## **Hypnotherapy Scripts to Promote Children's Wellbeing** - Jacki Pritchard 2020

Hypnotherapy Scripts to Promote Children's Wellbeing is a collection of tried-and-tested scripts that will aid hypnotherapists in developing and implementing treatment plans for promoting the wellbeing of children. The

book offers a variety of approaches solely focussed on children (aged 5 to 17 years), including: Ericksonian approaches utilising metaphors and story-telling; solution-focussed approaches; benefits approaches; parts therapy; Gestalt therapy and regression therapy. The scripts are intended to help deal with issues

relevant to children such as lack of confidence; low self-esteem or self-worth; negative image; lack of motivation; anxiety (general, social and exam); learning and recalling information; fears; phobias; habits; sleep issues; bullying; abuse; bereavement and loss. Serving as a unique resource of techniques and compiled from the author's years of personal experience, this book is beneficial for students, newly qualified and experienced hypnotherapists alike.

**Expert Hypnosis Scripts For the Professional Hypnotherapist** - Richard Nongard 2017-04-12

This book is your guide to mastering hypnotic language, direct and indirect suggestion and creating the structure for success in clinical hypnotherapy. This book contains powerful hypnotic inductions scripts, examples of complete hypnosis sessions (some from transcripts of actual client sessions), and by reading these scripts, you will be inspired to incorporate these ideas into your next hypnosis

session. Scripts are included for medical conditions like hand tremors, and even resources for creating an abundant future. These scripts are practical, effective, and based on what we know really works.

*Sleepy Bedtime Tales: A Revolutionary Way to Get Your Child to Sleep At Night* - Dan Jones 2017-01-13

This book offers a revolutionary way to tell bedtime stories helping to make bedtime a time of peace, calm and sleep for your child. Based on psychological principles and techniques, these stories will help to guide your child comfortably asleep. They are to be read to your child at bedtime, rather than with or by your child.

These bedtime stories are written to be read to 4-7 year old's (they can be read to children as young as two) as they rest in bed with their eyes shut listening along. Each of the stories takes about 10-15 minutes to read. The sleepy bedtime story approach has been taught to many parents and used by professionals working in care homes

to help children fall asleep at night. This approach can be used with any story, but this is the first time that stories have been written specifically to optimise the effectiveness of the techniques. If you are after a scientific, calming, relaxing approach to getting your child to sleep, then this is definitely the bedtime stories book for you.

**Look Into My Eyes: Asperger's, Hypnosis and Me** - Dan Jones 2017-04-27

Look Into My Eyes is an autobiography of one man's life through the lens of Asperger's syndrome - a high-functioning form of autism spectrum disorder. This second edition includes a chapter written by the authors wife about what it is like to be in a relationship with an someone with Asperger's Syndrome, she shares both the positive aspects, and the challenges. As a small child Dan Jones knew he was different to other children, they would want to play football and interact with each other, he would want to crawl around searching for snails keeping himself to himself. Dan found his own coping strategies to manage his anxieties, discovering meditation as an eight year old, and hypnosis as a teenager. This book offers a rare insight into what it is like to live with Asperger's. Dan has a unique

perspective; not only does he have Asperger's, but a large part of his professional life has been spent working with people with autism spectrum disorder and their carers.

Quantum Hypnosis Scripts - Jo Ana Starr

2015-03-30

Quantum Hypnosis Scripts is a 222 page book of 26 full length, professional Hypnosis scripts, ideal for either professional use or for Self Hypnosis. As the title suggests, this book focuses exclusively on Hypnosis scripts and instructions for their best use. In addition to the 20 individual, push-button Hypnosis scripts, Quantum Hypnosis Scripts provides 2 Master Hypnosis Inductions, which are essential to the use of the provided Hypnosis scripts, if you don't already have a favorite Hypnosis induction. Also included are 2 Hypnosis Series Programs of 3 Hypnosis scripts each, for Weight Loss and Stress Reduction. Since these applications are ideally treated with a series of progressive, sequential sessions which are frequently hard to

