Spirituality and Childbirth - Susan Crowther 2017-09-13

Highlighting aspects of birth often taken for granted, ignored or left silenced, this book questions the art and meaning of childbirth. Addressing spirituality in and around the start of life from a variety of

thought-provoking perspectives, it examines the apparent paradox of impersonal biomedical-technocratic systems operating alongside the meaningful experiences encountered by those involved. Themes covered include: Notions of holism and spirituality, culture, religion and spirituality Childbirth significance at societal level Spiritual care in maternity care provision Birth environment, mood, space and place Spiritual experience of all those involved, including health professionals Spiritual experience when birth is complex and challenging When birth and death are juxtaposed. Although there is considerable literature on spirituality at the end of life, this is the only book that draws together a global and multidisciplinary selection of academic researchers and practitioners to reflect on spirituality at the start of life. Each chapter explores the relevant theoretical background and makes links to practice, using case studies from research and practice. The chapters conclude by discussing: how spiritual care is, and should be, provided in this context; what practice approaches are beneficial; cross-cultural perspectives; and future directions for research. It is an important read for all those interested in childbirth, maternity care, social science perspectives on health and illness, and spirituality.

The Love of a Lycan - jikanyotomare 2020-12-18

Download Webnovel and chereads to read The Love of a Lycan A year ago Raine was discharged from mental institution and had to live in the orphanage. It wasn't the best place. At least not for someone like her. Until one faithful night she met him. *** He stopped the car. The clutched on the blanket tightened as Raine wonder if she did something

wrong. She could feel it when Torak reached out his hand at her. Will he hit me? Raine shivered with that thought. Torak pulled back the hoodie off her head and gently tucked her hair behind her ear. "Don't." He said firmly, "I want to see you, don't hide yourself.." ***** "The spirit of the guardian angel will breathe new life into human child. Three guardian angels will be born into terrestrial world once again and the three of you will be their protectors." "Protectors!?" Jedrek snapped. In the end, he stopped walking and turned his back to look at the moon goddess from far distance away, his eyes glistening red with anger. His wolf was livid. "Why do you think we will help?" Kace asked while narrowing his black obsidian eyes, his wolf took control of him. He was the youngest among the three and the less temperamental among them. The three of them were cursed by Selene because of their ferocious action to gain supreme power and authority. The moon goddess didn't bless them with a mate as a punishment of their atrocious way and forced them to involve in this deadly war with the demons. "You will turn us into a slave for those sickly creatures!?" Torak asked incredulously. "Aren't you afraid that we will snap them into two?" The guardian angel was so fragile and they as lycanthropes didn't appreciate the weaknesses. "No, you will not." Selene said patiently. "You will not be their slave nor hurt them, you will cherish them in every way possible." Jedrek laughed menacingly upon hearing this, they didn't care about the resurrected of the beast, once they crossed their territory, with or without the guardian angel he would tear their body apart. "I will be the last person they will see, once I find them." He was referring to both the guardian angel and the demon. But, the next voice from Selene was laced with mirth when she spoke. "You will not hurt your mate."

Medicinal Orchids of Asia - Eng Soon Teoh 2016-08-30

This unique book brings together a wealth of data on the botanical, ethno-medicinal and pharmacological aspects of over 500 species of Asian medicinal orchids. It starts off by explaining the role and limitations of complimentary and herbal medicines, and how traditional Asian medicine differs from Western, "scientific" medicine. The different Asian medical traditions are described, as well as their modes of preparing herbal remedies. The core of the book presents individual medicinal orchid species arranged by genera. Each species is identified by its official botanical name, synonyms, and local names. Its distribution, habitat and flowering season, uses and pharmacology are described. An overview sums up the research findings on all species within each genus. Clinical observations are discussed whenever available, and possible therapeutic applications are highlighted. The book closes with chapters on the conservation of medicinal orchids and on the role of randomized clinical trials.

