Saturn - Liz Greene 2021-12-01

This classic astrology text, revered by beginners and professional astrologers alike, is now available in a Weiser Classics edition. "The most important single contribution of twentieth-century astrology is that astrology is not a map of one's fixed destiny but is a potential map of the unfolding of the authentic, higher self." —Robert Hand, from the foreword Saturn's darker persona is recognized universally in myth and fairytale. In this classic astrology text, renowned astrologer and Jungian analyst Liz Greene offers a fresh perspective on how to handle the influence of this much-maligned astrological symbol. In Saturn, Greene shows us how the frustrating experiences connected to this planet can be turned into opportunities for greater insight and meaning in our lives. Saturn, she says, symbolizes a psychic process—one that allows us to utilize the experience of pain for self-discovery and a more fulfilling and complete life. Greene retraces Saturn's character through sign, house, aspect, and synastry in a brilliant analysis that reveals his other face: that of the initiator who, for the price of our honesty with ourselves, offers us greater consciousness, self-understanding, and, eventually, freedom.

Jung on Astrology - C. G. Jung 2017-09-05

Jung on Astrology brings together C. G. Jung's thoughts on astrology in a single volume for the first time, significantly adding to our understanding of Jung's work. Jung's Collected Works, seminars, and letters contain numerous discussions of this ancient divinatory system, and Jung himself used astrological horoscopes as a diagnostic tool in his analytic practice. Understood in terms of his own psychology as a symbolic representation of the archetypes of the collective unconscious, Jung found in astrology a wealth of spiritual and psychological meaning and suggested it represents the "sum of all the psychological knowledge of antiquity." The selections and editorial introductions by Safron Rossi and Keiron Le Grice address topics that were of critical importance to Jung—such as the archetypal symbolism in astrology, the precession of the equinoxes and astrological ages, astrology as a form of synchronicity and acausal correspondence, the qualitative nature of time, and the experience of astrological fate—allowing readers to assess astrology's place within the larger corpus of Jung's work and its value as a source of symbolic meaning for our time. The book will be of great interest to analytical psychologists, Jungian psychotherapists and academics and students of depth psychology, Jungian and post-Jungian studies, as well as to astrologers and therapists of other orientations, especially transpersonal.

The Spell of the Sensuous - David Abram 2012-10-17

Winner of the International Lannan Literary Award for Nonfiction Animal tracks, word magic, the speech of stones, the power of letters, and the taste of the wind all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us. This major work of ecological philosophy startles the senses out of habitual ways of perception. For a thousand generations, human beings viewed themselves as part of the wider community of nature, and they carried on active relationships not only with other people with other animals, plants, and natural objects (including mountains, rivers, winds, and weather patterns) that we have only lately come to think of as "inanimate." How, then, did humans come to sever their ancient reciprocity with the natural world? What will it take for us to recover a

sustaining relation with the breathing earth? In *The Spell of the Sensuous* David Abram draws on sources as diverse as the philosophy of Merleau-Ponty, Balinese shamanism, Apache storytelling, and his own experience as an accomplished sleight-of-hand of magician to reveal the subtle dependence of human cognition on the natural environment. He explores the character of perception and excavates the sensual foundations of language, which—even at its most abstract—echoes the calls and cries of the earth. On every page of this lyrical work, Abram weaves his arguments with a passion, a precision, and an intellectual daring that recall such writers as Loren Eiseley, Annie Dillard, and Barry Lopez.