find, I think that readers will be pleased with these session scripts. Readers of Quantum Hypnosis Scripts also receive a Bonus FREE full-length audio Hypnosis session, valued at \$59, available at the book's website. Detailed information on how to access your free Hypnosis session is available in the last chapter of this book. Incidentally, if you are a user of the Instant Self Hypnosis method or a reader of Eyes Open Self Hypnosis, reading these complete and suggestion-rich scripts will work well for you. For readers of Quantum Self Hypnosis and students or graduates of NEIH, these are new scripts for you, although the now familiar script framework (the beach scene) is used in all the included scripts. There are also a few essential, duplicate Hypnosis applications featured in this book complete with new suggestions and thus different scripts from those offered in Quantum Self Hypnosis. The general approach for all of the included scripts is ego-strengthening and nurturing. These scripts are very helpful for

professional use as well as for Self-Hypnotists. Also important, there are no scripts in this book that utilize negative programming or aversion therapy. These scripts are all positive, present tense, and affirmative in nature, thus very effective. This book was written as a stand alone text as well as a companion book to Quantum Self Hypnosis, so readers of that book will find many new and interesting scripts to use in this book. We decided at the 11th hour to include one of our well-known Stop Smoking Hypnosis scripts because it seemed wrong not to include a script for one of the most popular Hypnosis applications in this first volume of Quantum Hypnosis Scripts. Since this script is not brand new or unique, it is being included as a Bonus script and not being counted as one of the advertised 24 Hypnosis scripts included in this book. While the script isn't unique, it is very effective, so for readers looking for a good Stop Smoking script, enjoy your bonus script! This book is considered a cornerstone work by many

practicing Hypnotherapy professionals. If you are looking for quality, time tested Hypnotherapy scripts, this is the book for you! *Advanced Ericksonian Hypnotherapy Scripts: Expanded Edition* - Dan Jones 2017-01-13 This book of more than 100 Hypnotherapy scripts is based on over 20 years of experience. This book is expanded on the first edition to include more hypnotic inductions & 'quit smoking scripts & strategies' and additional description about using the scripts. This isn't just another hypnosis scripts book. It also gives the reader ideas and suggestions on how to run a Hypnotherapy session from gathering information to carrying out the hypnotic work, ending a session and setting tasks. It also introduces Ericksonian Hypnotic language patterns and script structure so that the reader can have a deeper understanding of what is being done in the scripts and why they are written the way they are. This all round package makes this book a valuable resource for anyone

wanting to learn more about Ericksonian hypnosis. "A must for all hypnosis and NLP students" Hypnotherapists in training can read and analyse the Hypnotherapy scripts & study the language, structure & multi-level communication used.

### **Creating Trance and Hypnosis Scripts -**

Gemma Bailey 2009

Creating Trance and Hypnosis Scripts contains tried and tested hypnosis scripts for professional or trainee hypnotherapist's who are looking to help clients solve problems and ailments, from the more common quit smoking session to the less familiar candida. The collection of scripts contained in this book have been collated over many years and have been written by Gemma Bailey who is a qualified practicing hypnotherapist. Gemma has designed each script to include several hypnotic patterns (including language, voice tone, double binds etc) to help aid the trance experience. Changes in the hypnotists voice tonality have been

marked out by altering the font of the text. The section called writing hypnosis scripts gives details about the hypnotic patterns and language used by professional hypnotherapists and NLP Master practitioners. This section provides tasks for the reader, encouraging them to use and identify hypnotic language so that they can create their own hypnotic scripts.

First published in 1994. Routledge is an imprint of Taylor & Francis, an informa company.

**Handbook of Hypnotic Suggestions and Metaphors** - D. Corydon Hammond 1990-06-17

Designed as a practical desktop reference, this official publication of the American Society of Clinical Hypnosis is the largest collection of hypnotic suggestions and metaphors ever compiled. It provides a look at what experienced clinicians actually say to their patients during hypnotic work. A book to be savored and referred to time and again, this handbook will become a dog-eared resource for the clinician using hypnosis.

