinary Indians—from a supercilious prince to an engineer constructing housing for Bombay's homeless—Naipaul captures a vast, mysterious, and agonized continent inaccessible to foreigners and barely visible to its own people. He sees both the burgeoning space program and the 5,000 volunteers chanting mantras to purify a defiled temple; the feudal village autocrat and the Naxalite revolutionaries who combined Maoist rhetoric with ritual murder. Relentless in its vision, thrilling in the keenness of its prose,

India: A Wounded Civilization is a work of astonishing insight and candor.

It's Never The End - Alex Raco 2016-05-07

London - late 1880s. Alex - successful MBA, skeptical and materialistic executive, sees himself as a woman in a previous life. And, she's about to have a miscarriage. This out-of-body experience, or regression, totally changes Alex's present life. He recovers from a serious autoimmune condition and forsakes the rat race of the business world to bring relief to others. And, through his treatment of clients he has reawakened and guided hundreds of people through regressions to their previous lives. This book recounts, with incredible detail, the adventures of his clients' previous lives. Readers learn about hypnosis techniques and other phenomena like déjà vu. Fear not, the book is

not overly technical. The author debunks myths about hypnosis, explaining why his controlled techniques produce empirical results, notwithstanding the lack of acceptance by traditional medicine. Have you ever met someone or entered a place for the first time, but, feel like you once knew them or where there before? Mr. Raco's clients expose how childhood memories and previous lives contribute to our present consciousness - our very souls. It goes beyond our brains, before our present beings, and after our deaths. The book describes Mr. Raco's initial heavy skepticism of regression therapy. But it describes the real experiences of many clients. Their regression experiences demonstrate how present problems can be solved or reduced by reworking traumatic memories - in this and in previous lifetimes. A book in which topics such as parenting, soulmates, emotional dependency and the love for animals become alive through the lives of soldiers, monks, thieves, singers, slaves, dwarfs, ancient Romans, medieval peasants and

warriors. It is a statistical and empirical investigation from a professional who is able to maintain, in spite of everything, a detached and neutral perspective. A great instrument for the psychological well-being and personal growth of all of us. A book that will change your life.

**Bookmarks - A manual for combating hate speech online through human rights education** - 2014-05-13

The work of the Council of Europe for democracy is strongly based on education: education in schools, and education as a lifelong learning process of practising democracy, such as in non-formal learning activities. Human rights education and education for democratic citizenship form an integral part of what we have to secure to make democracy sustainable. Hate speech is one of the most worrying forms of racism and discrimination prevailing across Europe and amplified by the Internet and social media. Hate speech online is the visible tip of the iceberg of intolerance and ethnocentrism. Young people are directly concerned as agents

and victims of online abuse of human rights; Europe needs young people to care and look after human rights, the life insurance for democracy. Bookmarks is published to support the No Hate Speech Movement youth campaign of the Council of Europe for human rights online. Bookmarks is useful for educators wanting to address hate speech online from a human rights perspective, both inside and outside the formal education system. The manual is designed for working with learners aged 13 to 18 but the activities can be adapted to other age ranges.

**Greek Medical Papyri** - Nicola Reggiani  
2019-09-23

The volume collects papers presented at the International Conference "Greek Medical Papyri - Text, Context, Hypertext" held at the University of Parma on November 2-4, 2016, as the final event of the ERC project DIGMEDTEXT, aimed primarily at creating an online textual database of the Greek papyri dealing with medicine. The contributions, authored by outstanding

papyrologists and historians of the ancient medicine, deal with a variety of topics focused on the papyrological evidence of ancient medical texts and contexts. The first part, devoted to "medical texts", contains some new reflections on important sources such as the Anonymus Londinensis and the Hippocratic corpus, as well as on specific themes like the pharmacological vocabulary, the official medical reports, the medical care in the Roman army. The second part collects papers about the "doctors' context", providing highlights from broader viewpoints like the analysis of the writing supports, the study of the ostraka from the Eastern Desert, the evidence of inscriptions and philosophical texts. The third part is entirely focused on the DIGMEDTEXT project itself: the team members present some relevant key issues raised by the digitisation of the medical papyri.

