My Holocaust - Tova Reich 2009-10-13

Maurice and Norman Messer, father-and-son business partners, know a good product when they see it. That product is the Holocaust, and Maurice, a Holocaust survivor with an inflated personal history, and Norman, enjoying vicarious victimhood as a participant in the second-generation movement, proceed to market it enthusiastically. Not even the disappearance of Nechama, Norman's daughter and Maurice's granddaughter, into the Carmelite convent at Auschwitz, where she is transformed into a nun, Sister Consolatia of the Cross, deters them from pushing their agenda. Father and son embark on a tour of the Auschwitz-Birkenau death camp, which Maurice—now the driving force behind the most powerful Holocaust memorialization institution in America—organizes to soften up a potential major donor, and which Norman takes advantage of to embark on a surrealistic search for his daughter. At the death camp they run into assorted groups and individuals all clamoring for a piece of the Holocaust, including Buddhist New Agers on a retreat, Israeli schoolchildren on a required heritage pilgrimage, a Holocaust artifact hustler, filmmakers, and an astonishing collection of others. All hell breaks loose when Maurice's museum is taken over by a coalition of self-styled victims seeking Holocaust status, bringing together a vivid cast of all-too-human characters, from Holocaust professionals to Holocaust wannabees of every persuasion, in the fevered competition to win the grand prize of owning the Holocaust. An inspiringly courageous and shockingly original tour-de-force, *My Holocaust* dares to penetrate territory until now considered sacrosanct in its brilliantly provocative and darkly comic exploration of the uses and abuses of memory and the meaning of human suffering.

What Is the Stigmata Padre Pio - Denis Van Loan 2018-09-27

Description of Catholic vs. ProtestantThe Stigmata & Padre Pio is a Christian book with chapters on phenomenon like the stigmata and controversial issues that often get no press or the wrong information. There are some major differences between Catholic and Protestant viewpoints of Christianity. What is the stigmata & Padre Pio? Padre Pio (Catholic priest) is not well known among Catholics, much less Protestants. The Stigmata is a stunning and supernatural phenomenon where living saints bleed and suffer pain regularly through the same wounds as Christ. Padre Pio is not the only stigmatist. Theresa Neumann and Padre Pio are two modern stigmatists whose wounds were verified

by photographs and medical examinations. Before 1900, as many as 320 stigmatists (besides Francis of Assisi) were documented by a French doctor. It is not a fluke or rare phenomenon, more have occurred since then. The difference of Catholic vs. Protestant can be vastly significant here. Some believe the bleeding and suffering is "not of God" in spite of evidence from photographs and medical examinations. They contend it is not God's will that we have to suffer because Christ did it all for us...there is no redemption in our suffering. The difference of Catholic and Protestant boils down to authority...the Bible or the Church. How we got the Bible was from the Church, not vice versa. Belief, by Catholics in the real presence of God in Holy Eucharist is also a major difference. The vast majority of Protestants believe Christianity is based upon the Bible and everything we need to know is there. Holy Eucharist seems skipped over in Scripture or discarded by Protestants. Fortunately the view of the Catholic on abortion is frequently agreed upon by Protestants. Authority: Protestants believe the Bible is the only authority for Christians. Historical evidenced and the Bible itself contradict this. What is the Word of God (Bible) and where and how we got it needs explanation regarding "authority". Other issues covered are: spirit soul & body...the essence & dynamics of man, how to be filled with the Holy Spirit, how Christians can also have demons. Catholic symbols (statues), the uncorrupted body of saints, guidance from God, spiritual tools of God, fear vs. faith, devotion to Virgin Mary and eleven dimensions of God vs. our four. To summarize: differences between catholic vs. protestant, what is the stigmata, what is the Word of God, how we got the Bible, fear and faith contrasted, hearing God for guidance, how to be filled with the Spirit, spirit, soul & body interaction, the Catholic on abortion, and Holy Eucharist. There are many differences between Catholic and Protestant even though both are Christian and believe there is no salvation except through Christ. The book is a potpourri...a collection of different subjects. Links to other sources are throughout the book.

The Constitutional Origins of the American Revolution - Jack P. Greene 2010-10-25

Using the British Empire as a case study, this succinct study argues that the establishment of overseas settlements in America created a problem of constitutional organization that created deep and persistent tensions within the empire during the colonial era and that the failure to resolve it was the principal element in the decision of thirteen continental colonies to secede from the empire in 1776. Challenging those historians who have assumed that the British had the law on their side during the debates that led to the American Revolution, this volume argues that the empire had long exhibited a high degree of constitutional multiplicity, with each colony having its own discrete constitution and the empire as whole having an uncodified working customary constitution that determined the way authority was distributed within the empire. Contending that these constitutions cannot be conflated with the metropolitan British constitution, it argues that British refusal to accept the legitimacy of colonial understandings of the sanctity of the many colonial constitutions and the imperial constitution was the critical element leading to the American Revolution.