Answer to Jung - Lynn Brunet 2018-11-08

The Red Book is C.G. Jung's record of a period of deep penetration into his unconscious mind in a process that he called 'active imagination', undertaken during his mid-life period. Answer to Jung: Making Sense of 'The Red Book' provides a close reading of this magnificent yet perplexing text and its fascinating images, and demonstrates that the fantasies in The Red Book are not entirely original, but that their plots, characters and symbolism are remarkably similar to some of the higher degree rituals of Continental Freemasonry. It argues that the fantasies may be memories of a series of terrifying initiatory ordeals, possibly undergone in childhood, using altered or spurious versions of these Masonic rites. It then compares these initiatory scenarios with accounts of ritual trauma that have been reported since the 1980s. This is the first full-length study of The Red Book to focus on the fantasies themselves and provide such an external explanation for them. Sonu Shamdasani describes The Red Book as an incomplete task that Jung left to posterity as a 'message in a bottle' that would someday come ashore. Answer to Jung brings its message to shore, providing a coherent, but disturbing, interpretation of each of the fantasies and their accompanying images.

Encounters with C.&G. Jung - Andreas Gerber 2021-10-14

This volume presents the journal notes of Sabi Tauber, a young Swiss woman who recorded the experience of her encounters with C. G. Jung. She conscientiously noted Jung's responses to her questions and his comments on her dreams, mostly related to love, the creative principle, and the shadow. In the years 1951-1961, Sabi Tauber often visited Jung in Küsnacht and in his secluded tower in Bollingen. Jung also went to her home in Winterthur a few times, where he spontaneously explained his views in the circle of the Tauber family and their friends. A reader today will immediately be touched by C. G. Jung's living spirit, just as Sabi Tauber was then. While addressing her personal situation, Jung also repeatedly points to the archetype that he recognizes behind each problem. In this way, the scientific precision of Jung's thoughts is imbued with a unique feeling quality.

The Kore Goddess - Safron Rossi 2021-08-19

The Kore Goddess: A Mythology and Psychology is an in-depth exploration of an overlooked mythic and psychic pattern. Also known as the Maiden or Virgin, the Kore personifies an archetypal state of youthful being in which a person becomes one-in-herself. By applying Jungian depth psychology to ancient Greek imagery, Safron Rossi traces the reemergence of this archetype in contemporary individuation and soul-making, bringing to light the critical capacity to be psychologically virginal. In her treatment of this theme, Rossi draws on her prior study of Greek triad goddesses, showing how the Kore pattern is woven into configurations such as the Fates, the Furies, the Graces and other bands of female deities. Expanding Jung's little known insight that the Kore is central to women's psychology, Rossi reveals a teleology of soul related to korehood—a deep integrity grounded in one's essential nature and character. Our relationship to this archetypal pattern brings a sense of vitality and sovereignty, as well as a connection to the interior rhythms

of life.

Prophecy - Phenomena - Hope - 2011-09

Prophecy Phenomena Hope: The Real Meaning of 2012 by Robert Powell, explores what 2012 really means, updating the research presented in his timely and ground-breaking book *Christ and the Maya Calendar: 2012 and the Coming of the Antichrist* (coauthored with Kevin Dann). In this new book, Powell focuses on two important and significant prophecies by Rudolf Steiner. The first (from 1909) concerns the Second Coming of Christ, his appearance to humanity as the Etheric Christ. The second prophecy (from 1919) represents the shadow side of Christ's Second Coming. It concerns the incarnation in human form of the being known as Ahriman (ancient Persian tradition) or Satan (Judeo-Christian tradition). In this connection, the Christian tradition also speaks of the coming of the Antichrist (as clarified in the book, the term Antichrist, as used by Steiner, has a specific meaning and does not signify the incarnation of Ahriman). Powell points to the steady, multifaceted encroachment of ahrimanic forces today, especially through modern technology, which is harmful to the etheric body, causing illness and other serious problems. After looking into Steiner's prophetic remarks in relation to the Book of Revelation, Powell looks into the prophecies of the Russian poet/mystic Daniel Andreev (1906-1959) and examines the prophecy of the American clairvoyant Jeane Dixon (1904-1997) concerning the human birth of the Antichrist. He also includes spiritual research by Judith von Halle (b.1972) regarding an earlier incarnation of Joseph Stalin, as well as Andreev's indications relating to Stalin's earlier incarnations, which may be seen as preparation of this individuality for his role as "Mr. X," the human vessel for the incarnation of Ahriman. Powell's research--applying the astrological rules of reincarnation--supports Jeane Dixon's prophecy, that Mr. X was born in 1962, a finding whose accuracy was also confirmed by Willi Sucher, Powell's mentor in Astrology, or star wisdom. This finding, seen in relation to various contemporary phenomena, speaks an unmistakable language that confirms the accuracy of Rudolf Steiner's prophetic statement that the incarnation of Ahriman into his human vessel would take place shortly after the year 2000. Simultaneously, great hope for humankind is offered by the return of Christ in the etheric realm, an event to which human beings can connect, finding inner strength, support, and guidance as humanity and the Earth pass through the great trials associated with 2012. Astrology and Popular Religion in the Modern West - Dr Nicholas Campion 2012-09-01