*Economy of the Unlost* - Anne Carson

2009-04-11

The ancient Greek lyric poet Simonides of Keos

was the first poet in the Western tradition to take money for poetic composition. From this starting point, Anne Carson launches an exploration, poetic in its own right, of the idea of poetic economy. She offers a reading of certain of Simonides' texts and aligns these with writings of the modern Romanian poet Paul Celan, a Jew and survivor of the Holocaust, whose "economies" of language are notorious. Asking such questions as, What is lost when words are wasted? and Who profits when words are saved? Carson reveals the two poets' striking commonalities. In Carson's view Simonides and Celan share a similar mentality or disposition toward the world, language and the work of the poet. *Economy of the Unlost* begins by showing how each of the two poets stands in a state of alienation between two worlds. In Simonides' case, the gift economy of fifth-century b.c. Greece was giving way to one based on money and commodities, while Celan's life spanned pre- and post-Holocaust worlds, and he himself,

writing in German, became estranged from his native language. Carson goes on to consider various aspects of the two poets' techniques for coming to grips with the invisible through the visible world. A focus on the genre of the epitaph grants insights into the kinds of exchange the poets envision between the living and the dead. Assessing the impact on Simonidean composition of the material fact of inscription on stone, Carson suggests that a need for brevity influenced the exactitude and clarity of Simonides' style, and proposes a comparison with Celan's interest in the "negative design" of printmaking: both poets, though in different ways, employ a kind of negative image making, cutting away all that is superfluous. This book's juxtaposition of the two poets illuminates their differences--Simonides' fundamental faith in the power of the word, Celan's ultimate despair--as well as their similarities; it provides fertile ground for the virtuosic interplay of Carson's scholarship and her poetic sensibility.

*The Leap* - Steve Taylor 2017-02-14

What does it mean to be enlightened or spiritually awakened? In *The Leap*, Steve Taylor shows that this state is much more common than is generally believed. He shows that ordinary people — from all walks of life — can and do regularly “wake up” to a more intense reality, even if they know nothing about spiritual practices and paths. Wakefulness is a more expansive and harmonious state of being that can be cultivated or that can arise accidentally. It may also be a process we are undergoing collectively. Drawing on his years of research as a psychologist and on his own experiences, Taylor provides what is perhaps the clearest psychological study of the state of wakefulness ever published. Above all, he reminds us that it is our most natural state — accessible to us all, anytime, anyplace.

**Asylums** - Erving Goffman 2017-09-08

A total institution is defined by Goffman as a place of residence and work where a large number of like-situated, individuals, cut off from the wider society for an appreciable period of time, together lead an enclosed, formally administered round of life. Prisons serve as a clear example, providing we appreciate that what is prison-like about prisons is found in institutions whose members have broken no laws. This volume deals with total institutions in general and, mental hospitals, in particular. The main focus is, on the world of the inmate, not the world of the staff. A chief concern is to develop a sociological version of the structure of the self. Each of the essays in this book were intended to focus on the same issue--the inmate's situation in

an institutional context. Each chapter approaches the central issue from a different vantage point, each introduction drawing upon a different source in sociology and having little direct relation to the other chapters. This method of presenting material may be irksome, but it allows the reader to pursue the main theme of each paper analytically and comparatively past the point that would be allowable in chapters of an integrated book. If sociological concepts are to be treated with affection, each must be traced back to where it best applies, followed from there wherever it seems to lead, and pressed to disclose the rest of its family.

*Same Soul, Many Bodies* - Brian Leslie Weiss 2004

The noted past-life therapist and author of *Many Lives, Many Masters* discusses his work with future life progression, drawing on dozens of case histories to explain how the choices that are made in one's present life impact the quality

of future lives and revealing the benefits of progression therapy as a healing tool for present-life conditions. 100,000 first printing. Eliminating Stress, Finding Inner Peace - Brian L. Weiss, M.D. 2020-09-01

Eliminating Stress, Finding Inner Peace is an important step on the healing journey. Stress kills—there's no doubt. It eats away at you, affecting your level of happiness, as well as your stomach lining. It raises your blood pressure and directly harms your cardiovascular system. It depresses your immune system and allows chronic illnesses to overwhelm you—causing pain, disability, and even death. Basically, stress prevents you from experiencing life's many pleasures. Stress is a mental state that can cause severe negative emotional and physical consequences. It can be entirely eliminated, or at least greatly lessened, by adjusting our understanding and attitudes, and by learning simple, yet very effective, relaxation techniques. This book, with its accompanying stress-

reduction audio download, will help you deeply relax. It will enable you to release the acute and chronic tension you constantly carry in your body and mind. It can also help you remove the blocks and obstacles to your inner peace and contentment, and prevent stress-related illness and disease. To heal yourself in this manner is an act of self-love, because you're taking the time and expending the energy to work on yourself physically and emotionally, thereby bringing more joy into your life. You'll find that regular practice with the audio will produce profound, long-lasting results.

Collect the Wworld. the Artist As Archivist in the Internet Age - Domenico Quaranta 2011-10  
The last decade has seen an incredible growth in the production and distribution of images and other cultural artefacts. The internet is the place where all these cultural products are stored, classified, voted, collected and trashed. What is the impact of this process on art making and on the artist? between amateur practices and codified languages? How does art respond to the society of information? This is a book about endless archives, image collections, bees plundering from flower to flower and hunters crawling through the online wilderness.
