It's Not Over When We Say Goodbye - Rebecca Shapiro 2021-07-09

Based on a true story, this children's book about grief and love is relatable to anyone who has lost someone they cherish, with the goal of recognizing that, although our loved ones might be physically gone, their spirit is eternal. The love, the legacy and all the precious memories can live on for as long as you choose to nurture and enrich the world in their honor. Published by Project Proactive, this approach is transformative, especially the Parent's Guide by Trauma Specialist, Esther Goldstein, LCSW. What the Experts Have to Say "Were this book only a fitting tribute to the endearing and vivacious Moussia Zaltzman, OBM, it would be well worth reading and sharing with our children. But beyond that, this book is a game changer. It models the delicate and sensitive process by which we express and share painful realities with ourselves and our children. Groundbreaking, commemorative and therapeutic, this book should be a part of every family and school library." - Dr. Norman N. Blumenthal Zachter Family Chair in Trauma and Crisis Response, OHEL Children's Home and Family Services "What an amazing way to honor Moussia and to help anyone who is suffering loss, with hope, honesty and the promise of ongoing life." -Dr. Marta Durski, D.Min, RP, RMFT "This book is a masterful guide to dealing with loss. Written by Rebecca Shapiro in Moussia's voice, we are given a model of how authenticity, honesty, and openness provide a template for keeping a lost relative or friend alive when they are no longer physically present. Grounded in an integration of mental health expertise and faith-based wisdom, the authors share practical guidelines on helping children and families confront loss in an honest and psychologically informed manner. I strongly recommend this book for anybody confronting the challenges brought by life's inevitable losses." - David Pelcovitz, Ph.D. Straus Chair in Psychology and Education, Azrieli Graduate School, New York "This book will help people of all ages come to terms with grief and loss. Unique in its perspective, "It's Not Over When We Say Goodbye" addresses the cognitive, emotional and spiritual needs of those who have gone, are going, or will go through the experience of losing a loved one - that is to say, all of us. The story of a little girl's sudden death

is used to show readers how the unbreakable bond of love unites this world and the next, providing deep comfort and solace to the human heart. Although far from a typical "bedtime story," "It's Not Over When We Say Goodbye" should be read to, and discussed, with every child, as its impactful message will provide enduring support for life's journey." - Sarah Chana Radcliffe, M.ED., C.PSYCH Psychologist, lecturer and author of multiple best sellers, including "The Fear Fix" "Western culture's unrelenting focus on joy and happiness ironically, and insidiously, increases our vulnerability to emotional distress. By contrast, Judaism teaches us how to live with joys and pains, successes and failures, happiness and sadness, and all points in between. This poignant book is a critical resource for parents in supporting children through grief and loss. Its approach is simple, its wisdom immense, and its author has done a great service by making it available to our community." - David H. Rosmarin, PhD Associate Professor at Harvard Medical School, and Founder of Center for Anxiety (New York) "Moussia's book is a beautiful gift to parents and community members to help initiate, guide and support the sensitive but necessary conversations we need to have with our kids. I am honored to be a part of Project Proactive's mission to develop critical and current, transformative resources for our community." - Rachel Tuchman, LMHC Clinical Advisor, Project Proactive

But I Didn't Say Goodbye - Barbara Rubel
2020-01-06

What do you do when your father dies by suicide while you are in the hospital awaiting the birth of your triplets? What do you do when you can't attend your father's funeral because physician orders include complete bed rest? What do you do when you realize that you experienced a devastating loss and that you are not alone in that experience? You write a book and dedicate your life to helping others affected by suicide! Barbara Rubel's fictional characters in *But I Didn't Say Goodbye* are a compilation of what individuals may experience throughout their lifetime as a suicide loss survivor. *But I Didn't Say Goodbye: Helping Families After a Suicide* tells the story, from the perspective of an eleven-year-old boy, Alex, and his family, as they are

rocked by suicide and reeling from the aftermath. Through Alex's eyes, the reader will see the transformation of feelings after going through a death by suicide. New to the third edition, each chapter ends with Alex reflecting 10 years later on his experience, introducing family members and friends in his recollections. Barbara Rubel has combined our modern academic theories of grieving, and the research that supports those theories, and then translated them into a readable story for anyone bereaved by suicide. The revised edition is an evidence-informed and contemporary treatment of a devastating form of loss that uses the artful device of a hypothetical case study to render it in human terms. Through the story, the reader will understand what losing someone to suicide might be like for a family, how to make meaning in the loss, and ways to experience personal growth. This self-help book was revised to provide guidance and education for clinicians (e.g., mental health providers, social workers, psychologists, school counselors, and case managers) and families to help suicide loss survivors. Part 1 offers a basic understanding of suicide postvention, suicide loss survivors, complicated grief, mourning theories, the American death system, and the impact on clinician survivors. Chapters have been substantially updated, based on mourning models and the latest research. The chapters in Part 2 build upon one another sequentially, from the day of the suicide to the anniversary of the death. At the end of each chapter, there are follow-up questions to explore in counseling sessions, support groups, therapy sessions, or at home. Also, at the end of each chapter, Alex, at the age of 21, reflects back on how his father's death by suicide has changed his life, wounding him, but also helping him to grow.

