I Like Art: Impressionism - Margaux Stanitsas 2018-02-01

Art history made accessible and enjoyable for kids Learn all about Impressionism in this art history book for kids. Meet famous artists like Paul Cezanne, Auguste Renoir, Mary Cassatt and Claude Monet and find out why they painted the way they did. The Impressionist period of art began in the 1860s and featured art that gave an impression of a set moment in time. Kids will learn to spot details and themes in Impressionist art and will develop an appreciation for the style through this simple and child appropriate book. Here's a sample page from the book: An impression is the feeling something gives you the moment you look at it. Impressionism is the genre that takes that feeling, and makes it into a picture you can look at forever. Impressionist paintings usually are not perfect depictions of people and places. This is because the goal of an Impressionist is to show real life how the artist saw it.

What is Shape? - Tea Benduhn 2009-08

Introduces basic shapes and demonstrates how they can be found in different works of art.

Bet You Didn't Know - National Geographic Kids 2017

Friends of the Earth - Pat McCarthy 2013-03-01

The history of American environmentalism is the history of men and women who dedicated their lives to protecting the nation's natural heritage. Almost singlehandedly, John James Audubon introduced the study of birds in North America. John Muir pushed a president and a nation into setting aside vast preserves, including Yosemite, Sequoia, Mt. Rainier, and the Grand Canyon. Marjory Stoneman Douglas did the same for the Florida Everglades, as did Mardy Murie with the Grand Tetons and the Arctic National Wildlife Refuge. Cordelia Stanwood, and later Roger Peterson, revolutionized and popularized birdwatching. Rachel Carson opened the world's eyes to the dangers of pesticides, and Julia & "Butterfly" Hill saved a 1,000-year-old redwood while bringing to light the devastation of our old growth forests. Together, these environmentalists' inspiring life stories tell the story of American environmentalism, from its inception to the present day. In Friends of Our Earth readers will also learn how to put their concerns into action. Author Pat McCarthy gives step-by-step instructions on how to build a birdfeeder, conduct a water quality survey, start a compost pile, study the Greenhouse Effect, make plaster casts of animals tracks, create their own recycled paper, test for acid rain, and more. It includes a time line of historic milestones, popular outdoor parks and sites to visit or explore online, and Web resources for further study.
