**The New Cambridge Medieval History: Volume 4, c.1024-c.1198** - David Luscombe 2015-05-21  
The fourth volume of The New Cambridge Medieval History covers the eleventh and twelfth centuries, which comprised the most dynamic period in the European Middle Ages. The first of two parts, this volume deals with ecclesiastical and secular themes, in addition to major developments such as the expansion of population, agriculture, trade, and towns; the radical reform of the Western Church; the appearance of new kingdoms and states, the Crusades, knighthood and law; and the development of literature, art and architecture, heresies and the scholastic movement.

*The Cambridge Economic History of the Modern World: Volume 2, 1870 to the Present* - Stephen Broadberry 2021-06-24

The second volume of The Cambridge Economic History of the Modern World explores the development of modern economic growth from 1870 to the present. Leading experts in economic history offer a series of regional studies from around the world, as well as thematic analyses of key factors governing the differential outcomes in different parts of the global economy. Topics covered include human capital, capital and technology, geography and institutions, living standards and inequality, trade and immigration, international finance, and warfare and empire.

**European Commercial Enterprise in Pre-Colonial India** - Om Prakash 1998-06-28

This book considers the impact of European trade on the pre-modern Indian economy.

**The Cambridge World History** - Jerry H. Bentley 2015-04-09

The era from 1400 to 1800 saw intense biological, commercial, and cultural exchanges, and the creation of global connections on an unprecedented scale. Divided into two books, Volume 6 of the Cambridge World History series considers these critical transformations. The first book examines the material and political foundations of the era, including global considerations of the environment, disease, technology, and cities, along with regional studies of empires in the eastern and western hemispheres, crossroads areas such as the Indian Ocean, Central Asia, and the Caribbean, and sites of competition and conflict, including Southeast Asia, Africa, and the Mediterranean. The second book focuses on patterns of change, examining the expansion of Christianity and Islam, migrations, warfare, and other topics on a global scale, and offering insightful detailed analyses of the Columbian exchange, slavery, silver, trade, entrepreneurs, Asian religions, legal encounters, plantation economies, early industrialism, and the writing of history.

*The New Cambridge Medieval History: Volume 3, C.900-c.1024* - Timothy Reuter 1995

**The Second Media Age** - Mark Poster 2018-03-08

This book examines the implications of new communication technologies in the light of the most recent work in social and cultural theory and argues that new developments in electronic media, such as the Internet and Virtual Reality, justify the designation of a "second media age".

**The Cambridge Economic History of China** - Debin Ma 2022-02-24

China's rise as the world's second-largest economy surely is the most dramatic development in the global economy since the year 2000. Volume II, which spans China's two turbulent centuries from 1800, charts this wrenching process of an ancient empire being transformed to re-emerge as a major world power. This

volume for the first time brings together the fruits of pioneering international scholarship in all dimensions of economic history to provide an authoritative and comprehensive overview of this tumultuous and dramatic transformation. In many cases, it offers a fundamental reinterpretation of major themes in Chinese economic history, such as the role of ideology, the rise of new institutions, human capital and public infrastructure, the impact of Western and Japanese imperialism, the role of external trade and investment, and the evolution of living standards in both the pre-Communist and Communist eras. The volume includes seven important chapters on the Mao and reform eras and provides a critical historical perspective linking the past with the present and future.

**The Cambridge History of Modern European Thought: Volume 2, The Twentieth Century** - Peter E. Gordon 2019-08-29

The Cambridge History of Modern European Thought is an authoritative and comprehensive exploration of the themes, thinkers and movements that shaped our intellectual world in the late-eighteenth and nineteenth century. Representing both individual figures and the contexts within which they developed their ideas, each essay is written in a clear accessible style by leading scholars in the field and offers both originality and interpretive insight. This second volume surveys twentieth-century European intellectual history, conceived as a crisis in modernity. Comprised of twenty-one chapters, it focuses on figures such as Freud, Heidegger, Adorno and Arendt, surveys major schools of thought including Phenomenology, Existentialism, and Conservatism, and discusses critical movements such as Postcolonialism, , Structuralism, and Post-structuralism. Renouncing a single 'master narrative' of European thought across the period, Peter E. Gordon and Warren Breckman establish a formidable new multi-faceted vision of European intellectual history for the global modern age.