The Decline of Marriage in Namibia - Julia Pauli 2019-02-28

In Southern Africa, marriage used to be widespread and common. However, over the past decades marriage rates have declined significantly. Julia Pauli explores the meaning of marriage when only few marry. Although marriage rates have dropped sharply, the value of weddings and marriages has not. To marry has become an indicator of upper-class status that less affluent people aspire to. Using the appropriation of marriage by a rural Namibian elite as a case study, the

book tells the entwined stories of class formation and marriage decline in post-apartheid Namibia.

The Rosedale Diet - Ron Rosedale, M.D. 2009-10-13

Finally—the ultimate diet for fast, safe weight loss, lifelong health, and longer life, based on more than twenty years of research and the latest findings on appetite and weight. Metabolic specialist Ron Rosedale, M.D., has designed the Rosedale Diet to regulate the powerful hormone leptin, which controls appetite and weight loss by telling the brain when to eat, how much to eat—and when to stop. New research shows that leptin may be one of the body's most important hunger control mechanisms. Control leptin, and you control your weight. Most people's leptin levels are out of control, causing them to overeat and to store fat rather than burn it. The only way to flip the "hunger switch" back to normal is through a diet high in healthy fats and low in carbohydrates, saturated fat, and trans-fatty acids often found in processed food—plus just 15 minutes of daily exercise. Dr. Rosedale's 21-day diet plan is simple: Just select from the many foods on his "A" list, including "healthy-fat" foods such as avocados, nuts, olives, lobster, crab, shrimp, goat cheese, Cornish game hen, venison, and more. Then gradually add foods from the "B" list, such as steak, lamb chops, fruits, beans, and so on. A 28-day menu plan and more than 100 recipes, such as Dilled Salmon and Fresh Asparagus, Gingery Chicken Soup, Lasagna, Black Bean Wrap, Raspberry Mousse Cake, and French Silk Pie, make eating the Rosedale way deliciously easy. Weight loss is just the beginning. The Rosedale Diet will make you feel satisfied, reduce cravings, and put you in control of your "sweet tooth." It can even help eliminate or reduce heart disease, hypertension, diabetes, and other conditions associated with "natural" aging, as many of Dr. Rosedale's patients can attest. You'll find inspiring stories from them—and the power to control your weight and improve your health—in this groundbreaking book.

Goddess Power - Isabella Price 2017-10-28

"A fascinating 'herstory' of the Divine Feminine, rich in heart, depth and wisdom . . . an empowering message of hope and inspiration."

—Katherine Woodward Thomas, New York Times–bestselling author
At the dawn of religion, God was a Woman. The Divine Feminine is known by innumerable names and symbol-rich manifestations across the world's

cultures. Throughout the ages the Goddess has been honored and worshiped as the Virgin Mary, Isis, Inanna, Asherah, Diana, Kuan Yin, Kali, Oshun, Athena, Pele, Sarasvati, Demeter, and White Buffalo Calf Woman, to mention just a few. Goddess Power takes you on a fascinating and, at times, surprising journey into the enduring essence of the Divine Feminine. Inside this book you will learn:

- How the Goddess path offers an empowering message and inspiration
- The importance of re-establishing a healthy balance and integration of both the "masculine" and the "feminine" archetypes
- That the notion of God as archetypal "Sky-Father" is fairly recent in Western culture
- Why the wisdom of the Goddess/Sacred Feminine has been ignored, distorted, and oppressed for centuries
- How archetypes, mythic narratives, and qualities of Goddesses are alive within you and how they reveal intimate truths about yourself and others
- How Goddesses can serve as empowering guides in your personal and professional life
- Why especially black Goddesses/dark-skinned Mothers (e.g., Kali or Black Madonna) are a powerful symbol and catalyst for change in our times, both individually and collectively
- And much, much more! "An empowering message and inspiration that can be drawn from the Goddess so humanity might evolve toward higher awareness." —Karen Tate, author of *Walking an Ancient Path and Goddess 2.0*