The Power of the Terroir: the Case Study of Prosecco Wine - Diego Tomasi 2013-05-09

This book draws on an eight-year study carried out in the DOCG Prosecco area of Italy, a wine region known worldwide. It is unique in the sense that it is based on one of the most comprehensive investigations into terroir zoning ever performed in Italy. By drawing attention to the complex interrelations between environmental and human factors that influence the growth and production of the Glera grape, the study illustrates the distinct correlation between a wine and its 'terroir'. It

shows that the morphology of the sites, the meso and microclimate, the soil, the grapevine planting density, the trellising system, the yield of the vineyard, and the vine water status in the summer lead to unique combinations of grape maturity, acidity, and aroma that ultimately influence the sensory properties of the wines produced. Furthermore, the book details numerous technical and agronomic considerations, specific to the "Glera" grape variety, for different production strategies, including a section on the impact of climate change on cv "Glera" phenology. "The Power of the Terroir: the Case Study of Prosecco Wine" represents a valuable resource for anyone involved in studies or research activities in the fields of viticulture, climatology, agronomic sciences or soil sciences, but is also of interest to vine growers, professionals in the wine industry, and wine enthusiasts in general.

The Vatican Library - Ambrogio M. Piazzoni 2012

The history of the Vatican Library began when the Pope Silvester I (314-335) settled in the Basilica of St. John Lateran in Rome, thanks to the Edict of Constantine in 313. The Basilica was built by Constantine himself and by the half of that century was set in it a scrinum sanctum, that is a collection of books which was at the same time a library for the booksellers and an archive for documents. This book mainly deals with the location of the popes' library, but it also presents the history of the library building from its beginnings. Between 1587 and 1589 Pope Sixtus V built the Salone Sistino in the Vatican Apostolic Palace nearby St. Peter, which became the new location of the library. This place is one of the gems of Vatican City, since it contains frescos representing the history of Councils and the Charter for the Codices and for print. In 2012 this architectural and decorative wonder will reopen as a reference collection space, although it still won't be accessible to the Museum's visitors and tourists.

The Written Word in the Medieval Arabic Lands - Konrad Hirschler 2013

Winner of the 2012 BRISMES book prize. How the written text became accessible to wider audiences in medieval Egypt and Syria. Medieval Islamic societies belonged to the most bookish cultures of their period. Using a wide variety of documentary, narrative and normative sources, Konrad Hirschler explores the growth of reading audiences in a pre-print culture. The uses of the written word grew significantly in Egypt and Syria between the 11th and the 15th centuries, and more groups within society started to participate in individual and communal reading acts. New audiences in reading sessions, school curricula, increasing numbers of endowed libraries and the appearance of popular written literature all bear witness to the profound transformation of cultural practices and their social contexts.

Encyclopedia of Early Modern History - Friedrich Jaeger 2016

The Encyclopedia of Early Modern History offers 400 years of early modern history in one work. Experts from all over the world have joined in a presentation of the scholarship on the great era between the mid-15th to the mid-19th centuries. The perspective is European. That does not mean, however, that the view on the rest of the world is blocked. On the contrary: the multifaceted interrelatedness of European and other cultures is scrutinized extensively. The Encyclopedia of Early Modern History addresses major historical questions: - which ideas, inventions, and events changed people's lives? - in which ways did living conditions change? - how do political, social, and economic developments interlock? - which major cultural currents have begun to become apparent? - how did historical interpretation of certain phenomena change? The individual articles are connected to one another as in a web of red threads. The reader who follows the threads will keep coming upon new and unexpected contexts and links.

German Jews beyond Judaism - George L Mosse 1997-05-01

Jews were emancipated at a time when high culture was becoming an integral part of German citizenship. German Jews felt a powerful urge to integrate, to find their Jewish substance in German culture and craft an identity as both Germans and Jews. In this reprint edition, based on the 1983 Efromson Memorial Lectures given at Hebrew Union College-Jewish Institute of Religion in Cincinnati, George Mosse argues that they did this by adopting the concept of Bildung-the idea of intellectual and moral self-cultivation-and combining it with key Enlightenment ideas such as optimism about human potential, individualism and autonomy,