*The Cambridge Modern History* - Sir A.W. Ward 2016-06-11

First Published in 1976. Routledge is an imprint of Taylor & Francis, an informa company.

*The Cambridge History of Modern European Thought: Volume 1, The Nineteenth Century* - Warren Breckman 2019-08-29

Presents an authoritative and comprehensive survey of the major themes, thinkers, and movements in modern European intellectual history.

**The Cambridge History of India** - Edward James Rapson 1968

**The Cambridge History of Twentieth-Century English Literature** - Laura Marcus 2004

Publisher Description

**The Cambridge Introduction to Postmodern Fiction** - Bran Nicol 2009-10-08

Postmodern fiction presents a challenge to the reader: instead of enjoying it passively, the reader has to work to understand its meanings, to think about what fiction is, and to question their own responses. Yet this very challenge makes postmodern writing so much fun to read and rewarding to study. Unlike most introductions to postmodernism and fiction, this book places the emphasis on literature rather than theory. It introduces the most prominent British and American novelists associated with postmodernism, from the 'pioneers', Beckett, Borges and Burroughs, to important post-war writers such as Pynchon, Carter, Atwood,

Morrison, Gibson, Auster, DeLillo, and Ellis. Designed for students and clearly written, this Introduction explains the preoccupations, styles and techniques that unite postmodern authors. Their work is characterized by a self-reflexive acknowledgement of its status as fiction, and by the various ways in which it challenges readers to question common-sense and commonplace assumptions about literature.

*The Cambridge History of China: Volume 14, The People's Republic, Part 1, The Emergence of Revolutionary China, 1949-1965* - Roderick MacFarquhar 1987-06-26

This is the first of the two final volumes of The Cambridge History of China, which describe the efforts of the People's Republic of China to grapple with the problems of adaptation to modern times. Volume 14 deals with the achievements of the economic and human disasters of the new regime's first sixteen years (1949-65). Part I chronicles the attempt to adapt the Soviet model of development to China, and Part II covers the subsequent efforts of China's leaders to find native solutions that would provide more rapid and appropriate answers to China's problems. Each of the two parts of the volume analyzes the key issues and developments in the spheres of politics, economics, culture, education, and foreign relations. The contributors, all leading scholars of the period, show the interrelation of Chinese actions in all these spheres, and the describe how, gradually, events led to the Cultural Revolution launched by Mao Tse-tung in 1966.

Cambridge Modern History - Sir Adolphus William Ward 1907

*The Cambridge History of American Foreign Relations* - Walter LaFeber 1993-09-24

The American Search for Opportunity, 1865-1913 analyzes the period between the American Civil War and World War I (1865-1913) as the formative basis for twentieth-century American world power--"The American Century" as it has become known--and examines the "Imperial Presidency" that these roots produced. The extent of U.S. power was so great that it not only transformed American society, but reshaped other societies around the globe as well, by helping fuel--and in some cases directly causing--the great revolutions of the late-nineteenth and early-twentieth centuries in Mexico, Russia, China, Cuba, Hawaii, the Philippines, Panama, and Central America. The book, therefore, not only examines American history, but the history of many other areas that were dramatically affected by U.S. power as they entered the twentieth century.

**The New Cambridge Modern History: Volume 2, The Reformation, 1520-1559** - G. R. Elton 1990-08-02

This is the second, amended and enlarged edition of a familiar standard work, first published in 1958. Like its predecessor, it describes the open conflicts of the Reformation from Luther's first challenge to the uneasy peace of the 1560s. Reforming movements in all the principal countries are discussed against the background of constitutional development and the political struggles of the ruling dynasties. Europe's relations with the outside world are given due prominence. The second edition incorporates the results of some thirty years of further research and fills some of the gaps, especially in the history of central Europe, which beset the first edition. All chapters that remain from 1958 have been revised, some very substantially, while other contributions are wholly new. The only other volume of The New Cambridge History planned to appear in a second edition is Volume I: The Renaissance scheduled for 1991.