**Inductions and Deepeners: Styles and Approaches for Effective Hypnosis** - Lmft Cch Richard K. Nongard 2007-05

"Inductions and Deepeners: Styles and Approaches for Effective Hypnosis" by Richard K. Nongard provides both the new and experienced hypnotist with a reference book of actual hypnotic session scripts in a variety of styles, for work with both adults and children. These hypnosis scripts - from creative

adaptations of Milton Erickson's Levitation, Dave Elman's Count with Amnesia, and Zarren's Marble induction approaches, to Nongard's own unique "Eyes-Open Backwards Hypnosis" "superconscious" strategy - offer useful demonstrations and detailed explanations for real success. Learn to combine approaches for enhanced trance depth; understand hypnotic language patterns; increase your confidence and abilities; zoom past the Critical Factor into the Subconscious with Rapid Touch inductions; and experience suggestion compliance with even the most fidgety child. Foreword by Michael Johns. HypnosisGurus.com and LearnClinicalHypnosis.com.

**Advanced Ericksonian Hypnotherapy Scripts** - Dan Jones 2014-12-29

The first edition of 'Advanced Ericksonian Hypnotherapy Scripts' has remained a bestseller since its release in 2011. It remains essential reading on many top hypnotherapy and NLP training courses as well as recommended

reading for all those interested in self-hypnosis and creating their own hypnosis audio tracks (these hypnosis scripts can be used to make commercial audio tracks as long as credit is given to the author and the book). This new and expanded 2nd edition of 'Advanced Ericksonian Hypnotherapy Scripts' contains additional hypnotic inductions and additional therapeutic scripts. Many chapters have also been expanded with new helpful content to help you be as effective as possible and to help you to understand the scripts, the hypnotic language and techniques being used, and an overview of how to do hypnotherapy. This book of more than 100 Hypnotherapy scripts is based on over 20 years of experience that the author, one of the UK's leading hypnotherapists and hypnotherapy trainers, has had working with a wide range of clients and training other professionals in hypnotherapy, psychotherapy and the healing arts. There are scripts to help people stop smoking, lose weight, lift depression, calm

anxiety, soothe pain, increase performance enhancement, tackle insomnia, and many more... This isn't just another hypnosis scripts book, the author hopes that readers will use these scripts as a starting point, rather than just reciting scripts verbatim. This book shares ideas and suggestions on how to run hypnotherapy sessions from gathering information to carrying out the hypnotic work, ending a session and setting tasks. It also introduces Ericksonian hypnotic language patterns and script structure so that the reader can have a deeper understanding of what is being done in the scripts and why they are written the way they are. This all round package makes this book a valuable resource for anyone wanting to learn more about Ericksonian hypnosis. Hypnotherapists in training can also read and analyse the hypnotherapy scripts and study the language, structure and multi-level communication used to further their skill and knowledge. The ultimate goal is to help

hypnotherapists move beyond scripts to regularly performing script-free hypnotherapy sessions that occur in response to the client in front of the therapist. This hypnotherapy scripts book can help the hypnotherapist develop ideas from the scripts that can come out spontaneously once mastered. The author, Dan Jones, has had over 50,000 books purchased, over 1.5 million views of his self-hypnosis and self-help videos, and over 500,000 of his self-hypnosis and self-help mp3's downloaded. Jones has been published in magazines worldwide and appeared on UK TV and radio. He has been described in the British press as 'Remarkable', with 'Expert Insight', and 'Personal Development Guru...the UK's Leading Personal Development Coach'. Jones has also carried out extensive research into the effectiveness of using a Humanistic Solution Focused Approach with families to reduce youth crime and anti-social behaviour and has been published in the peer-reviewed journal 'Human Givens'.