Falling in Love with the King of Beasts - AimeeLynn 2021-07-27

Elia is a poor university student until the night she's taken to the world of the Anima—ruled by humans whose ancient hearts pulse with the blood of animals. There she's forced into a battle to the death. But when Elia survives, and refuses to kill her final opponent, the King must either kill Elia himself, or take her as his mate. Reth, the brutal King of the Beasts with the blood of lions, shocks everyone when he chooses the weak, human Elia to become his Queen. He promises her every comfort of his wealth and position—but he is clear: She will not warm his bed. He chose her to defeat those that were trying to corner him into blending his Leonine line with the Wolves. Elia needs the help of the Anima to become stronger and rule them well. But the vengeful Wolves see only a weak human that brought them shame. As Elia and Reth grow closer, the wolves are determined to destroy her. Will Reth and Elia admit their feelings for each in time to fight for the Kingdom—and their lives—against the villainous wolf-tribe? Or will the wolves kill Elia and steal the throne? [Mature content - no sexual violence] ***** He stalked towards her, chin low so the shadow cast by his hard jaw cut across the thick fur collar of his vest. His hair had fallen over his eyes in the scuffle, so he peered at her through it like a lion in the grass. With each step, his graceful, rolling gait reminded her of a predator stalking its prey. Despite the forest floor littered in twigs and leaves, he didn't make a sound. "Wh-who are you?" Elia stammered, backing away, her hands up. He met her step for step until she came up hard against the tree behind her—and didn't stop until he loomed over her, so broad his shoulders and chest made a wall in front of her. She could feel the heat rising off his skin in the cool, night air. "I am the Leonine King." His voice was a dark, husky gravel. Behind him a chorus of wheezes, howls, and chirps of agreement rose from the people watching. "And you are?" "Elia," she breathed. "Elia," he growled, leaning in closer, bringing with him the scent of pine and rain and the musk of something distinctly male. "I am Reth." He said the name with a strange, guttural roll in his throat. "I am King of Beasts. I am Clan Leader, and I am Alpha of WildWood." Several

snarls rose from the crowds behind him then, but he ignored them. Elia swallowed as he leaned in until the scruff on his jaw rasped her cheek. "I am the King," he said, "And you will be my mate." The forest behind him erupted. (Cover Art used by permission. Illustrated by Aenaluck--see more gorgeous art and support them on www.patreon.com/aenaluck)

Not quite human and not quite wolf. She thought she would be able to live her life how she wanted when she had turned eighteen. Go to college, make some friends, have some fun. But what is she to do when the dangerously sexy Alpha literally falls right into her lap? "I am not human, and I am not a wolf. I don't belong anywhere..." "...we both know that no one is going to mate with me, and even if they did, they would just reject me anyway." What is the sexy, brooding Alpha going to do? The elders are making him hold these ridiculous parties to search for a mate. He doesn't want a mate, but he knows he needs a mate to finish the Alpha Circle. Without a mate, a Luna for the pack, his people would suffer. And what is he going to do when he

stumbles across the girl that fate has chosen for him and he finds out she has no wolf? "This cannot be!" I roared. "There is no way that I can mate with a girl that does not even have a wolf. She will be too weak. She will be inferior. She will not be strong enough to be a Luna." "I simply could not accept her as my mate. Not fully. It wasn't safe for her. She would get herself killed. And she would bring my pack down with her." When these two meet, sparks will surely fly. But will it be from passion, or their constant fighting? Neither of them wanted a mate. Neither of them wants the mate that fate chose for them. And neither of them can make that mate bond go away. What are they going to do now that they're literally stuck with each other?

Growing Up Abolitionist - Harriet Hyman Alonso 2002

William Lloyd Garrison was one of the major abolitionist leaders, well known for his operation of the newspaper *The Liberator*. When he died in 1879, his five children carried on his and his wife's values in the civil rights, peace, and woman suffrage movements, argues Alonso (history, City U. of New York). She draws a portrait of the activities of the five, including editing *The Nation*, being involved in the women's colleges Barnard and Radcliffe, campaigning for the single tax, working in antiwar movements, and working on ensuring their father's place in history. Equal attention is paid to the youth and education of the children. Annotation copyrighted by Book News, Inc., Portland, OR
