Origin of the Anglo-Boer War Revealed (2nd Ed.) The Conspiracy of the 19th Century Unmasked - C. H. Thomas 2013-02

This book (hardcover) is part of the TREDITION CLASSICS. It contains classical literature works from over two thousand years. Most of these titles have been out of print and off the bookstore shelves for decades. The book series is intended to preserve the cultural legacy and to promote the timeless works of classical literature. Readers of a TREDITION CLASSICS book support the mission to save many of the amazing works of world literature from oblivion. With this series, tredition intends to make thousands of international literature classics available in printed format again - worldwide.

The Anglo-Boer War 1899-1902: 963 Days - Pieter G Cloete 2021-12-01

Since the start of the Anglo-Boer War today 120 years ago thousands of publications, written or typed reports and other creations have been produced to narrate the war events, express opinions on its origins, causes, course, results and legacy and on participants in the struggle. This process is ongoing, since the debate amongst both professional historians and interested amateurs on exactly what happened and why is still raging and new information on the war still crops up. The history of the Anglo-Boer War is truly a neverending discourse. As the author of a number of books on the war, I have consulted hundreds of both published and unpublished sources. Some were of limited value, but a small percentage of the published books were of such high value that they formed part of a small stack of books that found a permanent home on my desktop while I was in the writing process. Pieter Cloete's *The Anglo-Boer War - A Chronology*, both the original English version and the enlarged Afrikaans version published in 2010, was always part of that stack. It is to me a privilege to write a foreword for the user-friendly and meticulously researched book. It not only contains a wealth of information but a detailed source list and an extensive index. There are few, if any, more helpful reference books on the war and thus represents an essential resource to anyone with a more than superficial interest in the Anglo-Boer War. Protecting Minority Rights in African Countries - John M. Mbaku
2018-01-26

In this enlightening book, John Mukum Mbaku analyses the main challenges of constitutional design and the construction of governance institutions in Africa today. He argues that the central issues are: providing each country with a constitutional order that is capable of successfully managing sectarian conflict and enhancing peaceful coexistence; protecting the rights of citizens - including those of minorities; minimizing the monopolization of political space by the majority (to the detriment of minorities); and, effectively preventing government impunity. Mbaku offers a comprehensive analysis of various approaches to the management of diversity, and shows how these approaches can inform Africa's struggle to promote peace and good governance. He explores in depth the existence of dysfunctional and anachronistic laws and institutions inherited from the colonial state, and the process through which laws and institutions are formulated or constructed, adopted, and amended. A close look at the constitutional experiences of the American Republic provides important lessons for constitutional design and constitutionalism in Africa. Additionally, comparative politics and comparative constitutional law also provide important lessons for the management of diversity in African countries. Mbaku recommends state reconstruction through constitutional design as a way for each African country to provide itself with laws and institutions that reflect the realities of each country, including the necessary mechanisms and tools for the protection of the rights of minorities. From students and scholars to NGOs, lawyers and policymakers, this unique and judicious book is an essential tool for all those seeking to understand and improve governance and development in Africa.

Olive Schreiner and the Progress of Feminism - C. Burdett
2001-01-12

Olive Schreiner and the Progress of Feminism explores two key areas: first, the debates taking place in England during the last two decades of the nineteenth century about the position of women; and, second, the volatile events of the 1890s in South Africa, which culminated in war between the British Empire and the Boer republics in 1899. Through a detailed reading of the fictional and non-fictional writing of one

extraordinary woman, Olive Schreiner, it traces the complex relations between gender and empire in a modernizing world.

Kruger, Kommandos & Kak - Chris Ash 2014-09-19

The second Boer War is the most important war in South African history; indeed, without it, South Africa would likely have not existed. But it's also one of the least understood conflicts of the era. Over a century of Leftist bleating and insidious, self-serving revisionism, first by Afrikaner nationalists and then by the apartheid regime, has left the layman with a completely skewed view of the war. Incredibly, most people will tell you that the British attacked the Boers to steal their gold, and that when the clueless, red-jacketed Tommies advanced under orders of bumptious, incompetent British generals they were mowed down in their thousands. Others think of the conflict in terms of Britain against South Africa and many believe that the Boers actually won the war; the marginally more enlightened explain away the Boer defeat by claiming it took millions of British troops to beat them, or that it was only the genocide of the concentration camps which forced the plucky Boers to throw in the towel. It's all bosh. This book will take everything you thought you knew about the war and turn it on its head. From Kruger's expansionist dream of an Afrikaans empire from the Zambesi

to the Cape, to the murder and devastation wrought on Natal by his invading commandos, to the savage massacres of thousands of blacks committed by the gallant bitter-einders, the reader will have his eyes opened to the brutal realities of the conflict, and be forced to reassess previously held notions of the rights and wrongs of the war. Hard-hitting and uncomfortable reading for those who do not want their bubble of ignorance burst, Kruger, Kommandos & Kak exposes that side of the Boer War which the apartheid propaganda machine didn't want you to know about.

The Boer War - Denis Judd 2003

Traces the events and historical figures surrounding the Boer War,

discussing what the conflict revealed about the British military and British imperialism, challenging common conceptions about the agendas of both sides, and linking the war to the apartheid era.