This book explores an area of contemporary religion, spirituality and popular culture which has not so far been investigated in depth, the phenomenon of astrology in the modern west. Locating modern astrology historically and sociologically in its religious, New Age and millenarian contexts, Nicholas Campion considers astrology's relation to modernity and draws on extensive fieldwork and interviews with leading modern astrologers to present an invaluable contribution to our understanding of the origins and nature of New Age ideology. This book challenges the notion that astrology is either 'marginal' or a feature of postmodernism. Concluding that astrology is more popular than the usual figures suggest, Campion argues that modern astrology is largely shaped by New Age thought, influenced by the European Millenarian tradition, that it can be seen as an heir to classical Gnosticism and is part of the vernacular religion of the modern west.

The Matrix Control System of Philip K. Dick and the Paranormal Synchronicities O - Timothy Green Beckley 2017-05-18

BEYOND ANYTHING YOU EVER IMAGINED WAS POSSIBLE! EXPLORE PARALLEL WORLDS AND OTHER DIMENSIONS. ESCAPE THE CONFINES OF THE MATRIX AND ELUDE THOSE THAT CONTROL OUR LIVES THROUGH A COMPUTERIZED SIMULATION. You Have Doubtlessly Seen The Movies Based Upon What We Have All Come to Believe Are Exceptionally Brilliant Science Fiction Novels Written By The Late Philip K. Dick . . . TOTAL RECALL - BLADE RUNNER - THE ADJUSTMENT BUREAU But what you probably didn't know is that their creator was living out some of the same incredibly bizarre scenarios that he wrote about. One can easily compare Philip to the character played by Arnold Schwarzenegger in "Total Recall," who found himself in a parallel universe on a faraway planet, despite the fact that he was only supposed to be hooked up in a laboratory to a machine that creates realistic dream-like images. Which reality is the character really living in? At a sci-fi press conference held in France in 1977, Philip tried to explain some of his bewildering thoughts about the existence of a parallel or self-

