Waterville - Lois M. Lynds 2007-09-14

"WATERVILLE" This story begins in a small town in Maine. It is about several families, all fictional, who live, work, or go to school there, and whom you may follow as they go through many of life's challenges, either succeeding or failing to conquer them. People I have known, and who have lived through these situations, as well as events I myself have experienced, all figure into the various scenarios presented here. It is a comfortable, relaxing read, which has been well received by my readers, ages 24 to 80.

Short, Shorter and Shorter Stories - Chuck McCann 2007-12

Chuck's first book, Short, Shorter and Shorter Stories was a finalist for book of the year, 2005. His second book, Osmis, the Cursed Egyptian Maiden, "is a trip through history that makes history fun to read." wrote one reader. Now, he has collected a second volume of short stories to

rival the first book. Again we have writing contest winners among the many stories as well as Benjamin, the hard luck juvenile. Human-interest tales, crime, war and fairy tales are set into a variety of numerical groups and time frames. There are stories for some of the commandments, for each season, for each month, the days of the week, even a few for a minute of time. As in the first book the stories are intended for the reader with a little time to kill in the doctor's waiting room, the airport, in the car waiting for the kids to finish practice or get out of school or just to spend some leisure time. Not to give plots away, but just imagine a complete story in four sentences, with a reversed ending you didn't expect. Or being so familiar with the characters in a story that you never thought it could end differently, but it does. Be prepared to enjoy the unexpected, convoluted endings to some stories, then, when you think you know what's coming...No. I'm not going to spoil it for you.

The Fantastic Flying Books of Mr. Morris Lessmore - William Joyce 2012-06-19

Stunningly brought to life by William Joyce, one of the preeminent creators in children's

literature, *The Fantastic Flying Books of Mr. Morris Lessmore* is a modern masterpiece, showing that in today's world of traditional books, eBooks, and apps, it's story that we truly celebrate—and this story, no matter how you tell it, begs to be read again and again.

Alligators, Freight Trains & Near Flying Disasters - Ray Madden 2009-02

Down through the years with my unusual amount of engine failures, over 18, most pilots with total engine failures usually died. Also, how many 16 year old teenagers have thumbed and hopped the freight trains to see the states from coast to coast and border to border, starting with a twenty dollar bill? Not only is this an interesting, fun read, but it has some simple rules that help to keep pilots in general aviation alive, even the best. Before retiring from the airline, I met a flight instructor that had instructed at the same airport in Monroeville years before. He was an excellent pilot. He told me he was ferrying airplanes all over the world, even single engine aircraft. I was amazed that he would fly over the ocean to reach some of the countries with a single engine airplane. The last thing I asked him, "What will you do if the engine quits?" He just laughed. A few years later his picture was on the front page of a Pittsburgh newspaper. He was flying near the Canary Islands and his engine quit. They never found him. So, if you have any pilot friends, you may want to give them a copy of this book if only to read the chapter on, "Staying Alive".

[Fly Me to the Moon](#) - Edward Belbruno
2007-02-11

When a leaf falls on a windy day, it drifts and tumbles, tossed every which way on the breeze. This is chaos in action. In *Fly Me to the Moon*, Edward Belbruno shows how to harness the same principle for low-fuel space travel--or, as he puts it, "surfing the gravitational field." Belbruno devised one of the most exciting concepts now being used in space flight, that of swinging through the cosmos on the subtle fluctuations of the planets' gravitational pulls. His idea was met with skepticism until 1991, when he used it to get a stray Japanese satellite back on course to the Moon. The successful rescue represented the first application of chaos

to space travel and ushered in an emerging new field. Part memoir, part scientific adventure story, *Fly Me to the Moon* gives a gripping insider's account of that mission and of Belbruno's personal struggles with the science establishment. Along the way, Belbruno introduces readers to recent breathtaking advances in American space exploration. He discusses ways to capture and redirect asteroids; presents new research on the origin of the Moon; weighs in on discoveries like 2003 UB313 (now named Eris), a dwarf planet detected in the far outer reaches of our solar system--and much more. Grounded in Belbruno's own rigorous theoretical research but written for a general audience, *Fly Me to the Moon* is for anybody who has ever felt moved by the spirit of discovery.

The year is 1972, and the beaches of Los Angeles are the center of the world. Motivated by a temporary escape from her past and a new taste for danger and belonging, Suzy falls into a drug-trafficking scheme that clashes perilously with the skyjacking epidemic of the day. [Fly Away](#) - Kristin Hannah 2013-04-23

The #1 New York Times bestselling author returns to the characters in *Firefly Lane* in her next blockbuster novel, *Fly Away*. Once, a long time ago, I walked down a night-darkened road called *Firefly Lane*, all alone, on the worst night of my life, and I found a kindred spirit. That was our beginning. More than thirty years ago. Tully and Kate. You and me against the world. Best friends forever. But stories end, don't they? You lose the people you love and you have to

find a way to go on. . . . Tully Hart has always been larger than life, a woman fueled by big dreams and driven by memories of a painful past. She thinks she can overcome anything until her best friend, Kate Ryan, dies. Tully tries to fulfill her deathbed promise to Kate---to be there for Kate's children---but Tully knows nothing about family or motherhood or taking care of people. Sixteen-year-old Marah Ryan is devastated by her mother's death. Her father, Johnny, strives to hold the family together, but even with his best efforts, Marah becomes unreachable in her grief. Nothing and no one seems to matter to her . . . until she falls in love with a young man who makes her smile again and leads her into his dangerous, shadowy world. Dorothy Hart---the woman who once called herself Cloud---is at the center of Tully's tragic past. She repeatedly abandoned her daughter, Tully, as a child, but now she comes back, drawn to her daughter's side at a time when Tully is most alone. At long last, Dorothy must face her darkest fear: Only by revealing the ugly secrets of her past can she hope to become the mother her daughter needs. A single, tragic choice and a middle-of-the-night phone call will bring these women together and set them on a poignant, powerful journey of redemption. Each has lost her way, and they will need each one another---and maybe a miracle---to transform their lives. An emotionally complex, heart-wrenching novel about love, motherhood, loss, and new beginnings, *Fly Away* reminds us that where there is life, there is hope, and where there is love, there is forgiveness. Told with her trademark powerful storytelling and illuminating prose, Kristin Hannah reveals why she is one of the most beloved writers of our day.
