Figures in Black : Words, Signs, and the "Racial" Self - Henry Louis Gates Jr. Chairman of the Department of Afro-American Studies and W.E.B. DuBois Professor of the Humanities Harvard University 1987-07-16

"The originality, brilliance, and scope of the work is remarkable.... Gates will instruct, delight, and stimulate a broad range of readers, both those who are already well versed in Afro-American literature, and those who, after reading this book, will eagerly begin to be."--Barbara E. Johnson, Harvard University. "A critical enterprise of the first importance.... Gates promises to lead and to show the way in boldness of conception, in vigor of execution, and in vitality and pertinence of expression."--James Olney, Louisiana State University. Recently awarded Honorable Mention from the John Hope Franklin Publication Prize Committee of the American Studies Association, *Figures in Black* takes a provocative new look at how we analyze and define black literature. Henry Louis Gates, Jr., attacks the notion that the dominant mode of Afro-American literature is, or should be, a kind of social realism, evaluated primarily as a reflection of the "Black Experience." Instead, Gates insists that critics turn to the language of the text and bring to their work the close, methodical

analysis of language made possible by modern literary theory. But his goal in this volume is not merely to "apply" contemporary theory to black texts. Indeed, as he ranges from 18th-century poet Phillis Wheatley to modern writers Ishmael Reed and Alice Walker, he attempts to redefine literary criticism itself, moving it away from a Eurocentric notion of a hierarchical canon--mostly white, Western, and male--to foster a truly comparative and pluralistic notion of literature. In doing so, he provides critics with a powerful tool for the analysis of black art and, more important, reveals for all readers the brilliance and depth of the Afro-American tradition.

Nowhere to Grow - Les B. Whitbeck 2017-07-05

Les B. Whitbeck and Dan R. Hoyt begin their report on street children in the Midwest with the statement, "If you live in or have visited even a medium-sized city recently, you have seen runaway and homeless young people. They congregate in certain downtown areas and hang out in malls during inclement weather . . . Mostly, they look like the other kids. . . . The difference is that they won't be going home tonight." This book draws on a study of over six hundred runaway and homeless adolescents and over two hundred of their caretakers from cities in four Midwestern states. It focuses on the family histories of these young people and on the developmental impact of early independence. Street social networks, subsistence strategies, sexuality, and street victimization are all considered, as well as their effect on adolescent behaviors and emotional health. Relying on interviews and data from survey research, and working in partnership with street outreach agencies, Whitbeck and Hoyt lead the reader through the various risk factors associated with precocious independence, beginning in the family and extending to external environments and behaviors. *Nowhere to Grow* is an emotional account

of the cumulative consequences for young people with few good options at the outset and even fewer once they are on their own.

Resilient Therapy - Angie Hart 2007-08-07

Whilst much has been written about the identification of resilience in children and their families, comparatively little has been written about what practitioners can do to support those children and families who need the most pressing help. *Resilient Therapy* explores a new therapeutic methodology designed to help children and young people find ways to keep positive when living amidst persistent disadvantage. Using detailed case material from a range of contexts, the authors illustrate how resilient mechanisms work in complex situations, and how resilient therapy works in real-life situations. In addition to work with families, helping welfare organisations achieve greater resilience is also tackled. This book will be essential reading for practitioners working with children, adolescents and their families who wish to help their clients cope with adversity and promote resilience.

Geel Revisited - Eugeen Roosens 2007

"Twenty-five years after his first publication on this topic, anthropologist Roosens and Van de Walle, manager of the rehabilitation unit, 'revisited' Geel. What sets the book apart is that it draws a well-documented, realistic and graphic picture of life in a foster family at the onset of the 21st century. Throughout the book psychiatric foster care is situated within the larger framework of community care. Basically, the book tries to establish the past and future potential of psychiatric foster care as a form of balanced community care and aims at highlighting the value of fostering for the mentally ill with enduring psychiatric disabilities." -- Book Jacket.

Seven Types of Adventure Tale - Martin Burgess Green 1991

From Alexandre Dumas to Raymond Chandler, Martin Green examines adventure stories and their role in spreading the ideology of the modern nation-state. *Seven Types of Adventure Tale* studies widely read and influential adventure tales of the eighteenth through the twentieth centuries in the respectable literary forms. Some of the authors considered are Dumas, Scott, Defoe, Cooper, Verne, Buchan, Kipling, Twain, and Chandler. These stories, though adapted and copied innumerable times and read in their native languages and in translation throughout the Western world, have been largely neglected by literary theorists. Green offers a way to take the adventure tale seriously by positioning these stories within a new theoretical framework. Green places the tales in seven categories organized according to the type of central character in each story. The first category is the Robinson Crusoe story, which portrays the myth of entrepreneurial capitalism and "modern" or postfeudal politics. This story has appeared in one hundred well-known versions, including *The Swiss Family Robinson* and *Lord of the Flies*, since Defoe published his version. The second category is the *Three Musketeers* story, mythifying the birth of the French state and, by extension, the birth of other nation-states. The third is the *Frontiersman* story, originally about American history but a powerful myth far beyond U.S. borders. The fourth, the *Avenger* story, is tied to the myth of an avenging return by Napoleon to France, but more generally to a threat to the bourgeois ruling classes of the nineteenth-century Europe. The fifth is the *Wanderer* story, which relates to escaping from social discipline but also to spying and disguises and crossing frontiers of all kinds. The sixth, the *Saga* story, is a revision of the Icelandic and Teutonic sagas and reflects the myth of resurgent Germany after its unification in 1870. And the seventh category, more specific to the twentieth century, is the *Hunted Man* story, in which an

individual hero is pitted against social juggernaut, such as the state, the Mafia, or a giant corporation. *Seven Types of Adventure Tale* is the second volume of a three-volume study of adventure by Green that began with *The Robinson Crusoe Story*.

Spinegrinder - Clive Davies 2015-03-06

First came video and more recently high definition home entertainment, through to the internet with its streaming videos and not strictly legal peer-to-peer capabilities. With so many sources available, today's fan of horror and exploitation movies isn't necessarily educated on paths well-trodden — Universal classics, 1950s monster movies, Hammer — as once they were. They may not even be born and bred on *DAWN OF THE DEAD*. In fact, anyone with a bit of technical savvy (quickly becoming second nature for the born-clicking generation) may be viewing

MYSTICS IN BALI and S.S. EXPERIMENT CAMP long before ever hearing of Bela Lugosi or watching a movie directed by Dario Argento. In this world, H.G. Lewis, so-called “godfather of gore,” carries the same stripes as Alfred Hitchcock, “master of suspense.” SPINEGRINDER is one man’s ambitious, exhaustive and utterly obsessive attempt to make sense of over a century of exploitation and cult cinema, of a sort that most critics won’t care to write about. One opinion; 8,000 reviews (or thereabouts).

Sam is already at her breaking point when she learns of an unidentified, dangerous virus spreading through their neighborhood. The medical community can only determine that animals are the carriers. Amid growing panic and a demand for immediate answers, suspicion abruptly falls on dogs as the source. Soon the governor is calling in the National Guard to enforce a quarantine--no dog may leave the area.