contained - Matrix-like - universe created by "someone" who has the ability to alter the course of time and our concept of reality: "People claim to remember past lives," Philip told the throng of reporters and fans. "I claim to remember a different - very different - present life. I know of nobody who has ever made this claim before but I rather suspect that my experience is not unique. What perhaps is unique is my willingness to talk about it. We are living in a computer-programmed reality and the only clue we have to it is when some variable is changed and some alteration in our reality occurs . . . and because of this a variable WAS changed - reprogrammed as it were - and an alternative world branched off." Drawing on the masterful mind of creative genius Philip K. Dick we offer up dozens of his personal experiences, as well as those of others in the UFO and paranormal fields, where synchronicities seem to abound. This is NOT science fiction. This is a universe that cannot be so easily grasped or explained. The well-known collector of scientific curiosities, Charles Fort, is often quoted as having said: "The Earth is a farm. We are someone's property." He likened our condition to being movable pieces on a chess board. "There is no doubt that we are under some sort of surveillance and that an "invisible hand" has the ability to carve out our existence and "interfere" in our daily lives by creating a variety of bizarre "play scripts" that to some may seem like pure "coincidences."" Or so says pop culture paranormalist Tim Beckley, who notes that "Synchronicities are not just random occurrences but are laid out before us by some sort of synchronicity command post, which ably demonstrates their mastery or control over us hapless earthlings." Drawing on the masterful mind of creative genius Philip K. Dick (some to this day perceive him to have been a total "mad man") we offer up dozens of his personal experiences, as well as those of others in the UFO and paranormal fields, where synchronicities seem to abound. Beckley and co-author Sean Casteel lay out a plausible scenario to "explain" the intricate workings of what has been dubbed "The Synchronicity Command Board," or "Earth Coincidence Control Office," as so aptly named by the brilliant American marine biologist and neurologist, Dr. John C. Lilly. THE MATRIX CONTROL SYSTEM OF PHILIP K. DICK - AND THE PARANORMAL SYNCHRONICITIES OF TIMOTHY GREEN BECKLEY has been compiled by Tim Beckley and Sean Casteel with an Introduction by Tessa Dick and added contributions by such esteemed researchers as: Philip K. Dick, Tim Swartz, Nick Redfern, Diane Tessman, Hercules Invictus, Brad Steiger, Brent Raynes, Cynthia Cirile, Valarie D. Orazio, and others who have come to conclude we are living in a computerized simulation, and like PKD acknowledge the existence of the Matrix.

Prisms - James Hollis 2021-02-01

Prisms: Reflections on the Journey We Call Life summarizes a lifetime of observing, engaging, and exploring why we are here, in service to what, and what life asks of us. These eleven essays, all written recently, examine how we understand ourselves, and often we have to reframe that understanding, the nature and gift of comedy, the imagination, desire, as well as our encounters with narcissism, and aging. James Hollis, Ph.D., a Jungian Analyst in Washington, D.C., explores the roadblocks we encounter and our on-going challenge to live our brief journey with as much courage, insight, and resolve as we can bring to the table.

The Spiritual Paradox of Addiction - Ashok Bedi 2020-03-15

Addicts and alcoholics are often highly spiritualized individuals who lack the faith apparatus to make a healthy connection with their spiritual drive. This book offers a series of insights and methods whereby faith may be restored and positively channeled into life-sustaining behaviors. It is addressed to addicts, their families and friends, as well as interested laypeople, government policymakers, and treatment professionals. Man and His Symbols - Carl G. Jung 1968-08-15

The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung's revolutionary ideas "What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society."—The Guardian "Our psyche is part of nature, and its enigma is limitless." Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life's work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.

The Solar Myths and Opicinus de Canistris - C.G. Jung

C.G. Jung held an 'extemporaneous' seminar on "The Solar Myths and Opicinus de Canistris" at the 1943 Eranos Conference. In a complete version for the first time, this book presents all of the known material relating to the seminar, including notes taken by two of his students, Alwine von Keller and Rivkah Schärf Kluger, and the outline that Jung himself prepared. Opicinus de Canistris (1296-c. 1352) was a priest and cartographer from near Pavia, Italy. His typically medieval cartography is characterized by historical, theological, symbolic and astrological references along with a curious anthropomorphism, which depicted continents and oceans with human features. Jung recognized this as a projection of Opicinus' inner world and interpreted the maps of the world as mandalas, where the integration of the shadow, the dark principle, was missing. From the contents: *Opicinus de Canistris. Concluding Seminar, Eranos, Ascona, 1943* (Speaking Notes by Carl Gustav Jung) *Notes on Jung's Seminar held on August 12 and 14, 1943, by Alwine von Keller and Rivkah Schärf Kluger* *Rivkah Schärf Kluger. Planetary Threads - Lynn Bell 2013