and a connection between knowledge and morality through aesthetics. Personal friendships could be devoted to common pursuit of Bildung and become a means of overcoming differences, becoming a means for integration into German society. Mosse traces how Jewish artists, writers, and thinkers actively sought to participate in German culture and communicate these ideals through popular culture, scholarship, and political activity. From the historical biographies, novels, and short stories of Stefan Zweig and Emil Ludwig; to the psychoanalysis of Freud, which sought to subject irrationality to reason; to the revolutionary thought of Walter Benjamin-Jews sought to influence a mass political culture that was fast drifting into irrationality. As individualism was subsumed into nationalism, and eventually the German political right's racist version of nationalism, German-Jewish dialogue became more difficult. Jews remained idealistic as German society became less rational, their ideas corresponded less and less to the realities of German life, and they drifted out of the mainstream into an intellectual isolation. Yet out of this German-Jewish dialogue, what had once been part of German culture became a central Jewish heritage. The ideal of cultivating a personal identity beyond religion and nationality, the liberal outlook on society and politics, and the desire to transcend history by stressing what united rather than divided individuals and nations infiltrated Jewish life became an inspiration for many men and women searching to humanize their society and their own lives. Mosse's lectures trace the emergence of a form of Jewishness which resisted cultural ghettoization in favor of the pursuit of that which is universally human.

33 X South Tyrolean Classics - Heinrich Gasteiger 2010

50 Philosophy Ideas You Really Need to Know - Ben Dupre 2013-10-01

Have you ever lain awake at night worried about how we can be sure of the reality of the external world? Perhaps we are in fact disembodied brains, floating in vats at the whim of some deranged puppetmaster. If so, you are not alone--and what's more, you are in exalted company--for this question and other ones like it have been the stuff of philosophical rumination from Plato to Popper. In a series of accessible and engagingly written essays, *50 Philosophy Ideas You Really Need to Know* introduces and explains the problems of knowledge, consciousness, identity, ethics, belief, justice, and aesthetics that have engaged the attention of thinkers from the era of the ancient Greeks to the present day.

Agriculture, Forestry and Fishery Statistics - Edward Cook 2020

Agriculture, forestry and fishery statistics provides a selection of recent, topical data. Information is presented for the European Union (EU) and its Member States, and is supplemented (when available) with data for the United Kingdom, EFTA members, candidate countries to the EU and potential candidates. This publication aims to cover some of the most popular data within the domain of agriculture, forestry and fishery statistics as well as some of the wider food chain. It may be viewed as an introduction to European statistics in this area and provides a starting point for those who wish to explore the broad range of data that are freely available on Eurostat's website.

1848 - Mike Rapport 2009-02-03

In 1848, a violent storm of revolutions ripped through Europe. The torrent all but swept away the conservative order that had kept peace on the continent since Napoleon's defeat at Waterloo in 1815—but which in many countries had also suppressed dreams of national freedom. Political events so dramatic had not been seen in Europe since the French Revolution, and they would not be witnessed again until 1989, with the revolutions in Eastern and Central Europe. In 1848, historian Mike Rapport examines the roots of the ferment and then, with breathtaking pace, chronicles the explosive spread of violence across Europe. A vivid narrative of a complex chain of interconnected revolutions, 1848 tells the exhilarating story of Europe's violent “Spring of Nations” and traces its reverberations to the present day.

Kindness. For an Ethics of Re-enchantment - Alberto Meschiari 2018

Aspects of Nature, in Different Lands and Different Climates; with Scientific Elucidations - Alexander von Humboldt 1849

"It is not without diffidence that I present to the public a series of papers

which took their origin in the presence of natural scenes of grandeur or of beauty -- on the Ocean, in the forests of the Orinoco, in the Steppes of Venezuela, and in the mountain wildernesses of Peru and Mexico." (p. 1).

Viruses in Foods - Sagar Goyal 2007-01-15

This is the first book to focus entirely on viruses in foods. It collates information on the occurrence, detection, transmission, and epidemiology of viruses in various foods. Although methods for bacterial detection in food are available, methods for detection of viruses in food, with the exception of shellfish, are not available. It is important, therefore, to develop methods for direct examination of food for viruses and to explore alternate indicators that can accurately reflect the virological quality of food. This book addresses these issues along with strategies for the prevention and control of viral contamination of food.

Medieval Damascus - Hirschler Konrad Hirschler 2016-02-19

The written text was a pervasive feature of cultural practices in the medieval Middle East. At the heart of book circulation stood libraries that experienced a rapid expansion from the twelfth century onwards. While the existence of these libraries is well known our knowledge of their content and structure has been very limited as hardly any medieval Arabic catalogues have been preserved. This book discusses the largest and earliest medieval library of the Middle East for which we have documentation - the Ashrafiya library in the very centre of Damascus - and edits its catalogue. This catalogue shows that even book collections attached to Sunni religious institutions could hold rather unexpected titles, such as stories from the 1001 Nights, manuals for traders, medical handbooks, Shiite prayers, love poetry and texts extolling wine consumption. At the same time this library catalogue decisively expands our knowledge of how the books were spatially organised on the bookshelves of such a large medieval library. With over 2,000 entries this catalogue is essential reading for anybody interested in the cultural and intellectual history of Arabic societies. Setting the Ashrafiya catalogue into a comparative perspective with contemporaneous libraries on the British Isles this book opens new perspectives for the study of medieval libraries.