**Hypnotic Scripts That Work** - John Cerbone  
2007-01-01

This work represents years of work in the field of clinical hypnosis. As a trained Hypnotic Professional, you will notice, the use of deepening techniques, truisms and confusion method techniques within these suggestion scripts to further deepen the hypnotic state while the client (patient) is hypnotized to increase impact and long-term effectiveness. These scripts and techniques are written in the style and language of this profession. All of these original suggestions, techniques and methods contained herein have proven effective and beneficial for the majority of clients (patients) utilizing them, quite often achieving beneficial results in one or just a few sessions. For many Hypnotists utilizing this work are finding clients (patients) achieving breakthroughs quite rapidly. **Hypnosis for Inner Conflict resolution** - Roy Hunter 2005-04-07

Increasing numbers of therapists around the

world are discovering the benefits of parts therapy and its variations to help clients get past personal barriers. Variations of parts therapy such as ego state therapy or voice dialogue are already used by many psychotherapists and psychologists who also use hypnosis in their practices. This book will provide therapists with the added knowledge of parts therapy.

Mind Changing Short Stories and Metaphors -

John Smale 2008-04-01

When used in NLP and hypnotherapy, metaphors have long given insights into the difficulties of people and have shown the ways in which we can escape or improve. If the stories strike a chord with you, then they also show a way out. These short stories, metaphors and interactive scripts will help you to eliminate negative thoughts and achieve your dreams by allowing you to relax while reading stories that can bring about positive change. Some of the stories will relax you, others will make you think. Some allow you to enter a light feeling of hypnosis.

Hypnotherapy and hypnosis have been major users of metaphors to show different approaches to problems and their resolution. Milton Erickson, the grandfather of modern hypnotherapy used metaphors to great effect in resolving problems with his patients. Self hypnosis allows you to enter the areas of your mind where you can become imaginative and optimistic. You can create your dreams and the ways in which you will achieve them. Based on a huge amount of therapeutic work, these short stories, metaphors and interactive scripts can help you to bring about positive changes, eliminate negative thoughts and achieve your dreams.

Advanced Hypnotherapy - John G. Watkins

2012-04-17

This book focuses on tested hypnoanalytic techniques, with step-by-step procedures for integrating hypnosis into psychoanalytic processes. In its examination of the latest thinking, research, and techniques, the book

discusses historical origins of hypnosis as well as how to apply it to current events, such as using hypnosis in the treatment of trauma with soldiers coming out of the war in Iraq. The text shows how hypnosis can be combined with psychoanalysis to make it possible to understand the subjective world of clients. Its accessible nature, rich detail, and significant updates make the book an invaluable resource for the professional who wishes to incorporate hypnosis into his or her practice. With the authors' extensive and impressive knowledge, careful updates, and comprehensive coverage of the proper and appropriate techniques to use, this volume is an indispensable addition to the field.

*Hypno-Scripts* - Mary Deal 2021-12-24

Unleash the power of your mind and discover your potential. Do you wish you had the power to become all that you can be? All good-intentioned programming works best when you reach a deeper state of mind. The secret is in accessing those states through easy life-changing

techniques. A thin window of consciousness differentiates two states of the mind - self-hypnosis and meditation - and this book will show their similarities, and define each condition and accessibility. If you're curious enough to at least peruse this book, then the ability to learn these techniques is already a part of your consciousness, and will soon to be recognized. Lucky you! Your subconscious is prompting you to investigate. It is saying that you are capable of deeper states of mind. Many have tried to focus to learn either self-hypnosis or meditation and failed. Applied concentration and knowing what to expect once entranced may be what was missing. The instructions in this book are meant for those wishing to learn and use the techniques of self-hypnosis and/or meditation for self-improvement. Easy, yet powerful scripts are provided to produce desired changes. You can change your life today.