In this new revised edition of her acclaimed *Planetary Threads* Lynn Bell includes a new introductory chapter, setting out an approach to family themes in the individual chart. Her innovative exploration of the patterns

of thinking, feeling, and behavior which run back through generations is enhanced by her unique adaptation of the genogram (a map utilized in family therapy) highlighting particular planetary placements and aspects that recur in families. Her often dramatic case material, presented in fascinating detail, is rich and revealing, and we are gradually offered a profound vision of the intricately woven tapestry of the family matrix from which we spring, and the ways in which we repeat - or transform - the astrological and psychological inheritance which each of us carries. *The Search for Roots: C. G. Jung and the Tradition of Gnosis* - Alfred Ribi 2013-07-31

The publication in 2009 of C. G. Jung's *The Red Book: Liber Novus* has initiated a broad reassessment of Jung's place in cultural history. Among many revelations, the visionary events recorded in the *Red Book* reveal the foundation of Jung's complex association with the Western tradition of Gnosis. In *The Search for Roots*, Alfred Ribi closely examines Jung's life-long association with Gnostic tradition. Dr. Ribi knows C. G. Jung and his tradition from the ground up. He began his analytical training with Marie-Louise von Franz in 1963, and continued working closely with Dr. von Franz for the next 30 years. For over four decades he has been an analyst, lecturer and examiner of the C. G. Jung Institute in Zurich, where he also served as the Director of Studies. But even more importantly, early in his studies Dr. Ribi noted Jung's underlying roots in Gnostic tradition, and he carefully followed those roots to their source. Alfred Ribi is unique in the Jungian analytical community for the careful scholarship and intellectual rigor he has brought to the study of Gnosticism. In *The Search for Roots*, Ribi shows how a dialogue between Jungian and Gnostic studies can open new perspectives on the experiential nature of Gnosis, both ancient and modern. Creative engagement with Gnostic tradition broadens the imaginative scope of modern depth psychology and adds an essential context for understanding the voice of the soul emerging in our modern age. A Foreword by Lance Owens supplements this volume with a discussion of Jung's encounter with Gnostic tradition while composing his *Red Book (Liber Novus)*. Dr. Owens delivers a fascinating and historically well-documented account of how Gnostic mythology entered into Jung's personal mythology in the *Red Book*. Gnostic mythology thereafter became for Jung a prototypical image of his individuation. Owens offers this conclusion: "In 1916 Jung had seemingly found the root of his myth and it was the myth of Gnosis. I see no evidence that this ever changed. Over the next forty years, he would proceed to construct an interpretive reading of the Gnostic tradition's occult course across the Christian aeon: in Hermeticism, alchemy, Kabbalah, and Christian mysticism. In this vast hermeneutic enterprise, Jung was building a bridge across time, leading back to the foundation stone of classical Gnosticism. The bridge that led forward toward a new and coming aeon was footed on the stone rejected by the builders two thousand years ago." Alfred Ribi's examination of Jung's relationship with Gnostic tradition comes at an important time. Initially authored prior to the publication of Jung's *Red Book*, current release of this English edition offers a bridge between the past and the forthcoming understanding of Jung's Gnostic roots.

Alchemical Studies - C.G. Jung 2014-12-18

The psychological and religious implications of alchemy were Jung's major preoccupation during the last thirty years of his life. The essays composing the present volume complete the publication of his alchemical researches, to which three entire volumes have been devoted ^DDL the monumental *Mysterium Coniunctionis*, *Psychology and Alchemy*, and *Aion* ^DDL besides shorter papers in other volumes. This collection of shorter *Alchemical Studies* has special value as an introduction to Jung's work on alchemy. The first study, on Chinese alchemy, marked the beginning of his interest in the subject, and was originally published in a volume written jointly with Richard Wilhelm. The other four are now published for the first time completely in English.