[Preparing Your Children for Goodbye](#) - Lori A. Hedderman 2011-02-15

Preparing Your Children For Goodbye is a supportive guidebook for parents who are terminally ill. This book is divided into three parts: -End-of-life issues to consider -How children cope with death -A Life Review workbook The book will help you plan for your own end-of-life care, prepare your children for your death, and record memories of your life. The book includes a Bibliography and a list of

"Places to Turn To for Help". Your most important role as a parent is raising your child. All along, you are attempting to impart into them your values, as well as teach them the skills that they will need to be successful as they grow into adulthood. No parent expects to leave a child to journey through life without his or her direct guidance. As that day approaches, and you begin to accept that you will not have the time that you thought you would, the pressure mounts to prepare your child for the future. The process of looking back over your life and thinking about what has mattered most to you is a natural part of facing death. There is a formal discipline called "Life Review" in which people are encouraged to discuss and write down aspects of their past. This Life Review workbook is specifically designed for use by parents of children and teenagers. It includes questions to help you consider issues relating to your children, as well as more general questions that will trigger memories about other parts of your life. This Life Review process can be used by anyone who is interested in thinking about their own past, even if they do not have children. You can use the workbook on your own or with someone else. It's a nice activity for two people to do together using a conversational approach. An adult child could use the conversational method with an elderly parent. It can be an enjoyable way to reminisce about the past and capture memories. This type of conversational approach can be helpful as a tool to use with older people who are having memory problems. The workbook can be used in hospice settings by hospice volunteers to use with patients who want to reflect on their lives. If someone is too sick to take on a major writing project, the volunteer can ask questions from the workbook to help the person recall anything that they want to have remembered. A volunteer could also work with family members to explain life review ideas and introduce the workbook as something they can use on their own. Any parent who wants to record family history can also use this book. Perhaps you have a high-risk profession in an area such as law enforcement, firefighting, or serve in the military and are concerned about the future. Who hasn't thought, "What if?"

Saying Goodbye - Jean C. West 2015-10-30
Saying Goodbye: My Spiritual Journey through Death and Dying dares to face the basic reality that so much of modern culture strains itself to deny: everyone who lives will die. The hope and the encouragement come, not in pretending that death will not happen, but in shaping the way in which one says "goodbye" to friends and family. Jean C. West, who sat with her husband and her siblings as they died, draws upon both her experiences and her research to present a guide to assist all who find themselves in the position making or witnessing end-of-life goodbyes. Her advice covers the circumstances of those who are dying and of others who accompany loved ones in their dying. Saying Goodbye describes the common landmarks one encounters in a journey through death and dying. It presents special guidance for circumstances in which children are dying. It talks through the sorts of plans one can make in advance of death. It consoles and supports individuals during the time after a loved one's death. Saying Goodbye: My Spiritual Journey through Death and Dying recognizes that while each person's circumstances and perspective are unique, the common elements of the human experience of death and dying can provide the foundation for saying "goodbye" and for journeying through times of human mortality.

The Art of Comforting - Val Walker 2010-10-28

We live in an increasingly "virtual" world in which it can be tempting to skip making that true, human connection with someone in pain.

Even though our thoughts might be with them, we lack the confidence to reach out, worrying that we will say or do the "wrong" thing. In this practical, step-by-step guide to what she calls "the art of comforting," Val Walker draws on numerous interviews with "Master Comforters" to guide readers in gently and gracefully breaking through the walls that those who are suffering often erect around themselves. Interviewees include inspiring individuals such as Alicia Rasin, who, as a victim's advocate for the city of Richmond, Virginia, has devoted her life to comforting grieving families devastated by homicide, gang violence, and other traumatic experiences; or Patricia Ellen, who, as a grief counselor and outreach director at the Center for Grieving Children in Portland, Maine, appears on site to support and comfort children, staff, and parents when a school is facing a death, violence, or other crises. All of us will, at one time or the other, be called upon to offer warmth and support to another human being who is suffering-this book will show you how to answer the call with an open heart.

Emerging Strategies for Supporting Student Learning provides a straightforward and accessible guide to the latest learning and teaching practices appropriate for use with higher education students. It is both an exciting and challenging time to be working in higher education as the sector experiences rapid changes including: an increasingly diverse student population with changing expectations; changes in technology including the rise in the use of social media; increased emphasis on employability and internationalisation; development of new social learning spaces; as well as an ever-decreasing resource base. Goodbye, Friend! Hello, Friend! - Cori Doerrfeld 2019-07-02

From the creator of *The Rabbit Listened* comes a gentle story about the difficulty of change . . . and the wonder that new beginnings can bring. Change and transitions are hard, but *Goodbye, Friend! Hello, Friend!* demonstrates how, when one experience ends, it opens the door for

another to begin. It follows two best friends as they say goodbye to snowmen, and hello to stomping in puddles. They say goodbye to long walks, butterflies, and the sun...and hello to long evening talks, fireflies, and the stars. But the

hardest goodbye of all comes when one of the friends has to move away. Feeling alone isn't easy, and sometimes new beginnings take time. But even the hardest days come to an end, and you never know what tomorrow will bring.