**Return to Essentials** - Geoffrey Rudolph Elton 2002-08-22

This volume contains the text of the three Cook Lectures, which review various current doubts and queries concerning the writing of reasonably unbiased history.

The Cambridge Economic History of Modern Britain - Roderick Floud 2014-10-09

A new edition of the leading textbook on the economic history of Britain, Volume 2 re-examines Britain's economic growth and decline during the twentieth century.

*The Parliament of England, 1559-1581* - Geoffrey Rudolph Elton 1989-08-25

This is a comprehensive account of the parliament of early modern England at work, written by the leading authority on sixteenth-century English, constitutional and political history. Professor Elton explains how parliament dealt with bills and acts, discusses the many various matters that came to notice there, and investigates its role in political matters. In the process he proves that the prevailing doctrine, developed by the work of Sir John Neale, is wrong, that parliament did not acquire a major role in politics; that the notion

of a consistent, body of puritan agitators in opposition to the government is mere fiction and, although the Commons processed more bills than the House of Lords, the Lords occupied the more important and influential role. Parliament's fundamental function in the government of the realm lay rather in the granting of taxes and the making of laws. The latter were promoted by a great variety of interests - the Crown, the Privy Council, the bishops, and particularly by innumerable private initiators. A very large number of bills failed, most commonly for lack of time but also because agreement between the three partners (Queen, Lords and Commons) could not be reached.

**The Cambridge History of China. Volume 11, Late Ch'ing, 1800-1911. Part 2** - John King Fairbank 1980

*Studies in Tudor and Stuart Politics and Government: Volume 4, Papers and Reviews 1982-1990* - G. R. Elton 1992-10-01

This book is the fourth volume to feature Sir Geoffrey Elton's collected articles and reviews. It includes a group of pieces on sixteenth-century government and politics, particularly aspects of the Reformation, on the continent as well as in England, with some attention to Martin Luther and an essay on Lancelot Andrewes. Several pieces deal with parliament under the Tudors. A second group, "on Historians", reprints an appraisal of Sir Herbert Butterfield and three substantial reviews on historiographical problems.

**A History of the Ottoman Empire to 1730** - V. J. Parry 1976-09-16

From the historian's perspective, the Ottomans in their heyday could claim a more absolute monarchy than any of the truly European empires, a more successful record in quelling rebellion and the rise of national settlement, and the development and maintenance of more effective lines of communication between the centre and outlying lands. The chapters in this book were each written by a specialist in Ottoman history, and in combination they trace the steps by which the empire built on its fourteenth-century beginnings to the high point of its European power. The emphasis throughout is on the internal history of the empire and its relations with non-European states as well as with Europe; it is no longer possible or desirable to write merely from the point of view of the Western powers.

**The New Cambridge History of Islam: Volume 4, Islamic Cultures and Societies to the End of the Eighteenth Century** - Robert Irwin 2010-11-04

Robert Irwin's authoritative introduction to the fourth volume of The New Cambridge History of Islam offers a panoramic vision of Islamic culture from its origins to around 1800. The introductory chapter, which highlights key developments and introduces some of Islam's most famous protagonists, paves the way for an extraordinarily varied collection of essays. The themes treated include religion and law, conversion, Islam's relationship with the natural world, governance and politics, caliphs and kings, philosophy, science, medicine, language, art, architecture, literature, music and even cookery. What emerges from this rich collection, written by an international team of experts, is the diversity and dynamism of the societies which created this flourishing civilization. Volume four of The New Cambridge History of Islam serves as a thematic companion to the three preceding, politically oriented volumes, and in coverage extends across the pre-modern Islamic world.