Lumen Naturae - Matilde Marcolli 2020-05-26

Exploring common themes in modern art, mathematics, and science, including the concept of space, the notion of randomness, and the shape of the cosmos. This is a book about art—and a book about mathematics and physics. In *Lumen Naturae* (the title refers to a purely immanent, non-supernatural form of enlightenment), mathematical physicist Matilde Marcolli explores common themes in modern art and modern

science—the concept of space, the notion of randomness, the shape of the cosmos, and other puzzles of the universe—while mapping convergences with the work of such artists as Paul Cezanne, Mark Rothko, Sol LeWitt, and Lee Krasner. Her account, focusing on questions she has investigated in her own scientific work, is illustrated by more than two hundred color images of artworks by modern and contemporary artists. Thus Marcolli finds in still life paintings broad and deep philosophical reflections on space and time, and connects notions of space in mathematics to works by Paul Klee, Salvador Dalí, and others. She considers the relation of entropy and art and how notions of entropy have been expressed by such artists as Hans Arp and Fernand Léger; and traces the evolution of randomness as a mode of artistic expression. She analyzes the relation between graphical illustration and scientific text, and offers her own watercolor-decorated mathematical notebooks. Throughout, she balances discussions of science with explorations of art, using one to inform the other. (She employs some formal notation, which can easily be skipped by general readers.) Marcolli is not simply explaining art to scientists and science to artists; she charts unexpected interdependencies that illuminate the universe.

Jung's Studies in Astrology - Liz Greene 2018-03-08

Synchronicity - C. G. Jung 2012-01-12

Jung was intrigued from early in his career with coincidences, especially those surprising juxtapositions that scientific rationality could not adequately explain. He discussed these ideas with Albert Einstein before World War I, but first used the term "synchronicity" in a 1930 lecture, in reference to the unusual psychological insights generated from consulting the I Ching. A long correspondence and friendship with the Nobel Prize-winning physicist Wolfgang Pauli stimulated a final, mature statement of Jung's thinking on synchronicity, originally published in 1952 and reproduced here. Together with a wealth of historical and contemporary material, this essay describes an astrological experiment Jung conducted to test his theory. Synchronicity reveals the full extent of

Jung's research into a wide range of psychic phenomena. This paperback edition of Jung's classic work includes a new foreword by Sonu Shamdasani, Philemon Professor of Jung History at University College London.

A section of suggested interpretations of Lilith's influence through the signs is included.

The Sacred Life of Modernist Literature - Allan Kilner-Johnson 2022-06-16

Probing the relationship between modernist literary experimentation and several key strands of occult practice which emerged in Europe from roughly 1894 to 1944, this book sets the work of leading modernist writers alongside lesser known female writers and writers in languages other than English to more fully portray the aesthetic and philosophical connections between modernism and the occult. Although the early decades of the twentieth century—the era of cocktails, motorcars, bobbed hair, and war—are often described as a period of newness and innovation, many writers of the time found inspiration and visionary brilliance by turning to the mysterious occult past. This book's principle intervention is to reimagine the contours and boundaries of literary modernism by welcoming into the conversation a number of significant female writers and writers in languages other than English who are often still relegated to the fringes of modernist studies. Well-remembered poets and novelists such as Ezra Pound, W.B. Yeats, and Aleister Crowley were tied to occult beliefs, and this book sets these leading figures alongside less well-remembered but equally splendid modernists including Paul Brunton, Mary Butts, Alexandra David-Neel, Florence Farr, Dion Fortune, Hermann Hesse, and Rudolf Steiner. From the little magazines where occultism and Fabianism were comfortable companions, to consulting rooms of psychoanalysts where archetypes were revealed to be both mystical and mundane, to the forbidden mountain trails that led to formidable spiritual teachers, the conditions of modernism were invariably those conditions which inspired a return to the occult traditions that many thinkers believed had long evaporated. Indeed, in many ways these traditions were the making of the modern world. By uncovering hidden hopes and anxieties that faced a newly modern Western Europe, this book demonstrates how literary modernists understood occultism as a universal form of cultural expression which has inspired creative exuberance since the dawn of civilisation.