History - Elsa Morante 2015-02-24

History was written nearly thirty years after Elsa Morante and Alberto Moravia spent a year in hiding among remote farming villages in the mountains south of Rome. There she witnessed the full impact of the war and first formed the ambition to write an account of what history - the great political events driven by men of power, wealth, and ambition - does when it reaches the realm of ordinary people struggling for life and bread. The central character in this powerful and unforgiving novel is Ida Mancuso, a schoolteacher whose husband has died and whose feckless teenage son treats the war as his playground. A German soldier on his way to North Africa rapes her, falls in love with her, and leaves her pregnant with a boy whose survival becomes Ida's passion. Around these two other characters come and go, each caught up by the war which is like a river in flood. We catch glimpses of bombing raids, street crimes, a cattle car from which human cries emerge, an Italian soldier succumbing to frostbite on the Russian front, the dumb endurance of peasants who have lived their whole lives with nothing and now must get by with less than nothing.

Globalization of Knowledge in the Post-Antique Mediterranean, 700-1500 - Sonja Brentjes 2016-05-05

The contributions to this volume enter into a dialogue about the routes, modes and institutions that transferred and transformed knowledge across the late antique Mediterranean and the Persian Gulf. Each contribution not only presents a different case study but also investigates a different type of question, ranging from how history-writing drew on cross-culturally constructed stories and shared sets of skills and values, to how an ancient warlord was transformed into the iconic hero of a newly created monotheistic religion. Between these two poles, the emergence of a new, knowledge-related, but market-based profession in Baghdad is discussed, alongside the long-distance transfer of texts, doctrines and values within a religious minority community from the shores of the Caspian Sea to the mountains of the southern Arabian

Peninsula. The authors also investigate the outsourcing of military units and skills across religious and political boundaries, the construction of cross-cultural knowledge of the balance through networks of scholars, patrons, merchants and craftsmen, as well as differences in linguistic and pharmaceutical practices in mixed cultural environments for shared corpora of texts, drugs and plants.

The Quotable Feynman - Richard P. Feynman 2015-09-29

A treasure-trove of illuminating and entertaining quotations from beloved physicist Richard P. Feynman "Some people say, 'How can you live without knowing?' I do not know what they mean. I always live without knowing. That is easy. How you get to know is what I want to know."—Richard P. Feynman Nobel Prize-winning physicist Richard P. Feynman (1918–88) was that rarest of creatures—a towering scientific genius who could make himself understood by anyone and who became as famous for the wit and wisdom of his popular lectures and writings as for his fundamental contributions to science. The Quotable Feynman is a treasure-trove of this revered and beloved scientist's most profound, provocative, humorous, and memorable quotations on a wide range of subjects. Carefully selected by Richard Feynman's daughter, Michelle Feynman, from his spoken and written legacy, including interviews, lectures, letters, articles, and books, the quotations are arranged under two dozen topics—from art, childhood, discovery, family, imagination, and humor to mathematics, politics, science, religion, and uncertainty. These brief passages—about 500 in all—vividly demonstrate Feynman's astonishing yet playful intelligence, and his almost constitutional inability to be anything other than unconventional, engaging, and inspiring. The result is a unique, illuminating, and enjoyable portrait of Feynman's life and thought that will be cherished by his fans at the same time that it provides an ideal introduction to Feynman for readers new to this intriguing and important thinker. The book features a foreword in which physicist Brian Cox pays tribute to Feynman and describes how his words reveal his particular genius, a piece in which cellist Yo-Yo Ma

shares his memories of Feynman and reflects on his enduring appeal, and a personal preface by Michelle Feynman. It also includes some previously unpublished quotations, a chronology of Richard Feynman's life, some twenty photos of Feynman, and a section of memorable quotations about Feynman from other notable figures. Features: Approximately 500 quotations, some of them previously unpublished, arranged by topic A foreword by Brian Cox, reflections by Yo-Yo Ma, and a preface by Michelle Feynman A chronology of Feynman's life Some twenty photos of Feynman A section of quotations about Feynman from other notable figures Some notable quotations of Richard P. Feynman: "The thing that doesn't fit is the most interesting." "Thinking is nothing but talking to yourself inside." "It is wonderful if you can find something you love to do in your youth which is big enough to sustain your interest through all your adult life. Because, whatever it is, if you do it well enough (and you will, if you truly love it), people will pay you to do what you want to do anyway." "I'd hate to die twice. It's so boring."