Hypnotherapy - Dan Jones 2017-01-13

'Hypnotherapy' is the definitive text if you want

to learn all you need to know about hypnotherapy, from how to do hypnosis, how to work therapeutically, how to set up and run your own practice, and how to generate alternative income streams. Hypnotherapy covers: How problems are formed, What trance is, The SET model, How to do hypnosis, What to do before and after you have hypnotised clients, Emotional needs, Innate skills and abilities, Observation skills, The RIGAAR model, Self-hypnosis, Ericksonian hypnosis, Ideo-dynamic healing, Strategies and treatment ideas for many problems hypnotherapists work with, Setting up in practice, and Alternative income streams to make additional income. There are also two annotated session transcripts so that you can see all that you will have learnt being applied and follow along to see how it all works in live sessions (One session is an improving a clients artistic abilities, the other is helping a client that feels they can't say 'no' to people)

**Hypnotism** - Albert Moll 1892

**The Art of Hypnotherapy** - C. Roy Hunter

2010-05-13

Now in it's fourth edition, this classic text presents a comprehensive overview of client-centred hypnosis based on the teachings of Charles Tebbetts. Since the person undergoing hypnosis is the one with the power to change him/herself, the hypnotherapist acts as the facilitator, tailoring the hypnosis session to the client. All of the techniques found in The Art of Hypnotherapy, including regression therapy and parts theory, centre on this concept. The Art of Hypnotherapy shows students how all hypnotic techniques revolve around four main therapeutic objectives: Suggestion and Imagery; Discover the Cause; Release; and Subconscious Relearning. New features in this edition include an arrangement of techniques from simple to complex, so that those using hypnosis in a limited way easily learn the applicable technique; a chapter on the common application of hypnotherapy now includes new sections on

anger, impotence, stuttering, and tinnitus, and the chapters on anchoring and triggers have been updated, with sections on how to help a client establish a safe place, and why this is important.

### **Hypnosis and Hypnotherapy Patter Scripts and Techniques** - 2004-01-01

This is NOT just another book of scripts. This set of hypnotic inductions and therapeutic scripts are Calvin Banyan's favorites. He also gives you insider techniques that no hypnotherapy practice should be without. Plus, you will get new original scripts that you will not get anywhere else. AND, you will get the "Must Have" Universal Script that works for almost any issue that your client brings into your office! Look inside and see what you get. This book is designed for the working professional. In the first half of the book, every technique and script is explained in detail. Each script has embedded instructions that lets you know exactly how to use it properly. Then, in the second half of the

book, you get the most important scripts in larger print and double spaced so that you can easily remove it and use it in your sessions. These "working" scripts do not have the added instructions so that you can be sure that you are reading just what needs to be read to each client for each issue. You will find that you use these patter scripts again and again. And, you will love the universal script that will work for most client's issues. You have to use it to believe it!

**My Voice Will Go with You** - Milton H. Erickson 1991

Presents over one hundred "teaching tales" of the hypnotherapist Milton Erickson, which he uses to influence his patients on conscious and unconscious levels, and discusses his approaches to hypnosis and psychotherapy  
Scripts & Strategies in Hypnotherapy - Roger P. Allen 2004-02-06

Scripts and Strategies in Hypnotherapy Volumes 1 and 2 have been combined to create the single most comprehensive source of scripts and

strategies that can be used by hypnotherapists of all levels of experience to build a successful framework for any therapy session. It covers inductions, deepeners and actual scripts for a wide range of problems from nail-biting to insomnia, sports performance to past life recall, pain management to resolving sexual problems. There is a particularly comprehensive section on smoking cessation. All scripts can be used as they stand or adapted for specific situations. "Provides an imaginative source of scripts covering the most commonly met cases. For the newly qualified therapist it is a useful addition and for the more experienced it is a source of inspiration." - European Journal of Clinical Hypnosis

### **Hypnotically Enhanced Treatment for**

**Addictions** - Joseph Tramontana 2009-09-01

This book offers new strategies, techniques, and scripts as well as reviewing traditional methods of treating addictions. The five key addictions addressed are: alcohol abuse and dependency;

drug abuse and addiction; gambling compulsions/obsessions and addiction; tobacco addiction (including cigars, pipes and chew); food addiction/compulsions. Many of the techniques and strategies incorporate a variety of therapeutic modalities, including: cognitive behavioral techniques, reframing and other NLP techniques, systematic desensitization, covert sensitization, 12-step-programs, guided imagery and meditation, and more. The techniques described can be employed both in and out of trance.