The Cultural Complex - Thomas Singer 2004-07-31

Based on Jung's theory of complexes, this book offers a new perspective on conflicts between groups and cultures, demonstrating how the effects of cultural complexes can be felt in the behaviour of disenfranchised groups across the world.

The Black Books (Slipcased Edition) (Vol. Seven-Volume Set) - C. G. Jung 2020-10-13

Until now, the single most important unpublished work by C.G. Jung—*The Black Books*. In 1913, C.G. Jung started a unique self-experiment that he called his “confrontation with the unconscious”: an engagement with his fantasies in a waking state, which he charted in a series of notebooks referred to as *The Black Books*. These intimate writings shed light on the further elaboration of Jung’s personal cosmology and his attempts to embody insights from his self-investigation into his life and personal relationships. *The Red Book* drew on material recorded from 1913 to 1916, but Jung actively kept the notebooks for many more decades. Presented in a magnificent, seven-volume boxed collection featuring a revelatory essay by noted Jung scholar Sonu Shamdasani—illuminated by a selection of Jung’s vibrant visual works—and both translated and facsimile versions of each notebook, *The Black Books* offer a unique portal into Jung’s mind and the origins of analytical psychology.

The Astrological World of Jung's 'Liber Novus' - Liz Greene 2018-02-21

C. G. Jung’s *The Red Book: Liber Novus*, published posthumously in 2009, explores Jung’s own journey from an inner state of alienation and depression to the restoration of his soul, as well as offering a prophetic narrative of the collective human psyche as it journeys from unconsciousness to a greater awareness of its own inner dichotomy of good and evil. Jung utilised astrological symbols throughout to help him comprehend the personal as well as universal meanings of his visions. In *The Astrological World of Jung’s Liber Novus*, Liz Greene explores the

planetary journey Jung portrayed in this remarkable work and investigates the ways in which he used astrological images and themes as an interpretive lens to help him understand the nature of his visions and the deeper psychological meaning behind them. Greene's analysis includes a number of mythic and archetypal elements, including the stories of Salome, Siegfried and Elijah, and demonstrates that astrology, as Jung understood and worked with it, is unquestionably one of the most important foundation stones of analytical psychology, and an essential part of understanding his legacy. This unique study will appeal to analytical psychologists and Jungian psychotherapists, students and academics of Jungian and post-Jungian theory, the history of psychology, archetypal thought, mythology and folklore, the history of New Age movements, esotericism and psychological astrology.

Jung's Studies in Astrology - Liz Greene 2019-09-04

Winner of the IAJS award for best authored book of 2018! C. G. Jung had a profound interest in and involvement with astrology, which he made clear in virtually every volume of the Collected Works, as well as in many of his letters. This ancient symbolic system was of primary importance in his understanding of the nature of time, the archetypes, synchronicity, and human fate. Jung's Studies in Astrology is an historical survey of his astrological work from the time he began to study the subject. It is based not only on his published writings, but also on the correspondence and documents found in his private archives, many of which have never previously seen the light of day. Liz Greene addresses with thoroughness and detailed scholarship the nature of Jung's involvement with astrology: the ancient, medieval, and modern sources he drew on, the individuals from whom he learned, his ideas about how and why it worked, its religious and philosophical implications, and its applications in the treatment of his patients as well as in his own self-understanding. Greene clearly demonstrates that any serious effort to understand the development of Jung's psychological theories, as well as the nature of his world-view, needs to involve a thorough exploration of his astrological work. This thorough investigation of a central theme in Jung's work will appeal to analytical psychologists and Jungian psychotherapists, students

and academics of Jungian and post-Jungian theory, the history of psychology, archetypal thought, mythology and folklore, the history of New Age movements, esotericism, and psychological astrology.