*The New Cambridge Modern History: Volume 4, The Decline of Spain and the Thirty Years War, 1609-48/49* - J. P. Cooper 1979-12-20

A comprehensive examination of the political, economic, social, and cultural development of the world from 1493 to 1945

*The New Cambridge History of the Bible* - Euan Cameron 2016-09-01

Bengal: The British Bridgehead - P. J. Marshall 1987

The aim of Bengal: The British Bridgehead is to explain how, in the eighteenth century, Britain established her rule in eastern India, the first part of the subcontinent to be incorporated into the British Empire. Though the British were not in firm control of Bengal, Bihar and Orissa until 1765, to illustrate the circumstances in which they gained power and elucidate the Indian inheritance that so powerfully shaped the early years of their rule, professor Marshall begins his analysis around 1740 with the reign of Alivardi Khan, the last effective Mughal ruler of eastern India. He then explores the social, cultural and economic

changes that followed the imposition of foreign rule and seeks to assess the consequences for the peoples of the region; emphasis is given throughout as much to continuities rooted deep in the history of Bengal as to the more obvious effects of British domination. The volume closes in the 1820s when, with British rule firmly established, a new pattern of cultural and economic relations was developing between Britain and eastern India.

**The New Cambridge History of Islam** - 2010

*The Economy of Modern India, 1860-1970* - B. R. Tomlinson 1993-05-06

This is the first comprehensive and interpretative account of the history of economic growth and change in colonial and post-colonial India. Dr. Tomlinson draws together and expands on the specialist literature dealing with imperialism, development and underdevelopment, the historical processes of change in agriculture, trade and manufacture, and the relations among business, the economy and the state. What emerges is a picture of an economy in which some output growth and technical change occurred both before and after 1947, but in which a broadly based process of development has been constrained by structural and market imperfections. Tomlinson argues that India has thus had an underdeveloped economy, with weak market structures and underdeveloped institutions, which has since 1860 profoundly influenced the social, political and ecological history of South Asia.

**The Cambridge History of Egypt** - M. W. Daly 2008-07-10

History.

**The Daily Show (The Book)** - Chris Smith 2016-11-22

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

**The New Cambridge Modern History: Volume 7, The Old Regime, 1713-1763** - J. O. Lindsay 1957

This volume surveys the political, military and diplomatic history of a period of changing alliances and limited and gentlemanly but frequent wars. It gives particular weight to the emergence of Prussia and Russia as European Powers and to the rivalry of France and England in America, in India and on the high seas. The economic background to these national fortunes is of increasing international trade, technological progress and colonisation. Socially, European society slowly evolved from the domination of the aristocracy to that of urban populations and bourgeois administrators. Intellectually, the culture of Europe took on what are recognized as specifically eighteenth-century forms and ideals. From the point of view of world history this period saw the confirmation of European pre-eminence and dominion.

[Women in Modern India](#) - Geraldine Forbes 1996-05-09

The author traces the history of Indian women from the nineteenth century under colonial rule, to the twentieth century after Independence. She begins with the reform movement, established by men to educate women, and demonstrates how education changed their lives, enabling them to take part in public life. Through the women's own accounts, the author has compiled an accessible and immediate record of their achievements over the past two centuries, which will be of interest to students of South Asia and to anyone concerned with women and their history.

[The Cambridge History of War: Volume 4, War and the Modern World](#) - Roger Chickering 2012-09-27

Volume IV of The Cambridge History of War offers a definitive new account of war in the most destructive period in human history. Opening with the massive conflicts that erupted in the mid nineteenth century in the US, Asia and Europe, leading historians trace the global evolution of warfare through 'the age of mass', 'the age of machine' and 'the age of management'. They explore how industrialization and nationalism fostered vast armies whilst the emergence of mobile warfare and improved communications systems made possible the 'total warfare' of the two World Wars. With military conflict regionalized after 1945 they show how guerrilla and asymmetrical warfare highlighted the limits of the machine and mass as well as the importance of the media in winning 'hearts and minds'. This is a comprehensive guide to every facet of modern war from strategy and operations to its social, cultural, technological and political contexts and legacies.

[The Cambridge History of Southeast Asia](#) - Nicholas Tarling 1999

This history covers mainland and island Southeast Asia from Burma to Indonesia. Volume I is from prehistory to c1500. Volume II discusses the area's interaction with foreign countries from c1500-c1800. Volume III charts the colonial regimes of 1800-1930 and Volume IV is from World War II to 1999.