**Hypnotherapy Scripts** - Ronald A. Havens

2013-05-13

Hypnotherapy Scripts, 2nd Edition is a straightforward, practical guide for doing Ericksonian hypnotherapy. This book not only explains the rationale for every step in the hypnotherapeutic process, it also contains sample scripts for each step. This edition of Hypnotherapy Scripts guides professionals through the construction of their own

hypnotherapy induction and suggestion scripts. Verbatim sample transcripts of various induction and therapeutic suggestion procedures with detailed guidelines for creating one's own hypnotherapeutic inductions and metaphors are included. Recent research and writings on the role of unconscious processes, wellness, and positive psychology have been added to this edition. Also included is a detailed review of the diagnostic trance process, a therapeutic procedure unique to this text.

**Magic Words, the Sourcebook of Hypnosis Patter and Scripts and How to Overcome Hypnotic Difficulties** - Richard Nongard

2011-07

Have you ever fumbled for the right words in a difficult or unique situation during hypnotherapy? Wouldn't it be priceless to have a resource that provided you with scripts and patter to solve many problems and unexpected events during hypnosis? Knowing the magic words to use will help you turn any difficulty into

an opportunity to really help clients, rather than give up in despair and these patter scripts will make you a better hypnotist. This book goes beyond just a few scripts of patter. This book will actually teach you how to structure hypnosis suggestions, compounding them and making them effective. This is not a script book that gives you start to finish "scriptnosis" scripts to read, but rather teaches you the useful patter to incorporate into your own hypnotherapy sessions; actually helping you to create your own scripts and suggestions.

**Essentials of Clinical Hypnosis** - Steven J. Lynn 2006

"This book is essentially clinical in nature. But it is a clinical book with a research base. The clinical strategies and techniques that are presented are ones that the authors have used in their practice and that they have taught their graduate students to use. They are procedures with an evidential base. Many of the specific techniques they describe have been validated in

clinical trials and outcome studies, and their approach to most strategic issues has been shaped by their understanding of the research literature in hypnosis, psychotherapy, and psychopathology. If there is a fundamental difference between this book and the many other guides that have been published on clinical applications of hypnosis, it is the degree to which the principles and practices the authors describe are evidence-based. Hence, the subtitle of this book. The authors aim to bring their enthusiasm for integrating hypnosis with empirically supported methods to a wide readership and to move hypnosis more securely into the mainstream of established clinical practice." **Spiritual Hypnotherapy Scripts** - Holly S. Holmes-meredith 2014-07-25

Spiritual Hypnotherapy Scripts provides access to the quantum field of consciousness, the spiritual realm from which all healing flows.

Learn how spiritual hypnotherapy and working directly with the client's higher Self can deepen and expand the healing process. Dr. Holmes-Meredith presents her approach to teaching and working with hypnotherapy with ten Taoist precepts taught through the ancient Taoist text the Tao Te Ching. Also included are interviews with six of her hypnotherapy graduates who share how working with a spiritual approach to hypnotherapy not only supports profound transformation in their clients, but also supports their own on-going healing and evolution of consciousness. These hypnotherapy scripts include empowering and open-ended language patterns and transformational approaches for presenting issues related to the body, mind and spirit. Unlike most published hypnosis scripts, these hypnotherapy scripts use therapeutic processes that allow the hypnotherapist and client to personalize the trance experience by following the client in an interactive way. The client will engage in a direct relationship with

his higher Self as an inner resource and guide throughout the trance experience. The fifty-two hypnotherapy scripts and a script for teaching the Emotional Freedom Technique (EFT) are proven approaches Dr. Holmes-Meredith teaches hypnotherapists at HCH Institute and uses in her private practice.
